In A.Y. 2002-03, the assessee suffered a long-term capital loss. Under section 74(1) as it then stood, such loss could be carried forward and set off against all capital gains including short-term capital gains. Section 74 was amended in A.Y. 2003-04 to provide that long-term capital loss could only be set-off against long-term capital gains and not against short-term-capital gain. When the assessee claimed a set-off in A.Y. 2004-05 the question arose whether the amended law should apply or the un-

amended law. The tribunal held that Right to set-off loss is a “vested right” which is available despite amendment in year of set-off. (A.Y. 2004-05)

**S. 45 : Capital gains – Investment in shares – India – Mauritius DTAA [Article 13(4)]**

Applicant is a company incorporated in Mauritius and was issued a Tax Residence Certificate by the Mauritius Tax Authorities. It realized capital gains from sale of shares in Indian company - AAR observed that in the case of Azadi Bachao Andolan 263 ITR 706, the Honorable Supreme Court has held that the certificate of residence issued by Mauritius Revenue Authority constitutes a valid and sufficient evidence of residential status under DTAA. Also, CBDT in Circular No. 682 dated 30.03.1994 has further clarified that under the DTAA, a resident of Mauritius having income from alienation of shares of Indian company shall be liable to tax only in Mauritius. In the case of E\*Trade Mauritius, AAR No. 862 of 2009, and, the Delhi ITAT in the case of Saraswati Holding Corporation, 2009-TIOL-529-ITAT-DEL, held the view that the gains arising out of alienation of shares of an Indian Company to a company who is a resident of Mauritius is liable to tax only in Mauritius in terms of Article 13(4) of the DTAA - Hence ruled that on the facts presented by the applicant and in the light of legal position discussed, the applicant is not liable to pay capital gains tax in India in respect of the transfer of shares.

### **S. 45 : Capital gains – Transfer without consideration – International transaction [S. 48, 92]**

Transfer of shares of Indian subsidiaries of an American company without consideration, in a scheme approved for bankruptcy proceedings in an American court - Revenue contended that taking over of liabilities can be taken as the consideration for the transfer of shares and that transfer includes even transfer by operation of Law and or under the orders of Court; also an arm's length price can be arrived at by taking resort to the transfer pricing provisions - AAR observed that the profit or gains or the full value of consideration cannot be arrived on a notional basis or hypothetical basis, the profit or gains to the transferor must be distinctly and clearly identifiable component of the transaction and that hypothetical benefit cannot be presumed and hence cannot be taxed. If charge under section 45 fails to operate for want of consideration or determinable consideration, provisions of sec. 92 etc. cannot be invoked as it is not an independent charging provision, but a machinery for the computation of income from an international transaction, which is charged to tax elsewhere under the Act.

### **S. 45 : Capital gains – Transfer – Receipt – Not conclusive [S. 2(47)(V)]**

Agreement entered into with a Developer for development of agricultural land by constructing residential complex - Irrevocable General POA issued after fulfillment of conditions of Letter of Intent issued by Director of Town Planning and supplementary agreement was entered into whereby owners agreed to sell their share for a consideration to be received in 6 installments within 27 months from date of agreement - Issue is about the year of chargeability of capital gains, integrally connected to which is the identification of the previous year in which the deemed transfer under section 2(47)(5) had taken place - Authority observed that clause (v) to section 2(47) seeks to include transactions that closely resemble transfers but are not treated as such under general law. It seeks to arrest avoidance or postponement of tax on capital gains by adopting devices such as enjoyment of property in pursuance to irrevocable power of attorney or part performance of a contract falling within the scope of section 53A of the Transfer of Property Act. The crucial question is what point of time the transaction allowing the taking of or retaining of possession in performance of such contract had taken place for it to be regarded as transfer. So long as the transferee is, by virtue of the possession given, enabled to exercise general control over the property and to make use of it for the intended purpose, the mere fact that the owner has also the right to enter the property to oversee the development work or to ensure performance of the terms of agreement or that full consideration has not yet been received does not introduce any incompatibility. Authority took the view that the crucial event or step that tantamounts to a "transaction allowing the possession to be taken" is the execution of irrevocable GPA in accordance with what is laid down in para 15 of the Collaboration Agreement as that was the culmination of a long series of pre-requirements - hence held on such

execution, transfer is deemed to have taken place and capital gains held to have arisen that year although entire sale consideration up to the last installment not yet received.

**S. 45 : Capital gains – Non-Resident – Resident of UAE – Shares of Indian listed Company – India-UAE DTAA [S. 90(2), Article 13]**

Applicant, a partnership firm in UAE intends to sell shares in an Indian listed company - Issue is whether capital gains would be taxable under Indian laws or under Article 13(3) of the DTAA which states that such gains are taxable only in UAE - Revenue contended that it should be taxed in India otherwise it would result in a case of double non-taxation as the applicant is not taxable in UAE - AAR observed that under the IT Act, it cannot be disputed that the capital gains arising to a non-resident in India, are taxable in India. But having regard to section 90(2) of the Act, the terms of the Treaty have overriding effect over the provisions of the Act in the event of there being conflict between the Treaty and the Act. Hence, in view of the provisions of para 3 of article 13 of the treaty, the capital gains arising to the applicant can be taxed only in UAE and not in India and that their taxability under the Act in India does not depend upon whether they are as a fact taxable in UAE

**S. 45(2) : Capital gains – Period of holding – Renouncement of right to receive Right Shares [S. 48(2)]**

For the computation of gain / loss resulting from renunciation of option given to the existing shareholders a right to subscribe to offer additional shares / debentures, the crucial dates for determination of nature of capital gains / loss (short term / long term) are the date of coming into existence of such right and date of renunciation thereof. Said right comes into existence when the offer is made and it is distinct and separate, capable of being transferred independently of the original shareholding. Hence, where the assessee renounced that right in favour of a third party for money in the assessment year and consequently suffered loss of a higher amount due to diminution in the value of original shares, the net loss so suffered was a short-term capital loss. Hence, the assessee rightly applied deduction under section 48(2) to

amount of long-term capital gains earned during the year and then from the remainder deducted the said short-term capital loss. Department erred in deducting the said short-term loss from long-term gains and then applying section 48(2) to the remainder.

An important principle for computation of capital gains under section 48 is that computation is an integral part of chargeability. (A.Y. 1992-93)

When a partnership firm is dissolved and the erstwhile partner receives stock, it is a capital asset in his hands. When that asset is introduced into a business as stock, it gets converted into stock-in-trade. The value of this stock will have to be the market value on the date of introduction. The same principle would apply if the assessee used her share of the stock obtained from the dissolved firm in the new business.

Assessee company which was engaged in the business of manufacturing of containers in the year 1999 converted the factory land in to stock-in-trade. The land was converted in to stock-in-trade by passing a special resolution in extraordinary general meeting of share holders approving the commencement of business of real estate. Assessing officer rejected the claim of the assessee and held that it was a simple transfer of said land as capital asset by assessee company for a stipulated consideration in terms of development agreement and rejected the claim of benefit under section 45(2) of the Income-tax Act. The Tribunal held that since the business of real estate development was duly carried on by assessee, it was entitled to benefit of provisions of section 45(2) in respect of conversion of factory land in to stock in trade. Payment made by the assessee prior date of conversion of land in to stock in trade, would constitute cost of improvement of land since land as a result of said expenditure had become fit for development / redevelopment. Compensation received by the assessee, the date of award i.e. 18-12-1992, was the crucial date for determining the assessment year with respect to which the compensation could be brought to capital gain tax. The finding of the Tribunal that the advance compensation received must be assessed in the year of receipt and the balance amount received pursuant to the award must be assessed in the year of receipt of amount, could not be accepted. Such a conclusion was not warranted from the provisions of clause (a) of sub section (5) of section 45. Section 45 (5)(a) does not refer to amount received as advance earlier to award passed by Collector. Where there was no case of the department that enhanced compensation was awarded by Court, Tribunal or other authority, there was no question of application of sub-section (5) of section 45 at all. **S. 45(5) : Capital gains – Enhanced compensation – Year of receipt – Code**

- (i) Section 45(5) deals with a situation where compensation on compulsory acquisition is enhanced (including further enhanced) by any court, Tribunal or other authority. Such enhancement of compensation is brought to charge in the year in which such enhanced compensation is received.
- (ii) Section 45(5) is a complete code as it provides not only for charging enhanced compensation but also contains a machinery for computation of income by providing that cost of acquisition and cost of improvement in such a case would be nil. It further provides that in case of a death, enhanced compensation shall be deemed to be the income of the person receiving it. The amount is to be taxed in the year of the receipt. Thus, section 45(5) is an overriding provision and quite different from sub-section (1) of section 45 in content and texture. (A.Y. 1995-96)

in India on the capital gains arising from the proposed transaction in India; as regards applicability of MAT, it relied on ruling in AAR 836 of 2009 in the case of Timken Company, USA, that under Section 591 of the Companies Act, only such foreign companies who have established a place of business within India are required to make out a balance sheet and P&L account; hence Section 115JB is not designed to be applicable to a foreign company who has no presence or PE in India - Hence held transfer cannot be regarded as transfer and that provisions of MAT are not attracted as the applicant is a foreign company and has no place of business or PE in India; transfer pricing norms are also not applicable in absence of capital gains tax.

On 3-1-1992, assessee entered in to an agreement with ATCL a group concern of assessee, for sale of shares of ARL. Assessee applied for necessary permission to Central Government under section 372 of Companies Act, 1956. On 9-7-1992, Central Government granted approval for transfer of shares of ARL by assessee to ATCL. On 20-11-1992, ATCL acquired entire shareholding of assessee company. Thereafter, on 22-12-1992; assessee effected transfer of shares of ARL to ATCL and received consideration for transfer. The Tribunal held that transaction of transfer of shares is complete only when share certificates together with transfer deed duly signed are delivered and payment received by seller. In the instant case transfer of shares took place on 22-12-1992, i.e. on a date when assessee had already become wholly owned subsidiary of ATCL and therefore, Capital Gain arising on sale of shares was not taxable in assessee's hands by virtue of provisions of section 47(v). **[S. 2(47), 45]**

Capital gains on transfer of shares in Indian company by amalgamating wholly owned foreign subsidiary company with amalgamated foreign parent company - Authority ruled that amalgamation of the wholly owned subsidiary foreign company with its parent company does not result in a transfer for consideration and therefore does not give rise to any capital gains. The liability to capital gains tax (if any) can only be on the transferor company (subsidiary), which in the present case has lost its identity and ceased to exist. Hence, no capital gains is chargeable. Amalgamation of a wholly owned subsidiary company with its parent company, does not result in a transfer for consideration, and therefore, does not give rise to any capital gains.

## **Section 48 : Mode of computation.**

### **S. 48 : Capital gains – Computation – Cost of acquisition – Short term or Long term – Renouncement of right to receive right shares**

Computation of gain / loss resulting from renunciation of option to subscribe to right shares.

For the computation of gain / loss resulting from renunciation of option given to the existing shareholder's a right to subscribe to offer additional shares / debentures, the crucial dates for determination of nature of capital gains / loss (short term / long term) are the date of coming into existence of such right and date of renunciation thereof. Said right comes into existence when the offer is made and it is distinct and separate capable of being transferred independently of the original shareholding. Hence, where the assessee renounced that right in favour of a third party for money in the AY and consequently suffered loss of a higher amount due to diminution in the value of original shares, the net loss so suffered was a short-term capital loss. Hence, the assessee rightly applied deduction under section 48(2) to amount of long-term capital gains earned during the year and then from the remainder deducted the said short-term capital loss. Department erred in deducting the said short-term loss from long-term gains and then applying section 48(2) to the remainder.

An important principle for computation of capital gains under section 48 is that computation is an integral part of chargeability. (A.Y. 1992-93)

### **S. 48 : Capital gains – Computation – Cost of acquisition – Land Acquired by succession from ex-Ruler – Cost of previous owner not ascertainable – Market value [S. 49, 55(2), 55(3)]**

For the assessment years 1977-78 and 1979-80, the assessee sold plots of land for consideration. The assessee contended that the previous owner was an ex ruler of Pepsu State and since the asset was acquired under the instrument of annexation its cost of acquisition could not be ascertained and that capital gains tax was not attracted. Held that the contention that the value was incapable of being ascertained was not tenable. It was not the case of the assessee that the land had no market value at all on the date of acquisition . Even where the cost of acquisition of capital asset cannot be ascertained but the asset has a market value, capital gains tax will be attracted by taking the cost of acquisition to be fair market value as on January 1, 1954 or on a date statutorily specified or at the option by assessee, market value on the date of acquisition. #### **S. 48 : Capital gains – Computation – Cost of acquisition – Gift – Indexed cost**

The assessee's daughter purchased a flat on 29.1.1993 at a cost of ` 50.48 lakhs. She gifted the flat to the assessee on 1.2.2003. The assessee sold the flat on 30.6.2003 for ` 1.10 crores. In computing LTCG, the assessee took the indexed cost of acquisition under Explanation (iii) to section 48 on the basis that she "held" the flat since 29.1.1993. The Assessing Officer held that as the assessee had "held" the flat from 1.2.2003, the cost inflation index for 2002-03 would be applicable. The CIT(A) and the Special Bench of the Tribunal upheld the claim of the assessee. On appeal by the department, HELD dismissing the appeal:

Under Explanation 1(i)(b) to section 2(42A), in determining the period for which any asset is held by an assessee under a gift, the period for which the said asset was held by the previous owner has to be included. Accordingly, though the assessee acquired the capital asset on 30.6.2003, she was deemed to have "held" the asset from 29.1.1993 onwards. This fiction will apply to clause (iii) of the Explanation to section 48 as well for determining the "indexed cost of acquisition". The object of the legislature is to tax the gains arising on transfer of a capital acquired under a gift or will by including the period for which the said asset was held by the previous owner. This object cannot be defeated by excluding the period for which the said asset was held by the previous owner while determining the indexed cost of acquisition of that asset to the assessee.

**S. 48 : Capital gains – Computation – NAV based PMS fees – Deductible**

In computing capital gains under section 48, payments are deductible in two ways, one by taking full value of consideration net of such payments and the other by deducting the same as "expenditure incurred wholly and exclusively in connection with the transfer". The expression "full value of consideration" contemplates additions and deductions from the apparent value. It means the "real and effective consideration", which can be arrived at only after allowing the deductible expenditure. The PMS fee, on profit sharing basis, was for the twin purposes of acquisition and sale of the securities. The fact that bifurcation between the two is not possible is not relevant. Accounting Standard 13 (Accounting for Investments) issued by ICAI provides that brokerage, fees and duties have to added to the cost of investments. (A.Ys. 2004-05 to 2006-07)

#### **S. 48 : Capital gains – Computation – Cost of acquisition – Non-Resident – Long-term capital gains – Indexation benefit – India-Canada DTAA [Article 24]**

Applicant holds 74% of the equity share capital in Transworld Garnet India Pvt. Ltd. ('TGI') and enters in an agreement to transfer such shareholding. It contends that denial of indexation benefit is tantamount to discriminatory tax treatment under the DTAA - AAR observed that said Article seeks to prevent differentiation solely on ground of nationality and not on basis of residence status. The state is not obliged to extend the same privileges which it accords to its own residents to one who is not. For example the residents are taxable on their worldwide income and the non-residents are not. Hence held that denial of indexation benefit to the non-resident applicant while computing capital gains arising from the sale of shares of TGI would not amount to discriminatory treatment in terms of said Article.

Non-resident applicant sold shares in an Indian listed company resulting in long-term capital gains; issue is whether the applicable tax rate would be 10% as per the proviso to S. 112(1) of the IT Act - AAR followed the ruling in case of Timken SAS, France where it was observed that applicability of 'second proviso to section 48' as mentioned in proviso to S.112(1) is not a condition precedent for availing the benefit under said proviso and AAR therein ruled that non-resident foreign company can avail the said benefit of 10% tax - It further ruled that interest paid to the shareholders to compensate for the delay and pursuant to the order of a statutory body becomes an inseparable part of cost of acquisition in plain sense or commercial sense as but for the payment by way of interest, it would not have been possible to acquire the shares and hence interest paid is admissible as cost of acquisition

**S. 49 : Capital gains – Previous owner – Cost of acquisition – Family arrangement – Company assets – HUF – Director [S. 45]**

Assessee is Director in a company AG. By way of family arrangement half of the land owned by company came to the share of the present assessee and other half went to the share of another family group. Assessee sold their share of land for an amount of ₹ 2.9 crores. Assessee computed the capital gains by applying the provision of section 49(1). The Assessing Officer held that assets in question are not the property of HUF but it was owned by company AG and there was no distribution of its assets, because there was no liquidation of the company. Consequently, the said capital asset continued to be owned by AG and did not become the property of the assessee's hands therefore section 49(1) would not apply. The Court directed the Assessing Officer to compute the capital gains in the said company and give credit of taxes paid by assessee.

Principles for computing capital gains are the same, both under section 41(2) as it stood at the relevant time, and under section 50. The sale value assigned by the transferee for the purpose of their books of account could not constitute the basis for computing income/ profits of the assessee company under the Act. In the case of sale of business as a whole, there is no allocation of price to any particular asset and therefore, the computation of capital gains in such a case is done on the business as a whole which business is a capital asset. **S. 50 : Capital Gains – Depreciable assets – Indexation – Block of assets [S. 2(11)]**

Assessee claimed depreciation on capital asset (flat) for two years as it was used as office premises which was allowed. Flat was the only asset in the block of assets. No depreciation was claimed for later years as the flat was not used for the purposes of business but leased on rent. Assessing Officer and CIT(A) held that the as the flat being only asset in the block of assets the capital gains is assessable as short term capital gains. On appeal the Tribunal held that the moment the assessee stopped claiming depreciation in respect of the flat and even let out the same for rent, it ceased to be a business asset. The Tribunal directed the Assessing Officer to allow benefit of indexation as claimed by the assessee treating the sale as long term capital asset.

**S. 50 : Capital gains – Depreciable assets – Setoff of long term capital loss against short term capital gains [S. 2(11), 74(1)(b)]**

Under section 74(1)(b), the assessee is entitled to claim of set off of long term capital loss against the capital gains income arising from the sale of office premises being depreciable asset, the gain of which is short term due to the deeming provisions of section 50(2) but the asset is long term. ### **S. 50 : Capital gains – Depreciable assets – Actually allowed – Notionally allowed**

It was held that there cannot be any presumption regarding allowing depreciation unless it was actually claimed by the assessee and allowed by the Assessing Officer. However, it was held that connotation of the phrase used under section 43(6)(b) is “actually allowed” which means depreciation actually taken into account or granted and given effect to it cannot be stretched to mean “notionally allowed” or merely allowable on notional basis. Therefore, for the purpose of section 50, during the relevant period of time, depreciation has been allowed means depreciation actually allowed to the assessee.

### **S. 50 : Capital gains – Depreciable assets – Trading in assets**

The assessee had sold, amongst others, a building wherein it had constructed industrial galas. The assessee claimed that the same was held stock-in-trade. On the sale the assessee suffered loss which was claimed as business loss. The Assessing Officer treated the same as “short-term capital loss” under section 50. On Appeal, CIT(A) upheld the assessment order. Tribunal noted that no depreciation was claimed and advances were received on sale of galas. The Tribunal held that once an assessee has trading assets, and the assessee, for whatever reasons, sells the same in whatever form, the resultant profit or loss can only be treated as business profit/loss. ### **S. 50 : Capital gains – Depreciable assets – Compensation from insurance company**

It was held that, as the amount received from Insurance Co. for loss of depreciable asset was lower or lesser than the items mentioned in section 50(1), the entire receipts has been rightly adjusted against the w.d.v. of assets under section 43(6), and there would be no Capital Gains as per provisions of section 45(1A).

**S. 50 : Capital gains – Depreciable assets – Depreciation allowed – No business in latter years**

For the applicability of Sec. 50, it is not necessary that the depreciation is allowed for the very year under consideration. Provision of Sec. 50 is applicable as the Assessee admittedly carried on business up to A. Y. 1985-86 from the factory building i.e. sold during the previous year relevant to asst. yr. 1988-89 even though the assessee has not carried on the business after the asst. yr. 1985-86. Section 50 would be applicable if depreciation is allowed in any of the year either under income tax Act 1961 or 1922 Act. Thus the user of the asst during the year under consideration is not necessary. (A.Y. 1988-89)

**S. 50B : Capital gains – Slump sale – Transfer of undertaking – Non money consideration – Cost of acquisition not determinable [S. 2(42C), 45]**

In order to constitute a "slump sale" under section 2(42C), the transfer must be as a result of a "sale" i.e. for a money consideration and not by way of an "Exchange". The difference between a sale and an exchange is this that in the former the price is paid in money, whilst in the latter it is paid in goods by way of barter. The presence of money consideration is an essential element in a transaction of sale. As the

undertaking was transferred in consideration of shares & bonds, it was a case of "exchange" and not "sale" and so section 2(42C) and section 50B cannot apply. As regards taxability under section 45 & 48, the "capital asset" which was transferred was the "entire undertaking" and not individual assets and liabilities forming part of the undertaking. In the absence of a cost/date of acquisition, the computation & charging provisions of section 45 fail and the transaction cannot be assessed (*Premier Automobiles Ltd. v. ITO* (2003) 264 ITR 193 (Bom.) distinguished). (A.Y. 2005-06) *Bharat Bijlee Limited v. ACIT* ITA No. 6410/Mum/2008 dated 11-3-2011 (Mum.)(Trib.)

**S. 50C : Capital gains – Full value of consideration – Stamp valuation – Not-ultra vires**

The assessee was the owner of land & building, it entered into a development agreement for the development & sale of the land. The consideration receivable by the assessee was ` 4.85 crores. The stamp authorities valued the same at ` 15.50 crores and the duty was paid by the developer. As the stamp valuation adversely affected the assessee for the purpose of section 50C (which provides that the value adopted by the stamp authorities shall be deemed to be full value of the consideration received or accruing as a result of transfer). The assessee challenged the validity of the provision. The Court dismissing the petition held that (1) there is a distinction between the subject matter of a tax and the standard by which the amount of tax and the standard by which the amount of tax is measured. Section 50C is only a standard of measuring for imposition of tax hence valid. The Court followed the principle laid down in *A Sanyasi Rao* 219 ITR 330 (SC).

**S. 50C : Capital gains – Full value of consideration – Stamp valuation – Depreciable assets – Applicable [S. 2(11), 48, 50]**

There are two deeming fictions created in section 50 and section 50C for computing capital gains on building. While section 50 modifies the “cost of acquisition” for purposes of section 48, section 50C modifies the term “full value of the consideration received or accruing as a result of transfer of the capital asset”. The two deeming fictions operate in different fields and there is no conflict between them. As section 50C was inserted to prevent assessee’s indulging in under-valuation, there is no logic why it should not be applied to a depreciable building.

**S. 50C : Capital gains – Full value of consideration – Stamp valuation – “Leasehold rights”**

Section 50C is a deeming provision which extends only to a capital asset which is “land or building or both”. A deeming provision cannot be extended beyond the purpose for which it is enacted. If a capital asset cannot be described as “land or building or both”, section 50C cannot apply. A lease right in a plot of land is neither “land or building or both”. The distinction between a capital asset being “land or building or both” and any “right in land or building or both” is well recognized. “Land or building” is distinct from “any right in land or building”. Consequently, section 50C does not apply to leasehold rights. (A. Y. 2006-07)

Assessing Officer cannot disregard the value determined by the DVO under section 50C(2) read with 16A of the Wealth-tax Act and proceed to compute long term capital gain in accordance with the value determined by stamp valuation authority. The assessee was the co-owner of an immoveable property acquired prior to 31-3-1981. Both the co-owners agreed to sell the property in 1994 and they have received advances in installment. Transfer took place in the year 2003-04. Assessing Officer and Commissioner (Appeals) held that advance reduced by the assessee should be deducted from the value of property as on 1-4-1981, while computing cost of acquisition. The Tribunal held that the provisions of section 51 are applicable to an aborted transaction only. In the case of the assessee, the advances were received from transaction which was not aborted, therefore Assessing Officer was not justified in reducing the advance money received from cost of acquisition. Assessee sold her residential house property and invested part of sale proceeds in purchasing residential house property and specified bonds in joint names of assessee and her husband. The Court held that as entire consideration had flown from assessee and no consideration had flown from her husband, merely because either in sale deed or in bonds her husband's name is mentioned, in law, he would not have any right, and assessee could not be denied benefit of deduction under section 54 and 54EC. Assessee was allotted a flat under scheme of DDA on 27-2-1982. Delivery of possession of said flat took place on 15-5-1986, when actual flat number was allotted to assessee. Assessee sold said flat on 1-1-1989 and claimed set off under section 54 against long term Capital Gain. Assessing Officer treated the said transaction as short term capital gain considering the date as 15-5-1986. The High Court held that under self finance scheme, an allottee gets title to property on issuance of an allotment letter and payment of installments is only a consequential action upon which delivery of possession flows hence claim under section 54 was justified. #### **S. 54 : Capital gains – Property used for residence – Exemption – HUF – Prior to 1-4-1988**

The word appearing in section 54 prior to its amendment with effect from 1-4-98 were "being used by the assessee or parent of his". This clearly shows that a reference was made to the assessee as an individual; otherwise, the question of "parent of his" would not have arisen. Similarly, expression "For the purpose of own or his parent's residence" further clarifies this position. Thus there is ambiguity in the section so as to extend the benefit to the persons other than the individual. Thus an HUF was not entitled to the benefit of section 54 prior to its amendment with effect from 1-4-98. (A.Y. 1976-77)

Though section 54 refers to capital gains arising from "transfer of a residential house", it does not provide that the exemption is available only in relation to one house. If an assessee has sold multiple houses, then the exemption under section 54 is available in respect of all houses if the other conditions are fulfilled. If more than one house is sold and more than one house is bought, a corresponding exemption under section 54 is available. The exemption is not available on an aggregate basis but has to be computed considering each sale and the corresponding purchase adopting a combination beneficial to the assessee. (A. Y. 2006-07)

Assessing Officer was of the view that as registration of transfer deed of building was dated 26-8-2004 hence, claim under section 54 was denied. The Tribunal held that buyer had performed their part of obligation as on 30-4-2004, in such a situation, mere non registration of

**S. 54 : Capital gains – Property used for residence – Exemption – Cost of new asset [S. 54F]**

Assessee claimed and was allowed exemption under section 54 for asst. yr. 1996-97 in respect of part of capital gains. And he claimed balance of purchase price of new house as exempt under section 54F in asst. yr. 1997-98 was allowed accordingly as the assessee, otherwise, had fulfilled all the conditions of Sec. 54F in the relevant year. However, cost of new asset has to be determined under section 54(1)(iii). In view of these facts the Assessing Officer was directed to work out and allow exemption under section 54F by taking cost of new asset at purchase price of house less capital gains already exempted under section 54. (A.Y. 1997-98). *Ravindra K. Mariwala v. JT. CIT (2003) 86 ITD 35 / 81 TTJ 589 (Mum.)(Trib.)*

#### **S. 54B : Capital gains – Land used for agricultural purposes – Exemption – Co-owner**

The assessee sold agricultural land which was used by him for agricultural purpose. Out of the sale proceeds the assessee purchased another agricultural land jointly along with his only dependent son and claimed exemption under section 54B of the Act on reinvestment. Assessing officer denied the assessee's claim of deduction under section 54B as the land was purchased by the assessee jointly with his son. On these facts the High Court held that as the land was purchased for agricultural purpose, merely because in the deed for purchase of land his son was shown as co-owner the exemption under section 54B could not be denied to the assessee.

## **Section 54EC : Capital gain not to be charged on investment in certain bonds.**

### **S. 54EC : Capital gains – Investment in bonds – Exemption – In joint names [S. 54]**

To claim exemption under sections 54 and 54EC what is material is investment of sale consideration in acquiring residential premises or constructing a residential premises or investing amount in bonds set out in section 54EC, there is no requirement that such investments should be in name of assessee only. Assessee sold her residential house property and invested part of sale proceeds in purchasing residential house property and specified bonds in joint names of assessee and her husband. The Court held that as entire consideration had flown from assessee and no consideration had flown from her husband, merely because either in sale deed or in bonds her husband's name is mentioned, in law, he would not have any right, and assessee could not be denied benefit of deduction under section 54 and 54EC. ### **S. 54EC : Capital gains – Investment in bonds – Exemption – Six months from the end of month [S. 45]**

During the previous year relevant to the assessment year under consideration the assessee sold shares of two companies on 24th February 2005. The assessee invested entire sale consideration on 30th August 2005, in the bonds specified under section 54EC. i.e. REC Bonds. The Tribunal held that the word used in section is “any time with in a period of six months after the date of such transfer”. The term “month” is not defined in the Income-tax Act, 1961. Applying the expression used in the General clauses Act, 1897, the term six months should be reckoned from the end of month in which the transfer takes place. On the facts as the invest were made on 30th August, 2005, the Tribunal held that the assessee is entitled to exemption under section 54EC. (A. Y. 2005-06).

### **S. 54EC : Capital gains – Investment in bonds – Exemption – Allowable before set-off of brought forward loss**

While section 54EC is an exemption provision which exempts capital gains and takes them outside the purview of chargeable “capital gains”, section 74 deals with the carry forward and set off of loss under the head “capital gains”. The stage at which set off of carried forward long term capital loss is to be given is subsequent to the stage at which income under the head capital gains is computed and deduction under section 54EC is to be given in the course of the latter. Accordingly, section 54EC deduction has to be given before set-off of losses. (A. Y. 2005-06)

### **S 54F : Capital gains – Investment in residential house – Exemption – Share transactions**

Assessee's claim under section 54F against Long Term Capital Gain on shares was rejected by Assessing Officer, on grounds that full amount was not paid for purchase of shares, and that it is highly improbable that prices of shares could go up so much within a short period of one year. It was held that as the purchase is confirmed by share broker, and the shares were transferred in the name of the assessee, and rate was also supported by rates quoted at Patna Stock Exchange, there is no justification in suspecting the entire share transaction, and addition cannot be sustained.

### **S. 54F : Capital gains – Investment in residential house – Exemption – Co-owner**

Word 'own' in s. 54F would include only a residential house which is fully and wholly owned by assessee and therefore assessee could not be denied exemption under section 54F on the ground that he was co-owner of another residential house with his wife.

### **S. 54F : Capital gains – Investment in residential house – Exemption – Remodelling and renovation – Construction of house**

The assessee had sold two shops and the entire amount of capital gain was claimed to have been invested in remodeling and renovation of residential house. The Assessing Officer has denied the exemption. The Tribunal held that terms 'remodel' and 'renovation' sufficiently refer to new construction also and therefore, the assessee had to be held to have made investment in construction of residential house within the stipulated time. **S. 55 : Capital gains – Cost of improvement – Cost of acquisition – FMV on 1-4-1981**

Assessee acquired 1/9 right in a property. She sold her share of property. She adopted 1 lakh per ground as fair market value of property as on 1-4-1981. Inspector visited concerned sub registrar Office and gathered the details on basis of fair market value of ₹ 15,000 per ground. The Assessing Officer adopted the guideline value of registrar’s office for computing capital gains. The Tribunal held that the guideline value collected from sub-registrar office is only a guiding factors for valuing a property and such guideline value need not be market value for all time. Market value has to be determined by so many external factors including prevalent market conditions hence detailed enquiry is needed for arriving at a reasonable market value of property. Accordingly the Tribunal remanded the matter for fresh consideration. (A. Y. 2007-08)

**S. 56(2)(v) : Income from other sources – Gift received from HUF – Exempt – “Relative”**

Where assessee receives gift from HUF it was held that though the definition of the term “relative” does not specifically include a Hindu Undivided Family, a ‘HUF’ constitutes all persons lineally descended from a common ancestor and includes their mothers, wives or widows and unmarried daughters. As all these persons fall in the definition of “relative”, an HUF is ‘a group of relatives’. As a gift from a “relative” is exempt, a gift from a ‘group of relatives’ is also exempt since the singular will include the plural. (A. Y. 2005-06).

### **S. 57(iii) : Income from other sources – Deductions – Expenditure – Interest – Lifting veil – “Substance”**

Under section 57(iii), expenditure laid out or expended wholly or exclusively for the purpose of making or earning income is deductible. It is the purpose of the expenditure that is relevant but the purpose need not be fulfilled. *CIT v. Rajendra Prasad Moody (1978) 115 ITR 519 (SC)* followed. The assessee must act bona fide & show nexus between the advancing of funds and his business interest. The dominant purpose for making the investment must be to earn income & to ascertain the purpose the Assessing Officer may lift the veil (*CIT v. Swapna Roy (2011) 331 ITR 367 (All) & Punjab Stainless Steel Industries v. CIT (2010) 324 ITR 396 (Delhi)* followed);

The amount was transferred by the bank at the instance of the assessee from the cash / packing credit account of the assessee into fixed deposit account. The interest income earned thereon was offered by the assessee as Income from Other Sources after deducting an estimated amount of interest expenses in terms of section 57(iii) of the Act from the interest earned by the assessee on such fixed deposits. On these facts the Hon'ble High Court held that as the term deposits made by the assessee were not from borrowed funds but from the export proceeds credited in the cash / packing credit

account as such the interest expenses cannot be allowed as deduction from the interest income earned by the assessee on such term deposits. (A.Y. 2001-02)

### **S. 68 : Cash credits – Share application money – Discharge of burden**

The Department contended before the Hon'ble High Court that the assessee company while discharging the onus cast on it has not established the capacity of the creditor of the share holder. The Hon'ble Court observed that the revenue could have gone back, insofar as the assessee was concerned, to determine whether the shareholder was a genuine person and whether she had requisite creditworthiness or not. Once that was established, there was no occasion for the revenue to go further to find out whether creditor of the shareholder was also genuine and creditworthy. That would be stretching the provisions of section 68 a little too far. (A.Y. 2001-02)

**S. 68 : Cash credits – Gifts – Addition sustained**

Assessee received gift of ` 1 lakh from ten individuals. It was noted from the records that donors had deposited monies in their bank account on same day or one day prior

to making of gifts through account payee cheques. It was observed that, personal withdrawals of donors for their house hold expenses were petty and it did not support status of donors to gift of ₹ 1 lakh, besides none of donors was relative of assessee, in view of the facts gifts received by the assessee confirmed as cash credits. *Haresh A. Dhanani v. ACIT, ITA No. 5850/Mum/2008, dt. 22-5-2009 – BCAJ P. 43, Vol. 41A, Part 6, September, 2009. (Mum.)(Trib.)*

**S. 68 : Cash credits – Share application money – Degree of proof**

It was held that burden of proof is confined to establish identity of creditor, its credit worthiness and genuineness of transaction and not to explain entire background. Once the assessee had discharged the burden, the extraneous material on which reliance is placed by Assessing Officer for doubting the genuineness of transactions is not relevant. Further, when there are no adverse material or tangible evidence against evidence produced by the assessee, the impugned addition can not be sustained. In the instant case share application money treated as undisclosed Income under section 68 was deleted.

*Monnet Ispat & Energy Ltd. v. Dy. CIT (2008) 171 Taxman 27 (Mag.)(Delhi)(Trib.)*

**S. 68 : Cash credits – Sale of shares – Broker not produced – Exemption [S. 54EC]**

Assessee disclosed the sale of shares and receipt thereof in her Return of Income and claimed exemption under section 54EC, but could not produce broker and purchaser and even requisition under section 133 (6) were returned unserved. Assessing Officer treated the sale proceeds of shares as her unexplained cash credits under section 68. Held, that as the transaction entered was duly supported by Bill, Contract Note, Delivery and transactions having been reflected in Balance Sheets, and Assessing Officer having no evidence, additions based merely on doubts can not be justified.

*Saumya Agrawal(Km) v. ITO (2008) 173 Taxman 60 (Mag.)(Agra)(Trib.)*

### **S. 68 : Cash credits – Gifts – Relative of partner**

Where donor was a close relative of partners and transaction had not been doubted by Assessing Officer, amounts introduced by assessee-firm in books and claimed to be gifts could not be added. (A.Y. 1997-98)

*ITO v. Super Chemicals Distributors (2005) 1 SOT 102 (Delhi)(Trib.)*

### **S. 68 : Cash credits – Gifts – Occasion of birth day**

Where assessee had explained amount found deposited in his daughter's account as gift received by her on occasion of her birthday and Assessing Officer could not rebut such explanation, addition of such deposit to assessee's income was not justified.

*Vishnu Kumar Gupta v. Dy. CIT (2005) 94 TTJ 1082 (Mum.)(Trib.)*

### **S. 68 : Cash credits – Gifts – NRI**

Where Assessing Officer treated a gift received by assessee from an NRE account as non-genuine on ground that donor was not a man of means, as money had come from NRE account, prima facie genuineness of same could not be doubted, especially in face of fact that revenue had not led any material or evidence to allege any collusion or under-hand dealing in entire transaction and as such, addition on account of such gift was not justified. (A.Y. 2000-01)

*ITO v. Puneet Chugh (2005) 2 SOT 101 (Delhi)(Trib.)*

### **S. 68 : Cash credits – Gifts – Wife of assessee**

Where documents found during search indicated that assessee's wife had received gifts and those were shown in respective balance sheet of donors, failure of assessee's wife to explain such gifts in her statement under section 132(4) would not justify addition thereof. (A.Ys. 1988-89 to 1998-99)

*Dy. CIT v. M. L. Jain (2005) 96 TTJ 362 (Jodh.)(Trib.)*

#### **S. 69 : Unexplained investments – Investment in purchase of land – Stamp duty valuation**

A plot was purchased by four individuals for a total consideration of ` 5 lakhs. It was valued by Sub-Registrar for the purposes of stamp duty at ` 9,82,355/- on which stamp duty of ` 88,420/- was paid. Assessing Officer added the entire amount of ` 10,70,775/- as the value of investment made in the subject land purchased by the alleged AOP. It was held that provisions of section 50C cannot be extended to the case of the purchaser unless the fact of understatement is established by the Revenue.

Further, all the four individual purchasers were income tax assessee and were in the service of State Govt. for last several years and in some cases their spouses are also in service. It was not difficult for them to invest ` 5 lakhs collectively. Hence, as no contrary material was brought on record. Addition was deleted.

#### **S. 69 : Unexplained investments – Cost of construction – District valuation officer**

Difference between the cost of construction declared by the assessee and the cost estimated by DVO being negligible, it cannot be inferred that the assessee has made

any undisclosed investment and therefore, no addition can be sustained. (A.Ys. 1988-89, 1989-90)

*Saroj Gupta (Smt) v. ITO (2007) 106 TTJ 1073 (Delhi)(Trib.)*

#### **S. 69 : Unexplained investments – Value of stock**

Addition made on account of difference in value of stock declared to the bank vis-à-vis stock found recorded in the books of account was rightly deleted as the stock shown to the bank included the stocks of the proprietary concerns of two directors of the assessee company. (A.Y. 1998-99)

**S. 69 : Unexplained investments – Bank deposits – Plot of land – Fund flow**

Addition for bank deposits and investment in plot of land cannot be made under section 69 treating its source as unexplained ignoring the fund flow statement. (A.Y. 198-99)

*Adeshwar Jain v. ITO – ITA No. 261/JU/2004, dated 20th January, 2006 (Tax World – May 2006 – Vol XXXV – P. 150)(Jodh.)(Trib.)*

**S. 69 : Unexplained investments – Report of inspector – Opportunity**

Assessing Officer was not justified in making addition in respect of unexplained investment in house property only on the basis of the report of the Inspector, more so when such report was not even confronted to the assessee. (A.Y. 1998-99)

*ITO v. Prakash Chand (2006) 100 TTJ 639 (Jodh.)(Trib.)*

**S. 69 : Unexplained investments – Cash flow statement – Plot of land**

Assessee having explained the source of investment in the plot through cash flow statement and the CIT(A) having accepted the explanation of the assessee addition rightly deleted. (A.Y. 1990-91)

*ACIT v. Jagdish Raj Chauhan (2006) 100 TTJ 464 (Amritsar)(Trib.)*

**S. 69 : Unexplained investments – Suppliers could not be located**

Addition under section 69 was not justified merely because suppliers could not be located and were not produced for examination. (A.Y. 1995-96)

*Rajesh P. Soni v. ACIT (2006) 100 TTJ 892 (Ahd.)(Trib.)*

**S. 69 : Power of attorney – Sold on behalf of owners – Power of Attorney**

Addition could not be made in the hands of the assessee on account of unexplained investment merely because he was holding power of attorney and sold the property on behalf of the owners. (A.Ys. 1984-85 to 1989-90)

*ACIT v. Janak Raj Chauhan (2006) 102 TTJ 297 (Amritsar)(Trib.)*

**S. 69 : Unexplained investments – Investment – Source explained**

Assessee having adduced all the requisite evidence the transactions could not be treated as bogus, and the explanation of the assessee that the investment in construction of residential house was made out of sale proceeds of shares could not be rejected. Addition under section 69 rightly deleted. (A.Y. 1997-98)

*ITO v. Kusumlata (Smt) (2006) 105 TTJ 265 (Jodh.)(Trib.)*

**S. 69 : Unexplained investments – VDIS – Sale of Jewellery**

Assessee having sold jewellery which was duly disclosed by him under VDIS, 1997, and produced bills and vouchers and sale consideration which was received through account payee draft, the primary onus cast on the assessee stood discharged and, therefore, addition could not be made. (A.Y. 1998-99)

*Badri Vishal Aggarwal v. Dy. CIT (2006) 105 TTJ 418 (Delhi)(Trib.)*

**S. 69 : Unexplained investments – Block assessment – Agricultural income**

Reasonable agricultural income shown by the assessee could not be treated as income from undisclosed sources merely because assessee has shown agricultural income for the first time and the land records show a different produce than what was sold by assessee. (A.Y. 2001-02)

*Bhanuben Chimanlal Malavia (Smt) v. ITO (2006) 100 TTJ 337 (Rajkot)(Trib.)*

**S. 69 : Unexplained investments – Valuation of Inventory – Discrepancy in stock [S. 145]**

Matter remitted to Assessing Officer to verify the explanation of the assessee that the difference between the valuation of inventory in the books and that submitted to the bank arose merely on account of difference in bifurcation of the total quantity into levy and non-levy (free) sale sugar in the two statements and to enquire as to whether the reduction in quantity of levy sugar as shown by the assessee at the end of the year was on account of a temporary or a permanent reason and to adjudicate the matter in accordance with law after recording definite findings. **S. 69 : Unexplained investments – Search & Seizure – On money – Statement – Retraction [S. 131, 132]**

Assessee purchased a flat in a building from a builder under an agreement. During search and seizure operation conducted some loose papers, allegedly pertaining to that flat, were seized. When confronted, assessee's father, in his statement recorded under section 132(4), admitted to have paid ` 50 lakhs as on-money besides agreed consideration for said flat. However, during post-search operations, in his subsequent statement made under section 131, he denied to have paid any on-money and clarified that his earlier statement was incorrect. Subsequent clarification given by him had to be accepted as proper explanation of earlier statement during course of search and no addition could be retained only on basis of earlier statement, ignoring subsequent clarification given before conclusion of search enquiries.

**S. 69 : Unexplained investments – Date of purchase and payments – Discrepancy**

Discrepancy between date of purchase and date of payment would not justify treatment of such payment as undisclosed investment in purchase. (A.Ys. 1986-87 to 1996-97)

*Subhash Chand Chopra v. ACIT (2005) 92 TTJ 1087 (Delhi)(Trib.)*

**S. 69 : Unexplained investments – Construction expenses – CPWD rates**

Where difference in cost of construction arrived at by Assessing Officer for making addition on account of unexplained investment was because DVO had applied CPWD rate while PWD rates, which should have been applied (as Ujjain where property was situated was a mufassil area), were 25 per cent lower, addition was not justified. (A.Ys. 1994-95 to 1996-97)

*ITO v. Prakashchand Soni (2005) 94 TTJ 631 (Indore)(Trib.)*

**S. 69 : Unexplained investments – Construction expenses – Valuation reports – Rejection of books of account – CPWD rates opportunity for cross examination [S. 144]**

Where search did not result in discovery of any secret books or documents or diaries showing that assessee incurred a higher expenditure on construction than declared in the books and accepted by Assessing Officer in regular assessment, difference in valuation arising out of subject report of Valuation Officer could not be brought to charge in block assessment. Reference to valuation cell was not justified where there was no rejection of books of assessee in respect of cost of construction. CPWD rates cannot be applied in State of Karnataka to estimate cost of construction. Opportunity

of cross examination of under to whom allegedly on-money was paid must be provided.

*Dinesh K. Shah v. Dy. CIT (2005) 92 TTJ 109 (Bang.)(Trib.)*

**S. 69 : Unexplained investments – Construction expenses – Valuation officer [S. 142A]**

Where no material was recovered during course of search relating to cost of construction of building, Assessing Officer could not make a reference to Valuation Officer under section 142A to arrive at cost of construction and make addition on the basis thereof. (A.Y. 1986-87 to 1996-97)

*Subhash Chand Chopra v. ACIT (2005) 92 TTJ 1087 (Delhi)(Trib.)*

**S. 69 : Unexplained investments – Construction expenses – Records**

Where assessee had maintained complete records of cost of construction and same was duly reflected in books of account and during course of search and seizure action, while evidence was found indicating undisclosed income from profession, no such evidence was found to show that assessee had utilised her undisclosed income in construction of house property, addition on account of undisclosed investment in property was not justified.

*ACIT v. Sharda Adhalkha (Dr. Mrs). (2005) 95 TTJ 643 (Amritsar)(Trib.)*

**S. 69 : Unexplained investments – Construction expenses – Factory building – Accounts – Audit**

Where cost of construction as incurred by assessee in erection of factory building, was duly accounted for in its books of account, assessee had filed audit report relating to assessment in question showing details of such investment therein and Assessing Officer had not disputed year-wise investment either, no addition to assessee's income on account of unexplained investment in cost of construction could be made. (A.Y. 1988-89)

*Dy. CIT v. Shakti Enterprises (P.) Ltd. (2005) 97 TTJ 426 (Jodh.)(Trib.)*

**S. 69 : Unexplained investments – Construction expenses – Benami flat**

Where addition was made to assessee's income on account of investments in flats allegedly held benami in assessee's name without affording reasonable opportunity of hearing to assessee, matter was to be remanded to Assessing Officer for deciding issue afresh.

*ITO v. Janak Kumar C. Vyas (2005) 92 TTJ 1231 (Ahd.)(Trib.)*

**S. 69 : Unexplained investments – Construction expense benami – Relevance of statement**

Where apart from confessional statement made by assessee before DDIT (Inv.) there was no evidence that assessee had indeed made any investment in property in assessment year under reference and facts showed that he had neither acquired any

plot or shops in year 1993 as stated by him in confessional statement, addition based on such statement was not justified. (A.Ys. 1994-95 to 2000-01)

*ITO v. Bua Dass (2005) 97 TTJ 650 (Amritsar)(Trib.)*

#### **S. 69 : Unexplained investments – Stocks – Excess deficit stock**

Where during course of search, excess stock/deficit stock was found in respect of various items of scrap and Assessing Officer treated excess stock found as purchases made by assessee out of unaccounted income and deficit stock as sold outside books of account, addition made by Assessing Officer on both counts was not justified. (A.Ys. 1990-91 and 1991-92)

*ACIT v. Mercury Metals (P.) Ltd. (2005) 1 SOT 435 / (2004) 90 TTJ 156 (Ahd.)(Trib.)*

#### **S. 69 : Unexplained investments – Stocks – Surrender**

Where it was crystal clear that surrender made by assessee was not forced surrender but, on contrary, assessee surrendered a sum of ` 5 lakhs when he was cornered regarding unrecorded purchases, addition based on assessee's surrender was justified. (A.Y. 1996-97)

*ITO v. Ashok Kumar (2005) 92 TTJ 467 (Chd.)(Trib.)*

#### **S. 69 : Unexplained investments – Stocks – Retraction – Evidence**

Where assessee had made a statement and on basis of same impugned additions were made, but statement was retracted and 'evidence' was placed that stock was not correctly taken and verified, action of Assessing Officer was not justified as he had simply rejected above evidence of assessee and solely placed reliance on statement in question. (A.Y. 1997-98)

*Laxmi Narayan Jangid v. ITO (2005) 93 TTJ 37 (Jodh.)(Trib.)*

#### **S. 69 : Unexplained investments – Stocks – Survey [S. 133A]**

If assessee can demonstrate that valuation of stock adopted by survey party during survey proceedings under section 133A was wrong with reference to material on record, then addition under section 69 on account of unexplained investment in excess stock could not be justified merely on ground that said addition was offered by assessee during survey proceedings. #### **S. 69 : Unexplained investments – Jewellery – VDIS**

Addition on account of alleged bogus sale of diamond and ornaments, declared by assessee under VDIS, on basis of statement of buyer which he had subsequently retracted, was not justified. (A.Y. 1998-99)

*Mohanlal R. Daga v. ITO (2005) 92 TTJ 1236 / 147 Taxman 28 (Mag.)(Trib.)*

#### **S. 69 : Unexplained investments – Jewellery – Search**

Where gold ornaments and silver articles were seized during search of assessee's premises and during course of search itself, assessee had given full details and descriptions of gold ornaments and silver articles found from his bedroom and bedroom of his wife, he had also indicated that ornaments were received by his wife at time of her marriage, and gold ornaments and silver articles found at time of search were much less than what were received by wife of assessee at time of her marriage and thereafter, department had not disputed that wife of assessee belonged to a very reputed and rich family, addition on account of such jewellery, etc., was not justified. (A.Ys. 1983-84 & 1985-86 to 1988-89)

*ACIT v. Ganga Devi Sangneria (Smt) (2005) 96 TTJ 351 (Cuttack)(Trib.)*

#### **S. 69 : Unexplained investments – Jewellery – Search and seizure**

Where pursuant to search and seizure, assessee stated that excess jewellery found during search belonged to his married daughter who had left same with her parents, but neither nexus of assessee's daughter with jewellery found at assessee's residence was established nor source of acquisition of said jewellery was satisfactorily explained by her and no satisfactory explanation was offered by assessee about same, addition on account of jewellery was justified.

*Nem Chand Gupta v. Dy. CIT (2005) 1 SOT 515 (Delhi)(Trib.)*

#### **S. 69 : Unexplained investments – Household goods – Search**

Where during course of search conducted at residence of assessee, certain documents related to purchase of air-conditioners were found and seized and assessee contended that air-conditioners did not belong to him but belonged to trust and his name was referred or used only for availing discounted price, in absence of material found during search to connect assessee with purchase of air-conditioners, addition made could not be sustained.

*Arif Mohd. Khan v. Jt. CIT (2005) 147 Taxman 93 (Mag.)(Delhi)(Trib.)*

#### **S. 69 : Unexplained investments – Household goods – VDIS**

Where an addition for ₹ 4,50,000 was made by Assessing Officer on account of alleged unexplained investment made by assessee in furniture, renovation and interior decoration of residential property and it was case of assessee before lower

authorities that assessee's father had disclosed ` 4.5 lakhs under VDIS, 1997, as amount declared by assessee's father under VDIS, 1997 was proximate to expenditure incurred by assessee for renovating his house, assessee's explanation was to be accepted and addition deleted.

*Dy. CIT v. Sunil Umashankar Rungta (2005) 94 TTJ 329 (Mum.)(Trib.)*

#### **S. 69 : Unexplained investments – Investment in machinery – Ownership**

Where addition was made on account of unexplained investment in machinery which assessee claimed as belonging to another company and used by assessee, it was duty of assessee to prove that it was not owner of machinery but that machinery was taken from some other company; however, as no evidence was brought on record by assessee in support of explanation, addition was justified. *ACIT v. Tritan Happy Home (P.) Ltd. (2005) 94 TTJ 628 (Cuttack)(Trib.)*

#### **S. 69 : Unexplained investments – Deposits – Source – Marriage gift**

Explanation of assessee that deposit of ` 25,000 made in Money Multiplier Deposit Scheme, which deposit certificates were found from his residence during search operation, came out of marriage gifts was a reasonable explanation and no addition was justified on account of such certificates.

*Bommana Swarna Rekha(Smt) v. ACIT (2005) 94 TTJ 885 / 147 Taxman 59 (Mag.)(Visakha.)(Trib.)*

#### **S. 69 : Unexplained investments – Deposits – Firm and partner**

Where in respect of deposits with firm of which he was partner, assessee had explained plausible source which could not be countered and assessee had no other source of income, addition by treating such deposits as unexplained, was not justified. (A.Y. 1996-97)

*Rajkumar Niyati v. ITO (2005) 98 TTJ 23 (Jodh.)(Trib.)*

#### **S. 69 : Unexplained investments – Blank – Promissory notes – Affidavit of Director**

Addition on basis of blank promissory notes found during search of assessee's premises was not justified where director of company issuing those promissory notes had filed affidavit to the effect that no amount had been borrowed by company in respect of seized document and assessee's explanation was that those promissory notes were mere proposals which did not materialize.

*Godavari Devi Agrawal (Smt) v. Jt. CIT (2005) 95 TTJ 720 (Nagpur)(Trib.)*

#### **S. 69 : Unexplained investments – Drafts in name of partner – Nexus**

Addition on account of alleged purchase of drafts was not justified where no nexus between drafts purchased in name of partner and assessee-firm was established. (A.Ys. 1985-86, 1987-88)

*ITO v. Varun Steel Industries (2005) 1 SOT 464 / 91 TTJ 382 (Chd.)(Trib.)*

**S. 69 : Unexplained investments – Income of firm – Partner**

Assessee-partner's share in undisclosed income declared by firm has to be treated as available for investment in assessee's hands and cannot be treated as unexplained investment in his hands. (A.Y. 1992-93)

*V. P. Oswal v. ACIT (2005) 92 ITD 227 / 92 TTJ 665 (TM)(Pune)(Trib.)*

**S. 69 : Unexplained investments – Loans advanced in earlier years**

Where assessee had invested certain amount in business of commission agency and dealing in agricultural produce and in his return, assessee showed break up of source of investment as receipt of loans from his wife and his HUF and recoveries of loans from three relatives, which were advanced by assessee in earlier years out of his agricultural income and sale consideration of agricultural land, since all three persons admitted fact of having received loan from assessee in past and returned in year in question, in absence of any material or evidence to controvert their version, amount could not be treated as unexplained income of assessee and, therefore, addition made on that count was to be deleted. (A.Y. 2000-01)

*Narayan Ram Chhaba v. ITO (2005) 96 ITD 163 / 97 TTJ 297 (TM)(Jodh.)(Trib.)*

**S. 69 : Unexplained investments – Cash flow statement – HUF – Sources**

Where there was evidence to show that assessee's HUF had income from house property and had sold certain properties and that assessee had income from brokerage in money-lending transactions and thus there was no reason to disbelieve accumulation of capital addition on account of unexplained investment by recasting cash flow statement was not justified. (A.Ys. 1983-84 & 1985-86 to 1988-89)

*ACIT v. Ganga Devi Sangneria (Smt) (2005) 96 TTJ 351 (Cuttack)(Trib.)*

**S. 69 : Unexplained investments – Valuation report Cash flow**

Where cash flow chart of the assessee showed that there was no difference in investment on account of investment in FDR and purchase of plot, addition in respect of said items could not be sustained. Further since Assessing Officer has no power to refer matter to DVO under section 131(l)(d), addition on account of unexplained investment in construction of house based on DVO's report could not be sustained.

*Nitin Sharma v. ITO (2005) 146 Taxman 62 (Mag.)(Delhi)(Trib.)*

**S. 69 : Unexplained investments – Capital asset – Any asset**

S. 69 nowhere provides that the addition under section 69 can be made only when undisclosed Investments are made in a Capital asset.

**Section 69A : Unexplained money, etc.**

**S. 69A : Unexplained money – Deemed income – Deposit in the name of 3rd person**

In order to find out whether the assessee is the owner of the money in terms of section 69A, which provides that unexplained money, etc., may be deemed by the Assessing Officer to be the income of the assessee, the principle of common law jurisprudence in section 110 of the Evidence Act, 1872, can be applied.

When a deposit stands in the name of a third person and that person is related to the assessee, the proper course would be to call upon the person in whose books the

deposit appears or the person in whose name the deposit stands, to explain such deposit. (A.Ys. 1992-93, 1993-94, 1994-95)

The High Court held that if the unexplained income in the investment was added, that would give rise to the cost of construction and the result would remain the same; i.e., "Zero". The said addition was made on the basis of DVO's report. Reference could be made to the DVO for the purpose of sections 55A, 131, 133(6) and 142(2) and not for the purpose of finding out the cost.

Where the Assessing Officer made an addition under section 69D treating certain photocopies of paper seized as 'Hundi'. The High Court after analyzing the attributes of a 'Hundi' held that the seized paper cannot be a 'Hundi' as there are always three parties in a 'Hundi' transaction that is the drawer, drawee and payee. The drawer cannot himself be the drawee. The Court further held that a 'Hundi' is normally written in the oriental language as per mercantile custom and the seized paper was written in English language.

***Set Off or carry forward and Set Off***

**Section 70 : Set off of loss from one source against income from another source under the same head of income**

**S. 70 : Set off loss – Same head of income – Set off of indexed long term capital loss against non indexed long term capital gains [S. 48, 55, 112]**

Provisions of section 70(3) existed much prior to the mode of computation of capital gain without applying the benefit of indexation which were introduced later by an amendment in the year 2000. It cannot be therefore that the legislature would have contemplated while enacting the provisions of section 70(3) a situation as contemplated by proviso to section 112(1), when it used the expression 'similar computation' in section 70(3). Expression 'similar computation' used in section 70(3) refers to the computation under section 48 to 55 and not the computation under section proviso to section 48 vis-à-vis proviso to section 112(1). The Assessee was justified in setting off indexed long-term capital loss against non-indexed long-term capital gains. (A. Y. 2004-05)

**S. 72 : Carry forward and set off – Business losses – Hotel business – Agreement for running hotels – Disputes – Court receiver – No cessation of business – Brought forward losses**

The assessee was in the business of running hotels and for that purpose had entered into an agreement with another company to run the same. Disputes arose between the assessee and the company, the court pending adjudication of dispute appointed a court receiver to run the hotel business of the assessee. The dispute was decided by the court and the possession of the hotel was handed over to the assessee, the assessee ran the hotel business on its own. The Hon'ble High Court held that there was no cessation of business by the assessee, as the business was managed by the court receiver, who was none other than its own directors, and the business and assets were also never divested with the receiver, and therefore the assessee was entitled to carry forward and set off losses and depreciation relating to earlier years. *CIT v. Covelong Beach Hotel (India) Ltd. (2003) 129 Taxman 473 / 262 ITR 544 / 182 CTR 461 (Mad.)(High Court)*

**S. 72 : Carry forward and set off – Business losses – Dividend income – Shares held for business**

Under section 72(1)(i), the brought forward business loss can be set-off against "the profits and gains of any business or profession carried on" by the assessee. Section 72(1)(i) does not use the word "assessable under the 'head' profits & gains of business". The answer to the question as to whether the securities formed part of the trading assets of the business and the income there from was income from the business has to be decided on commercial principles and not on the basis of the classification of 'heads of income' in section 14. Though for the purpose of computation of the income, dividends are assessable under the head "Other Sources", it does not cease to be part of the income from business if the securities are part of the trading assets. Accordingly, the assessee is eligible for set-off of dividend income as against business loss (*CIT v. Cocanada Radhaswami Bank Ltd. (1965) 57 ITR 306 (SC)* & *CIT v. New India Investment Corporation Ltd. (1978 ) 113 ITR 778 (Cal.)* followed). (A.Y. 2003-04)

**S. 72 : Carry forward and set off – Business losses – Gains arising from “business assets” not eligible for set-off against brought forward business loss**

The assessee sold land & building used for business purposes. Though the gain was offered as capital gains, the assessee claimed, relying on *CIT v. Cocanada Radhaswami Bank Ltd. (1965) 57 ITR 306 (SC)* and other judgements, that as the assets were “business assets”, the gains there from were eligible for set-off against the brought forward business loss. The issue was referred to a Special Bench. HELD by the Special Bench against the assessee:

Section 72(1) allows brought forward business loss to be set-off against the “profits & gains of any business or profession” of the subsequent year. The expression “profits & gains of business” means income earned out of business carried on by the assessee and not just income connected in some way to the business or profession carried on by the assessee. The land & building were fixed & capital assets used by the assessee for its business purposes. The gains arising there from were assessable as capital gains and were not eligible for set-off against the brought forward business loss under section 72 (*CIT v. Express Newspapers Ltd. **S. 72 : Carry forward and set off – Business losses – Remission or cessation of trading liability – Business income [S. 41(1)]**

In order to allow business loss under section 72(1)(i) condition is that assessee should carry on business in year under appeal and it is only against profits of such business that brought forward loss can be set off. Where assessee's profits were assessed under section 41(1) as business income, said profits did not represent profits and gains of any business carried on by assessee and therefore, brought forward business loss was not allowable against profits assessed under section 41(1). ### **S. 72 : Carry forward and set off – Business losses – Book profit – Absorption of loss [S. 115J]**

A bare reading of sub-s. (2) of s. 115J shows that the benefit of carry forward of loss of the relevant accounting year would be covered by the computation of income as per normal provisions of the Act and determination thereof would not be dependent on the income computed under section 115J. On the facts of the case, the income was first computed under the normal provisions of the IT Act and after allowing the benefit of entire brought forward business loss of ` 85,51,607, the Assessing Officer determined the net business income under the normal provisions of the Act at ` 24,29,792 whereas 30% of book profit was worked out at ` 36,63,558 which was greater than the income computed under the normal provisions of the Act. Therefore, as per provisions of s. 115J, net taxable income was determined at ` 36,63,560. Therefore, the assessee was held to be not entitled to carry forward of loss claimed at ` 12,33,768, being difference between income computed under section 115J and income computed under the normal provisions of the Act i.e. ` 36,63,558 less ` 24,29,792. (A.Ys 1989-90 & 1990-91 ).

[S. 72, 78, 79]**

Amalgamating company was not having loss and provisions of sections 72A, 78 and 79 not being applicable, benefit of carry forward of losses of amalgamated company cannot be denied. Provisions of section 72A, trigger only when the losses of the amalgamating company are to be carried forward by the amalgamated company. As the amalgamating company was a profit making company, section 72A is not applicable. Provisions of section 79 are not applicable as more than 51 percent of the share holdings is in the same hands. As provisions of section 78 are not applicable benefit of carry forward cannot be denied. (A. Y. 2006-07).

**S. 73 : Losses – Speculation business – Delivery based loss also speculation loss – Fiction applied**

It is held that the Explanation to section 73 creates a fiction that the loss suffered by certain companies from the business of purchase & sale of shares shall be deemed to be speculation loss. The definition of speculative transaction in section 43(5) not applicable to Explanation to section 73. The CBDT Circular dated 24.7.1976 cannot be treated as guide for interpretation of section 73 when the provision is very clear and free from any ambiguity. (A. Y. 1994-95)

When in respect of the assessment of the assessee of the for Asst. years 1998-99, 1996-97 and 1995-96, the Tribunal specifically held that the principal business of the assessee was grant of loans, the assessee comes within the exception to the Explanation under section 73, and therefore the Tribunal was not justified in holding that the business loss was to be treated as speculation loss. ### **S. 73 : Losses – Speculation business – Set off**

Loss in speculation business can be set-off or adjusted against income of same speculation business or against income of any other speculation business carried on

by the assessee in following assessment year. There is no merit in contention that in view of sub-section (1) of section 73, speculation loss cannot be set-off against income from another speculation business but from same business. (A.Y. 1997-98)

### **S. 73 : Losses – Speculative business – Shares valuation of closing Stock – Trading in shares – Investment – Capital gains – Company**

Loss from valuation of closing stock cannot be excluded while determining the loss from share trading business, therefore, explanation to section 73 is applicable even to the loss arising from the valuation of closing stock of shares.

If the shares are held by the assessee company as investment and not as stock in trade, the second condition of Explanation to section 73 Viz. business of purchase and sale of shares is not satisfied and therefore, capital gain arising from the sale of shares held as investment is not hit by Explanation to section 73. ### **S. 73 : Losses – Speculation business – Bills rediscounting business – Sale and purchase of shares**

Assessee was mainly doing business of bill discounting / rediscounting, under contractual obligation between the assessee and parties to the bills. Bills were re discounted and placed only as collateral security. The Tribunal held that activity of bills rediscounting would amount to granting of loans and advances and accordingly, explanation to section 73 would not be applicable, hence loss on account of sale and purchase of shares could not be treated as speculation losses, though the object clause of memorandum of Association showed that advancing the money was only ancillary object. **S. 73 : Losses – Speculation business – Purchase and sale of shares – Computation of income – Test of applicability**

(i) For the purpose of Explanation to section 73 it is the absolute figure of two incomes either under head 'Business' or under head 'Other sources' without sign, i.e., irrespective of whether it is positive income or loss, which should be taken for comparison for deciding as to whether a case falls in first exception of Explanation to section 73 or not. On the facts, therefore, Explanation to section 73 was rightly invoked as the loss due to trading in shares was greater than income from dividend.

(ii) Provisions of Explanation would be applicable even if whole of business is that of sale and purchase of shares and the said provisions of the Explanation would attract irrespective of the fact as to whether the assessee deals in shares of a single company or in shares of several companies.

(iii) For invoking Explanation to section 73 it is no longer necessary for the Assessing officer to establish that the assessee is manipulating to reduce its taxable income by trading in shares and incurring losses. (A.Y. 1996-97)

Claim of carry forward of capital loss brought forward from earlier years by the assessee, a company, tax resident of Mauritius, could not be rejected by the Assessing Officer while making assessment of subsequent year on the ground that since the assessee company was not liable to tax on the capital gains under Art. 13 of DTAA between India and Mauritius, such capital loss was also exempt. **S. 74 : Losses – Capital gains – Capital loss – Carried forward and set off – Purchase and sale of shares – Investment**

Assessee having established by furnishing details that it was engaged in business of purchase and sale of shares, Assessing Officer was not justified in invoking section 74 notwithstanding the fact that assessee had shown the shares in the balance sheet as "investment." (A.Ys. 1997-98, 1999-2000)

**S. 74 : Losses – Capital gains – Prospective – Part losses – Set-off possible**

The amendment to section 74(1)(b) does not apply to long term capital loss incurred prior to A.Y. 2003-04. Long term capital loss of an assessment year prior to A.Y. 2003-04 can be set off even against short term capital gain of A.Y. 2003-04 or thereafter. The Tribunal after considering the decision of Bombay High Court in the case of Central Bank of India, held that the amendment to section 74(1)(b) is prospective and not retrospective, and that the assessee is entitled to set-off long term capital loss incurred in A.Y. 2002-03 against any income assessable under the head 'Capital Gains' for any subsequent year.

**Section 74A : Losses from certain specified sources falling under the head "Income from other sources"**

**S. 74A : Losses – Income from other sources – Maintenance of race horses – Stud farm**

To meet the requirement of Sec 74A(3), words 'horses maintained by him' should not construed to mean that assessee should personally look after the horses. Thus appointment of stud farm to maintain the horses would not amount to violation of requirement of Sec 74A. (A.Ys. 1990-91 to 1993-94)

## **Section 79 : Carry forward and set off of losses in the case of certain companies**

### **S. 79 : Carry forward and set off losses – Change in share holdings – Companies which public are not substantial interested – Merger**

Due to merger of IIPL holding 98% shares of assessee company with the assessee company, the share holders of the IIPL were allotted shares but there was no change in the management which continued to be with persons of the family who were having the control and management of the IIPL as well as of the assessee company and therefore, provisions of section 79 were not violated and the assessee was entitled to carry forward of loss. (A. Ys. 2004-05 & 2005-06).

*Dy. CIT v. Select Holiday Resorts (P) Ltd. (2011) 52 DTR 14 / 138 TTJ 304 (Delhi)(Trib.)*

### **S. 79 : Carry forward and set off losses – Change in share holdings – Companies which public are not substantial interested [S. 2(18)]**

Although the assessee company was originally registered as a private company, it became public company by virtue of the provisions of section 3(iv)(c) of the Companies Act when GT Ltd., a public company, acquired more than fifty percent shares of the assessee company in the preceding year. Assessee had satisfied condition of Item(B) of section 2(18)(b) as well as in much as GT Ltd. held more than 50 percent of the shares of the assessee company during the whole of the previous years in question. Therefore, assessee company became a company in which the public are substantially interested by fulfilling the requisite conditions and consequently, application of section 79 is automatically ruled out. Hence, CIT was not justified in setting aside the orders allowing set off of brought forward losses of an earlier year against the income of the year under consideration. (A.Ys. 2004-05 & 2005-06)

### **S. 79 : Carry forward and set off losses – Change in share holdings – Companies which public are not substantial interested – Change in voting power – Holding company**

Section 79 of the Act is applicable if 51% of the voting power is beneficially held during the year under reference by persons who held such voting power during the year in which the loss was incurred. Since the board of directors of APIL were controlled by ABL, holding company, the voting power of APIL was controlled by ABL and beneficially held by ABL, the assessee was entitled to set-off of carry forward business loss. ## **Section 80 : Submission of return for losses**

### **S. 80 : Return for losses – Film production expenses – Carried forward [S. 139(3), Rule 9A(2)]**

The rule states that when the film is exhibited for less than 180 days, deduction of the cost of production is to be allowed to the extent of the amount realised during the year and the balance amount shall be allowed in the next year. The assessee did not file a loss return under section 139(3) and the issue was whether section 80 would apply and the assessee would not be allowed the loss in the next year. The Supreme Court held that the balance cost of production had to be amortised under rule 9A(2) and then carried forward and be allowed as a deduction for the next year. This was not a business loss as contemplated by section 80 of the Act. (A.Y. 1992-93)

### **S. 80 : Return for losses – Carry forward – Prescribed time – Question of law [S. 139(3)]**

Carry forward and set off of loss in a case where loss return is filed beyond the time prescribed under section 139(3), is a question of law. The language of section 22 of the 1922 Act, and section 139 sub sections (3) and (4), does not prima facie appear to be in pari materia.

### **S. 80 : Return for losses – Loss carry forward and set off – Best Judgment [S. 139(1)(3)(4), 146]**

Where a best judgment assessment is set aside under section 146 of the Income-tax Act 1961, the Income-tax Officer being satisfied that the assessee was prevented by sufficient cause from making a return required under section 139(2), he naturally has to receive the return filed along with the application under section 146 or within such time as he may specify. Such a return would then be a return filed under section 139 for the purpose of section 80. Pursuant to that return the loss has to be determined and carried forward under section 80.

**S. 80 : Return for losses – Return filed – Loss not determined – Valid return [S. 139(3)]**

A business loss cannot be carried forward unless it has been determined in pursuance of a return filed under section 139. In order to be entitled to carry forward a business loss, the assessee must submit a return under section 139 (3), have an assessment made for the year in which he has incurred the loss. The assessing officer has to notify to the assessee in writing the amount of the business loss as computed by him which the assessee is entitled to have carried forward. Where the business loss determined has not been notified to the assessee, the assessee can have it determined in a subsequent year in which the business loss is to be set off. (A.Y. 1987-88)

When no valid return for earlier assessment year had been filed by assessee and consequently no assessment could be made, assessee could not be allowed to set-off business losses of earlier years during the assessment year in question.

### **DEDUCTIONS TO MADE IN COMPUTING TOTAL INCOME**

#### **A. General**

#### **Section 80A : Deductions to be made in computing total income**

##### **S. 80A : Deductions – Computation – Total income – Set off unabsorbed losses and depreciation [S. 80A, 80B(5), 80HH & 80I]**

Provisions of section 80A r.w.s. 80B(5) override other provisions in Chapter VI-A and, therefore, deduction under sections 80HHC, 80HHD and 80-I cannot be allowed where the gross total income of the assessee is nil after setting off brought forward losses and depreciation and the losses of other units against the profit earned by it from the eligible unit. Loss from one division is required to be set off with the profit of another division before determining the gross total income from which deduction under Chapter VI-A could be claimed and if the effect of the adjustment is that the gross total income is nil then the assessee is not entitled to claim any deduction under Chapter VI-A.

The Supreme Court further held that it is well settled that where the majority of the High Courts have taken a certain view on the interpretations of certain provisions, the Supreme Court should lean in favour of that view. (A.Ys. 1990-91, 1991-92)

Assessee church society incurred expenditure on T.V. telecast and salaries of preachers. Preachers were generally engaged to spread teachings of Lord Jesus Christ, therefore, salaries paid to preachers cannot be considered to be an expenditure incurred for charitable activities. If salaries to preachers was taken out from the category of expenditure for charitable activities, expenditure on religious activities would be more than 5 percent of total income, thus assessee would be hit by sub section 5(ii) read with sub section (5B) of section 80G. **S. 80G : Deduction – Donation – Recognition – Refusal to renew [80G(5)]**

Activity of assessee of dispensing homoeopathic medicines for a token consideration cannot at all be termed as the assessee's income being profits and gains of business

within the meaning of the proviso to section 80G(5)(i). Rather, it amounts to an object by way of 'medical relief' as defined in section 2(15). Therefore, the said proviso does not get attracted and assessee was not therefore required to maintain separate books of account in respect thereof. Further, if any payment has been made to any institution which is not registered under section 12AA, this shall be taken care of in the assessment of the assessee and it does not have any bearing on the renewal of the approval sought under section 80G(5)(vi). It was held that CIT was therefore not justified in refusing renewal of registration to the assessee especially when renewal had been granted in the past for several years.

### **Section 80HHC : Deduction in respect of profits retained for export business**

#### **S. 80HHC : Deduction – Export business – For purpose of section 115JA/JB – Deduction to be computed as per P & L profit and not normal provisions**

The deduction under section 80HHC is to be worked out not on the basis of regular income tax profits but it has to be worked out on the basis of the adjusted book profits in a case where section 115JA is applicable. Accordingly, the deduction claimed by the assessee under section 80HHC & 80HHE has to be worked out on the basis of adjusted book profit under section 115JA and not on the basis of the profits computed under regular provisions of law applicable to computation of profits and gains of business. #### **S. 80HHC : Deduction – Export business – Book Profits – Company [S. 115JB]**

Section 115JB is a self contained code. It refers to computation of "book profit" which has to be computed by making upward and downward adjustments. Cl. (iv) of the Explanation to section 115JB seeks to exclude "profits eligible for deduction under section 80HHC". Section 80HHC(1) refers to eligibility whereas section 80HHC(1B) deals with the "extent of deduction". For the purposes of computation of book profit which is different from the normal computation under the Act, the upward and downward adjustments are to be kept in mind and thus cl. (iv) of the Explanation to section 115JB covers full export profits of 100% as "eligible profits" and the same cannot be reduced to 80% by relying on section 80HHC(1B). The argument of the Department that both "eligibility" as well as "deductibility" of the profit have to be considered together for working out the deduction as mentioned in cl. (iv) has no merit. ### **S. 80HHC : Deduction – Export business – Formula for deduction**

For the assessment year 1990-91, there was no profits on export sales. The Assessing Officer allowed deduction under section 80HHC. The CIT in revision disallowed the deduction but appellate Tribunal on appeal allowed the deduction. On reference, the High Court held that the amount was not deductible. On appeal to the Supreme Court, reversing the decision of the High Court and allowing the deduction the Court held that at the relevant period, the formula for allowing the deduction was simplistic. As was explained in CBDT Circular no 564 dated July 5, 1950, the quantum of deduction was on the basis of a proportion of business profits irrespective of what could strictly be described as "profits derived from the export of goods or merchandise out of India". #### **S. 80HHC : Deduction – Export business – Export of tea – Profit on sale**

The Supreme Court held that deduction under section 80HHC was to be allowed only after the appropriation of the income from sale of tea grown by the assessee under Rule 8(1) of the Income Tax Rules and not on the total income.

The Supreme Court further held that important words in section 80HHC are “profits derived from export”. The word derived would mean derived from the source. The source has to be the one covered in section 14. Income covered by section 10(1); i.e., agricultural income which is not chargeable to tax, does not fall under section 14 and therefore will not fall under the various computation sections; i.e., sections 15 to 59.

#### **S. 80HHC : Deduction – Export business – Manufacturer – Trader – Profit and Loss – Indirect cost – 10% Adjustment of export incentives**

Assessee engaged in business of export of ‘trading goods’; as per provisions, exporter of trading goods entitled to deduction in respect of export turnover as reduced by direct costs and indirect costs attributable to such export. Assessee claimed 10% adjustment of export incentive against indirect cost of trading goods while allowing deduction under section 80HHC of Act. Claim disallowed by authorities as well as the High Court. Hence, present appeal.

Held, 'Attributable' mentioned in section 80HHC(3)(b) of Act indicates that apportionment (principle of attribution) not omitted from section 80HHC(3)(b) of Act. Accordingly, assessee entitled to claim deduction of expenses incurred by him from export turnover. Estimated 10% adjustment rightly calculated. Thus, assessee's claim for 10% adjustment of export incentive against indirect costs attributable to such exports justified and allowed. Order of the High Court set-aside, appeal allowed. The Supreme Court following its earlier decision of CIT vs. Lakshmi Machine Works 290 ITR 667, held that just as commission received by the assessee is relatable to exports and yet it cannot form part of "turnover", so also excise duty and sales tax do not emanate from the "turnover". ### **S. 80HHC : Deduction – Export business – Meaning of profit [S. 80AB]**

The word "profit" in sections 80HHC(1) and (3) means a positive profit. Deduction can be permitted only if there is a positive profit in the exports of both self manufactured goods as well as trading goods. If there is a loss in either of the two, then the loss has to be taken into account for the purpose of computation of profits.

Section 80AB is an overriding section with respect to Chapter VIA. Section 80HHC does not provide that its provisions are to prevail over section 80AB or any other provisions of the Act. Section 80HHC would thus be governed by section 80AB. (A.Y. 1992-93)

**S. 80HHC : Deduction – Export business – Processing charges – Total turnover**

Processing charges, which are part of the gross total income, forms an item of independent income like rent, commission, etc. and, therefore, 90% of the processing charges have to be reduced from the gross total income to arrive at the business profit, and therefore, they should also to be included in the total turnover to arrive at the business profit in terms of clause (baa) of the Explanation to section 80HHC(3).

**S. 80HHC : Deduction – Export business – Profits – Manufacturing and trading goods**

It is no doubt true that the term “profits” implies positive profit which has to be arrived at after taking in to consideration profit earned from export of both, self manufactured goods and trading goods and profits and losses in both trades have, thus to be taken in to consideration. If it is found that a loss has occurred, sub-section (3) of section 80HHC will have no application. The expression ‘Profits’ used in section 80HHC, denotes positive profit. Thus for the purpose of section 80HHC, profit has to be arrived at after taking in to consideration the profit earned from export of both self manufactured goods and trading goods. (A.Y. 1994-95)

Assessee carried on the business of growing and manufacturing of tea in its own estates, which was sold in the domestic market as well as export, assessee also maintained separate books of account in respect of exporting of tea purchased by it. It was contended that different businesses of the assessee are required to be considered separately for the purpose of calculating the deduction under section 80HHC of the Act. High Court held that different business of the assessee cannot be considered separately for the purpose of calculating deduction under section 80HHC. The deduction under section 80HHC was required to be computed by aggregating the profits, export turn over and total turnover of all the business and not separately with reference to the profits, export turnover and total turnover of each business. ### **S. 80HHC : Deduction – Export business – New industrial undertaking – S. 80IA(9) – Section 80-IA deduction to be reduced for S. 80HHC deduction**

The expression "deduction to the extent of such profits" signifies that if an assessee is claiming benefit of deduction of a particular amount of profits and gains Under section 80IA, to that extent profits and gains are to be reduced while calculating the deduction under Chapter VI A (C). The word "and" is disjunctive and means that the other provision is independent. The provision aims at achieving two independent objectives and cannot be limited to second objective alone thereby annihilating the first altogether and making it otiose. Even under the purposive interpretation, the purpose behind introducing section 80IA(9) is to ensure that an assessee does not get deduction on the amount of profits and gains accorded in one provision.

The argument that where the Legislature intended to deduct the amount out of some other deduction a different phraseology was used is also not acceptable. Merely because section 80-IB is not worded in a similar fashion does not mean that one has to do violence with the plain language of the provision, which is capable of only one meaning.

### **S. 80HHC : Deduction – Export business – Interest – Short term deposit – Business income**

The assessee was a Private Limited Company engaged in business of export of processed food items. In the process, the assessee received some amounts from its foreign customers by way of advance in respect of the exports to be made by it. The amounts so received were kept in short-term deposits with banks and it had received interest out of those deposits. The assessee treated it as part of its business income and claimed deduction under section 80HHC for all the years.

The Assessing Officer negatived the claim and treated it as income from other sources, but the ITAT treated the same as business income.

On appeal to the High Court, the High Court held that what is business income and what is not business income has to be judged from the main activity of the business of each assessee. In the present case, main activity of the assessee was export business and not that of earning interest on short term fixed deposits. The assessee instead of keeping such funds idle, since it did not require it for its immediate business activity, had deposited the same in Banks and hence interest income derived from such advances was assessable as business income. (A.Ys 1986-87 to 1988-89).

Where the assessee for the purpose of deduction under section 80HHC reduced the indirect cost of goods exported by 10% being the expenses for earning export incentives, brokerage and miscellaneous income. The High Court on appeal held that the profits from export of trading goods has been defined to mean export turnover of such goods minus direct or indirect cost attributable to such exports. As such an assessee would not be entitled to claim deduction only on account of expenses without income having been included therein. Accordingly, the assessee would not be entitled to deduct 10% of earning from export incentive etc. as expenses from the indirect cost. (A.Y. 1996-97)

*CIT v. Anand Kumar (2007) 164 Taxman 330 (Delhi)(High Court)*

**S. 80HHC : Deduction – Export business – Surrender – Survey [S. 133A]**

Where the assessee surrendered income as a result of survey on account of excess stock and undisclosed investment in building and claimed the same to be eligible for deduction under section 80HHC of the Act. On appeal High Court held that deduction under section 80HHC of the Act is available only on fulfilment of certain conditions specified under section 80HHC therein. There can be no presumption in such case, that surrender made by the assessee on account of difference in stock at the time of survey represented income from exports.

**S. 80HHC : Deduction – Export business – Book profit – MAT – No regular income – Allowable [S. 115JB]**

The assessee's income was computed under section 115JB as it had no income under the normal provisions of the Act. The assessee claimed that despite the absence of normal profits, it was eligible for deduction under section 80HHC in computing the book profits under Expl. (iv) of section 115JB in accordance with the judgement of the Special Bench in *Syncome Formulations v. Dy. CIT* (2007) 106 ITD 193 (Mum.)(SB) and that the judgement of the Bombay High Court in *CIT v. Ajanta Pharma Ltd.* (2009) 318 ITR 252 (Bom.) (which held that *Syncome Formulations* was overruled) was not applicable. HELD upholding the assessee's plea:

In *Syncome Formulations*, the Special Bench had to consider two questions i.e. (a) method of computation of deduction under section 80HHC and (b) percentage of deduction allowable in each year. As regards the percentage of deduction, the Special Bench held that the assessee would be entitled to 100% deduction. This view was overruled by the High Court in *Ajanta Pharma* where it was held that in view of section 80HHC(1B), deduction was only allowable as per the limits set out therein. However, the first issue as to the method of deduction under section 80HHC was not before the High Court. As per *CIT v. Sun Engineering Works (P) Ltd.* (1992) 198 ITR 297, the observations of a Court have to be read in context. Consequently, the judgement of the Special Bench on this aspect still held good and the assessee was entitled to deduction under section 80HHC even though there were no normal profits. **S. 80HHC : Deduction – Export business – Non resident – DTAA – India-Singapore [S. 90, 263]**

A plain reading of section 80HHC shows that non-resident assessee is not all eligible for deduction under section 80HHC, exception under cl. (4)(a) of Art. 26 of DTAA between India and Singapore clearly mandates that deduction under section 80HHC which provides for deduction to residents in India cannot be superseded by this non-

discrimination clause of the DTAA. Revision by the commissioner was justified. Deduction under section 80HHC cannot be granted to non-residents. (A.Y. 2004-05) *Mosraq Ahmed v. ADIT (2009) 29 DTR 410 / 126 TTJ 523 / (2010) 124 ITR 312 / 2 DTR 315 (Chennai)(Trib.)*

### **S. 80HHC : Deduction – Export business – Sub Section (3) – Negative figure**

In view of decision of Supreme Court in *IPCA Laboratory v. Dy. CIT (2004) 266 ITR 521* Tribunal decision in Lalson's case is no longer good law and if figure as computed under clause (a), (b) or (c) of section 80HHC(3) is a negative figure, assessee would not be entitled to deduction under section 80HHC even if after setting off said negative figure against amount computed under proviso to sub-section (3), there remains a positive figure. (A.Y. 1999-2000)

*B. Sorabji v. ITO (2005) 95 ITD 540 / 96 TTJ 524 (SB)(Mum.)(Trib.)*

*Editorial :- Law's is amended retrospectively.*

### **S. 80HHC : Deduction – Export business – Sub Section (3) – Incentive**

Even if there is no positive profit as computed as per clauses (a), (b) and (c) of section 80HHC(3) and there is a negative profit, same has to be increased by 90 per cent of incentives referred to in clauses (iiia), (iiib), (iiic) of section 28 for purposes of allowing deduction under section 80HHC. (A.Y. 1996-97)

*Sonal Garments v. Jt. CIT (2005) 95 ITD 363 / 98 TTJ 1020 (Mum.)(Trib.)*

### **S. 80HHC : Deduction – Export business – Export incentive**

Deduction under section 80HHC(I) is available only to an assessee who has derived a positive profit from export of specified goods or merchandise after adjusting losses and not to an assessee who has suffered loss from export; contention of assessee that in view of proviso to sub-section (3), it should be allowed deduction with reference to export incentives ignoring losses suffered by it by taking them to be nil could not be accepted as unless case of assessee falls under section 80HHC(1), benefit of proviso to sub-section (3) could not be extended. **S. 80HHC : Deduction – Export business – Explanation (baa) – Interest**

Assessee-exporter's interest income from fixed deposits and earnest money deposits with Apparel Export Promotion Council as margin money to secure quota rights, would be business income for purposes of Explanation (baa). (A.Y. 1997-98)

*ITO v. Midas Touch Exports (2005) 1 SOT 553 (Mum.)(Trib.)*

**S. 80HHC : Deduction – Export business – Explanation (baa) – Interest**

Where interest income is earned by assessee-exporter on surplus funds, though it is assessable as income from other sources, it would be reasonable to apportion 10 per cent thereof as expenses, which would increase export profits for purpose of deduction and thus deduction computed by assessee by applying clause (baa) of Explanation to section 80HHC treating such interest income as business profits, shall remain unaffected; Assessing Officer was not justified in reducing deduction under section 80HHC computed by assessee by applying Explanation (baa), by treating interest income as 'income from other sources'. (A.Y. 1998-99)

*Sakay Traders v. Addl. CIT (2005) 96 TTJ 451 (Amritsar)(Trib.)*

**S. 80HHC : Deduction – Export business – Explanation (baa) – Royalty**

Royalty income is not income of nature of brokerage, commission, interest, rent or charges; thus, action of revenue authorities in excluding 90 per cent of royalty income could not be sustained. (A.Ys. 2000-01 and 2001-02)

*Glaxo Smithkline Asia (P.) Ltd. v. ACIT (2005) 97 TTJ 108 (Delhi)(Trib.)*

**S. 80HHC : Deduction – Export business – Explanation (baa) – Forward contracts**

Where assessee, engaged in import of rough diamonds and export of cut and polished ones, entered into forward contracts for foreign exchange but, due to conducive foreign exchange market conditions prevalent at that time, it cancelled said contracts and earned profits thereon, as such profit was integral part of assessee's business, Explanation (baa) to section 80HHC (4B) was not applicable to it and 90 per cent of that profit was not required to be excluded from profits and export business. (A.Y. 1993-94)

*D. Kishorekumar & Co. v. Dy. CIT (2005) 2 SOT 769 (Mum.)(Trib.)*

**S. 80HHC : Deduction – Export business – Explanation (baa) – Excise duty – Processing charges**

Where as and when excise duty was paid by the assessee as a temporary measure, amount was debited and similarly, on refund of such excise duty, same was credited to books of account, alleged amount of excise duty either paid or refunded did not affect business profits of the assessee at all and, therefore, there was no reason for excluding 90 per cent of the excise duty refund from profits of business of assessee as per the Explanation (baa) to section 80HHC.(A.Y. 1993-94)

Income earned by assessee on account of processing charges by utilizing plant and machinery, and other manufacturing facilities installed in its industrial undertaking, does not have element of dormant receipts like rent, commission, interest, etc., and, therefore, 90 per cent of such income by way of processing charges cannot be excluded from profits of business under Explanation (baa) to section 80HH(4B).

*Anil L. Shah v. ACIT (2005) 95 TTJ 216 (Mum.)(Trib.)*

**S. 80HHC : Deduction – Export business – Export turnover – Exchange rate difference**

Where assessee was in receipt of exchange rate difference in respect of export undertaken by it and while computing deduction under section 80HHC, assessee had treated such receipts as part of export turnover for claiming deduction under section 80HHC, there was a direct nexus between amount realised on account of export sales and exchange rate difference, whether credited by assessee in its books of account as

export sales or as exchange rate fluctuation, but fact remained that all those receipts were on account of export proceeds and, hence, assessee's claim was to be upheld. (A.Y. 2001-02)

#### **S. 80HHC : Deduction – Export business – Sale to export – House – Subsequent year**

Assessee sold goods to the Export-house during the asst. yr. 1991-92 but export took place by the Export-house in the asst. yr. 1992-93 and accordingly, the Export house issued a certificate in Form No. 10CCAB in respect of the asst. yr. 1992-93. On the facts it was held that the deduction should be allowed in the year in which the assessee had sold the goods or merchandise to the export house or trading house as a certificate in the prescribed form had been produced and that there is no compulsion whatsoever that the Export - house has to necessarily export the goods only in that year in which it has purchased the goods from the supporting manufacturer. Therefore, it was held that assessee was entitled to deduction under section 80HHC in the asst. yr. 1991-92 itself. (A.Y. 1991-92)

**S. 80HHD : Deduction – Convertible foreign exchange – Travel agent – Receipt**

The assessee, travel agent, computed deduction under section 80HHD by ignoring the receipts of which the assessee issued disclaimer certificates. The quantum of deduction was modified by the Assessing Officer. Hon'ble Court held that in the formula for purposes of computing eligible profit under section 80HHD (business profit x foreign exchange receipts/total receipts) foreign exchange receipts received on behalf of other hotels and in respect of which assessee has issued disclaimer certificate under Form No. 10CCA will be reduced from numerator of multiplier (foreign exchange receipts) and same figure will also be reduced from denominator of multiplier (total receipts). ### **S. 80HHE : Deduction – Export of computer software – Export turnover retained abroad**

Benefit of deduction under section 80HHE cannot be denied to the assessee simply because the income certified for deduction is nil in form no 10CCAF for the reason that the computation of total income as per return was loss. Assessee is entitled to deduction under section 80HHE on the amount of export turnover retained abroad to

the extent of its outstanding dues to that company and the amount retained by assessee's foreign branch in respect of expenses incurred by it on behalf of assessee provided there is nexus between the outstanding payable / expenditure incurred abroad and the business of export which has yielded the income. ### **S. 80-I : Deduction – New industrial undertakings – Manufacturing or production – developing computer software**

Sales-tax authority treated as development of computer software as a product and sales tax is separately charged. It is treated as customized service-tax but as a packaged software. As it is evident from the Bombay Sales-tax Act, 1959, entry No. 26 (5) specifying the rates of tax on software packages. The use of the software was certified by The Times of India and other newspaper agencies mentioning that software Page No 1 Page No 1 has developed Devnagari typesetting software being used to produce output on Linotronic 300 typesetters. The correspondence with the publishers also indicated that there existed a warranty period and also a condition of training of staff as in the case of any other high technique equipment. It was established that each product is sold in the market with a specific serial number as per purchase order from the customer and dispatched through the delivery challan with a quoted sale price to be utilised by any customer. Hence it was held that it was a manufacturing or producing an article or thing and entitled to the deduction under section 80-I. (A.Y 1992-93).

### **S. 80-IA : Deduction – Industrial undertakings – Revision – High Court order – Reassessment [S. 263]**

In appeal against the order of Tribunal, the High Court set aside the order of Tribunal, against the Order of the High Court the assessee filed an SLP before the Supreme Court. On 5th Jan., 2011 the Apex Court permitted the department to proceed with reassessment, without prejudice to rights and contention of parties. Assessing Officer passed the order disallowing the deduction under section 80IA. Considering the peculiar facts the Apex Court set aside the matter to the file of CIT(A) to decide a fresh uninfluenced by the earlier order of CIT under section 263 as well as impugned order passed by High Court.

### **S. 80-IA : Deduction – Industrial undertakings – Manufacturing or Production – Conversions of Raw Marble Blocks into Polished Marble Slabs**

The conversion of raw marble blocks into final product of polished marble slabs or tiles in a factory constitutes “manufacture or production” under section 80-IA(2)(iii) (prior to 1-4-2000) – AY 2001-02. The activity carried out in the present case is not only manufacture but also an activity beyond manufacture that brings about a new product into existence. If it were held not to be “manufacture”, it would lead to disastrous consequences as the assessee would not be liable to pay other taxes like excise duty etc.

“Production” is wider in meaning compared to “manufacture”. Word “production” means manufacture plus something in addition thereto. While every manufacture constitutes production, every production does not amount to manufacture of goods. (A.Y. 2001-02)

### **S. 80-IA : Deduction – Industrial undertakings – Manufacturing – Twisting and texturizing – POY**

Twisting and texturizing of Partially Oriented Yarn (POY), held, applying test in Oracle case (2010) 2 SCC 677, POY *simpliciter* is not fit for being used in manufacture of fabric. It becomes usable only after undergoing thermo-mechanical process that converts POY into texturized yarn, which is used in manufacture of fabric. Hence, it constitutes “manufacture”. Further clarified, however, texturizing or twisting per se in every matter does not amount to manufacture. (A.Y. 1996-97)

### **S. 80-IA : Deduction – Industrial undertakings – Manufacturing – Duplication of master media software [S. 12(b)]**

Duplicating process carried out to prepare a recorded CD from the master media changes the basic character of a blank CD, dedicating it to a specific use and, therefore, the process by which a blank CD is transferred into software loaded disc constitutes "manufacturing or processing of goods" in terms of section 80-IA(12)(b) r.w.s. 33B.

Chapter VI-A and section 80-IA is a code by itself providing special deductions for setting up industrial undertakings in backward areas and for earning profits in foreign exchange. Unlimited deductions are not permissible. Hence, "manufacture or processing of goods" must be interpreted in that background. In present case, process undertaken by the assessee was duplication of master media software on to blank CDs. Said process of duplication may be done at home or for commercial duplication. Department, therefore, should study actual process undertaken and ground realities of business when new technology is involved in a process. (A.Ys. 1995-96, 1996-97)

#### **S. 80-IA : Deduction – Industrial undertakings – Export incentive – Eligible income**

Entitlement to deduction under section 80-IA without reducing the amount of export incentive is a substantial question of law. Question whether the assessee was entitled to deduction under section 80-IA on the amount of entire eligible income without reducing the amount of export incentive from the same is an important question of law and interpretation of section 80-IA arise for determination; High Court directed to decide the same.

**S. 80-IA : Deduction – Industrial undertakings – Old unit merging with a larger new unit**

The true test to claim deduction under Section 80-IA is not whether new industrial undertaking connotes expansion of existing business of assessee but whether it is all the same as a new and identifiable undertaking, separate and distinct from existing business. The reconstruction of business or an industrial undertaking must necessarily involve concept that original business or undertaking does not cease functioning and its identity is not lost or abandoned. The Section 80-IA approves a situation in which

an old existing smaller industrial undertaking is absorbed by a new and much bigger industrial undertaking. (A.Y. 1996-97)

necessarily selling price of goods actually sold by assessee. (A.Ys. 1995-96 to 1997-98)

### **S. 80-IA(5) : Deduction – Industrial undertakings – Initial assessment year – Loss & Depreciation of eligible unit prior to “initial assessment year”, if set-off against other income, not notionally carried forward**

In A.Y. 2006-07 the assessee installed a windmill, the profits of which were eligible for 100% deduction under section 80-IA. Owing to depreciation and loss, the assessee did not claim section 80-IA deduction in A.Y. 2006-07 & 2007-08 and set-off the loss and depreciation against other income. In A.Y. 2008-09, the assessee earned profits from the windmill and claimed deduction under section 80-IA. The Assessing Officer & CIT(A) relied on the Special Bench decision in *ACIT v. Goldmines Shares & Finance (P) Ltd. (2008) 116 TTJ 705 (Ahd)(SB)* and held that in view of section 80IA(5), the loss and unabsorbed depreciation of the eligible unit, though set-off against the other income, had to be “notionally” carried forward for set-off against the profits of the eligible undertaking. On appeal by the assessee, HELD allowing the appeal:

Though in *ACIT v. Goldmines Shares & Finance (P) Ltd. (2008) 116 TTJ 705 (Ahd)(SB)* it was held that in view of section 80IA(5), the eligible unit had to be treated as the only source of income and the profits had to be computed after deduction of the notionally brought forward losses and depreciation of the eligible

business even though they were in fact set-off against other income in the earlier years, the Madras High Court held in *Velayudhaswamy Spinning Mills (P) Ltd. v. ACIT (2010) 38 DTR 57* held that such a notional exercise was not contemplated by section 80IA(5). It was held that the fiction in section 80-IA(5) that the eligible unit is the only source of income begins from the "initial assessment year" which is not the same thing as the year of commencement of activity. The law contemplates looking forward to a period of ten years from the initial assessment and does not allow the Revenue to look backward and find out if there is any loss of earlier years and bring forward notionally even though the same were set off against other income of the assessee and the set off against the current income of the eligible business. Once the set off has taken place in an earlier year against the other income, the Revenue cannot rework the set off amount and bring it notionally. The fiction in section 80-IA(5) is for a limited purpose and does not contemplate to bring set off amount notionally. The judgement of a constitutional court has overriding effect over the decision of a Special Bench of the Tribunal and the latter cannot be followed. (A. Y. 2008-09).

**S. 80-IA(9) : Deduction – Industrial undertakings – Restrictions – Gross total income – Interpretation – Both sections [S. 80HHC]**

Section 80-IA(9) cannot be interpreted to mean that section 80-IA deduction has to be reduced for computing section 80HHC deduction. The restriction in section 80-IA(9) relates to the allowance of deduction i.e. seeks to curtail allowance and not computation of deduction. Section 80-IA(9) does not disturb the mechanism of computing the deduction provided under section 80HHC(3). The reasonable construction of section 80-IA(9) is that where deduction is allowed under section 80-IA, then the deduction computed under other provisions under heading 'C' of Chapter VIA has to be restricted to the profits of the business that remains after excluding the profits allowed as deductions under section 80-IA, so that the total deduction allowed under the heading 'C' of Chapter VIA does not exceed the profits of the business. **S. 80-IA(9) : Deduction – Industrial undertakings – Deduction 80-IA is allowed before computing deduction under section 80HHC – Export [S. 80HHC]**

Restriction is placed on claiming repetitive deductions under the provisions of section 80IA(9) and therefore, deduction under section 80-IA should be claimed from the profits and gains of the business before computing deduction under section 80HHC. (A.Y. 1999-2000 and 2002-03)

### **S. 80-IA(10) : Deduction – Industrial undertakings – Close Connection – Reasonableness**

Provisions of section 80-IA(10), can be invoked only when there is a close connection between assessee carrying on eligible business and any other person and course of business between them so arranged that business transacted between them produces more than ordinary profits to assessee. In the instant case, assessee was generating and transmitting electricity in its own business only and there were no transactions with any other person, hence the provisions of section 80-IA(10), were not applicable to its case. #### **S. 80-IA : Deduction – Infrastructure development – Developing, operating and maintaining industrial park – Withdrawal of approval – Writ [Art. 226]**

As per the scheme, what was required to be done by the petitioner was to provide for infrastructural facilities before last date envisaged under the scheme. There after there was no obligation on the part of the petitioner to ensure that industrial units on such plots must also come into existence and commence their production activities, therefore impugned show cause notice for withdrawal of approval of assessee's Industrial Park was quashed and the CBDT was directed to notify the same. Ordinarily Courts do not encourage litigation at the show cause notice state but where the show cause notice is based on premise which is legally not sustainable, writ petition held to be maintainable.

#### **S. 80-IA : Deduction – Infrastructure development – Generation and supply of power – Deemed generation of power**

Assessee entered into agreement for supply of power. Agreement providing that if power not required, compensation charges to be paid. **S. 80-IA : Deductions – Infrastructure development – Computation – Electricity**

Electricity generated by assessee, collected by Electricity Board and releases to assessee when ever required. Assessee neither selling nor buying as far as captive consumption of power is concerned. Assessee paid consumption of power more than contribution. Market value to be taken for consumption. Under section 80IA(8) market value means the value determined by market forces. In the captive consumption of power generated by the assessee company no market force was operating. Market forces came in to the picture only when the assessee bought power from Tamil Nadu Electricity Board like any another consumer. The value paid for such consumption was the market value and in the present case it was 3.50 per unit. Therefore the contention of the assessee was to be accepted and the assessing authority was to recomputed the profit and gains of the eligible unit for the purpose of section 80IA on the basis of the unit price of electricity generated by the assessee company at 3.50 per unit. **S. 80-IA : Deduction – Infrastructure development – Derived from – Fly ash – Generation and sale of electricity – Not eligible**

Assessee was engaged in business of generation of and sale of electricity. Fly ash was a by product generated out of production of electricity. Assessee used Fly ash in making fly ash bricks. Assessee claimed that profit earned on sale of fly ash bricks is also eligible profits for the purpose of claiming of deduction under section 80IA. The Tribunal held that brick making unit of assessee was a separate unit with a distinct set up and process, separate technology and manpower etc., profits derived from manufacture and trade of bricks, could not constitute "operational income" of "Power generating unit" of assessee, therefore assessing officer was justified in rejecting assessee's claim. An activity can be considered as a solid waste management activity in a case where an organization involves itself in a comprehensive activity of not only collection, transport and treatment of waste but also participates in the policy making etc. The Activity of the assessee i.e. clearing the beaches, without being involved in control of generation, disposal and policy, making cannot be considered as a solid waste management activity, hence, the assessee is not eligible for deduction under section

80IA though the activity carried on was approved by BMC. (Solid Waste Management Department). (A. Y. 2004-05).

### **S. 80-IA(4) : Deduction – Infrastructure development – Develops – Contractor**

Relying on the judgement of the Larger Bench in B. T. Patil & Sons Belgaum Construction (P) Ltd. v. ACIT (2009) 126 TTJ 577 (Mum)(TM)(Trib.), the assessee's claim for deduction under section 80-IA(4) was denied by the Tribunal on the ground that the assessee was only a contractor and had not complied with all the conditions specified in sub-clauses (a), (b) & (c) of clause (i) of section 80-IA(4). The order was recalled pursuant to the assessee's MA claiming that the judgement of the Bombay High Court in ABG Heavy Industries Ltd. 322 ITR 323 covered the issue in its favour. HELD deciding the issue afresh:

The contractor who merely develops but does not operate or maintain the infrastructure facility is eligible for deduction under section 80IA(4). Harmonious reading of section 80-IA(4) led to the conclusion that the deduction was available to an assessee who (i) develops or (ii) operates and maintains or (iii) develops, operates and maintains the infrastructure facility. The 2001 amendment made it clear that the three conditions of development, operation and maintenance were not intended to be cumulative in nature. A developer who is only developing the infrastructure facility cannot be expected to fulfill the condition in sub-clause (c) which is an impossibility

and requiring it to be fulfilled will be an absurdity. *B. T. Patil & Sons Belgaum Construction (P) Ltd. v. ACIT (2009) 126 TTJ 577 (TM)(Mum)(Trib.)* impliedly held not good law).

**S. 80-IA(4)(ii) : Deduction – Infrastructure development – Telecommunication**

Assessee ran a proprietary business providing telecommunication services to her subscribers within a limited radius of 500 meters on the basis of an agreement entered with BSNL. In computing her total income for the Assessment years 2002-03 to 2006-07 the assessee claimed deduction under section 80IA(4)(ii) of the Income Tax Act, 1961. The assessing authority held that the assessee herself had not developed any telecommunication service system nor was she operating and maintaining any system independently. Assessee was running the business as a franchise of BSNL. The Tribunal held that the Assessee a private commercial venture not involving development of infrastructure not entitled to special deduction. (A. Ys. 2002-03 to 2006-07).

**S. 80-IA(4)(iii) : Deduction – Infrastructure development – Income from developing, operating or maintaining industrial park**

Assessee having constructed multistoried buildings for the purpose of developing infrastructure facilities as approved by the Ministry of Industry and Commerce and leased out to five /four floors to some tenants who are carrying on their diverse operations as functionally independent units, each floor could be taken as independent unit, and deduction under section 80IA(4)(iii) could not be denied on the ground that all the floors of the same building occupied by same tenant cannot be construed as one unit and that it was not operating five units in Asst. Year 2007-08 and four units in the next year as stipulated in the approval granted by the said Ministry. Once the projects are approved and notifications are made by the appropriate authorities the approval and notification run back to the date of commencement of the activities and therefore, deduction under section 80IA(4)(iii) cannot be declined on the ground that the assessee has started functioning even before the formal order of approval and notification. ### **S. 80-IA(4C) : Deduction – Infrastructure development – Telecommunication Services**

While computing deduction under section 80-IA(4C), attributing the income in the ratio of old and new telephone exchanges is not proper, in view of complete revolution after 1995 in the telephone sector, most of the income is attributable to new exchanges and therefore, seventy five percent of the income from various services to be treated as having been served by virtue of new exchanges and 25 percent of the income to be attributed to the old exchanges. ### **S. 80-IA(8) : Deduction – Infrastructure development – Tariff fixed by MERC for sale of power does not reflect “market value”**

It is held that under section 80-IA(8), the transfer of goods from an eligible business to a non-eligible business is required to be taken at “market value”. But the tariff determined by MERC is based on the concepts of ‘clear profits’ and ‘reasonable return’ and does not reflect the “market value” of the electricity. Further, the tariff is fixed for both activities of generation and distribution of power and may not reflect the true rates with regard to only the activity of generation. Thus, even after the fixation of tariff by MERC, the profits from the business of generation of power has to be worked out on the basis of the price paid to the outside party for purchase of power. ### **S. 80-IA(8) : Deduction – Infrastructure development – Generation and distribution of electricity – Captive consumption – Price at which SEB supplied to its consumer to be considered as market price**

Assessee had two undertakings i.e. undertaking engaged in business of generation and distribution of electricity and other one was a steel division. Steel division drew the electricity from the undertaking which generated the electricity. The income of Electricity division is exempt under section 80IA. The assessing found that the assessee has charged more rate than it has charged to State Electricity Board (SEB). The Assessing Officer took the view that the assessee has inflated the profit of eligible undertaking and deflated taxable profits of steel undertaking hence invoked the provision of section 80IA(8). The Tribunal held that price at which SEB supplied to its consumer to be considered as market price in respect of electricity drawn for captive consumption of assessee’s steel division for the purpose of section 80IA(8) and not price at which electricity was sold by assessee to SEB, accordingly upheld the order of Commissioner(Appeals). ### **S. 80-IB : Deductions – Industrial undertakings – Manufacture or Production – Job work – Compound rubber – Interest from customers – Belated payments**

Production of compound rubber on job work for the tyre manufacturing companies by the assessee amounts to “production of an article or thing” qualifying for deduction under section 80IB. There is nothing in section 80IB to indicate that article or thing produced or manufactured should be final product in itself. If the interest is assessable as business income then only it qualifies for deduction under section 80IB as profit earned. In the absence of relevant details of the interest received by the assessee from the customers for belated payment of job work charges matter remanded to the Assessing Officer for reconsideration.

Following Delhi High Court decision in *CIT v Dharampal Premchand (2009) 317 ITR 353*, it was held that excise duty refund was eligible under section 80-IB on the ground that (a) there was a direct nexus between the refund of excise duty and the undertaking and (b) if the proper accounting methodology was followed for the payment and refund of excise duty, the net effect on the P&L A/c was nil. Also, the refund of excise duty is the assessee’s own money coming back and is not income at all. (A. Y. 2007-08)

**S. 80-IB : Deduction – Industrial undertakings – Manufacture – Production – Water purification system – Out sourcing – Twenty or more workers**

Assessee himself is making the final product i.e., water purification system, it cannot be said that he is not engaged in manufacture merely because, some material is readily purchased from the market and some raw material is got manufactured by outsourcing, assessee having employed twenty or more workers during the major part of the year, there is substantial compliance of the condition of employment of

minimum number of workers and therefore assessee is entitled for deduction under section 80IB, more so when similar deduction has been allowed in the preceding years. (A. Y. 2001-02).

### **S. 80-IB : Deduction – Industrial undertakings – Job work charges – Apportionment of receipts**

Assessee-HUF was engaged in manufacturing of moulds for ball pens and, supplying same to ball pen manufacturing concerns. It also provided services to buyers by way of repair and maintenance of moulds sold to them and charged job work charges, which included receipt on account of sale of spare parts and repair and maintenance charges. The Tribunal held that income earned by assessee from repairs and maintenance charges could not be equated with income from manufacturing and hence was not eligible deduction in terms of section 80IB. In the absence of records it was not possible to decide how much was for repairs and how much for was job charges. 50% of receipt was thus estimated as job work charges on which the assessee would entitled deduction under section 80IB and balance 50% as receipt on account of repair and maintenance charges on which the assessee would not be entitled to get deduction under section 80IB. ### **S. 80-IB : Deduction – Industrial undertakings – Derived – MODVAT credit – Is “derived” from industrial undertaking**

The assessee availed/set off Modvat credit of excise duty of earlier years amounting to ` 1.93 crores. The Assessing Officer held that section 80-IB deduction was not admissible on the said Modvat credit on the ground that the “source of the income was government policy imposing excise duty at differential rate” and it was not “derived” from the industrial undertaking. This was reversed by the CIT(A). On appeal by the department, HELD dismissing the appeal:

The payment of central excise duty has a direct nexus with the manufacturing activity and similarly, the refund of the Central excise duty also has a direct nexus with the manufacturing activity. The issue of payment of Central excise duty would not arise in the absence of any industrial activity. There is, therefore, an inextricable link between the manufacturing activity, the payment of central excise duty and its refund.

Consequently, it is "derived" from the industrial undertaking and eligible for section 80-IB deduction (*CIT v. Meghalaya Steels 332 ITR 91 (Gau.) and J.K. Aluminium v. ITO (ITAT Delhi)* followed) (A.Y. 2006-07)

**S. 80-IB : Deduction – Industrial undertakings – Manufacture – Potato Chips – Initial Year**

Conditions precedent for allowability of deduction under section 80-IB are to be examined in the initial year of the claim and if they are found to be satisfied the Assessing Officer cannot ignore that finding in the assessment of a subsequent year and take a different view. The Tribunal held that the CIT(A), was not justified in disallowing deduction under section 80-IB on the ground that the manufacture and sale of dehydrated onion flakers and potato chips is not manufacture or production of article or thing to be eligible to deduction under section 80-IB. **S. 80-IB : Deduction – Industrial undertakings – Manufacturing – Types of sheets and pre-engineering building material**

Assessee had employed high-tech sophisticated machinery, e.g., for marking roof tops, it bought plain sheets and gave them curved and desired shape on cold rolled mill and thereafter, different engineering operations were carried on and thus, ultimately assessee gave technical inputs in respect of tensile strength, long durable

service life and structural quality keeping factors like heat resistance operational requirement, energy consumption and environmental factors in mind. Similarly, for beams columns and rafters, assessee had used high duty shearing machine as against simple fabrication tools employed by others. It had auto-welding machines which gave uniform welding and made all parts uniformly joining and becoming one static body and ultimately improved its tensile strength. In view of above process, there was sea change from raw materials to finished products, hence, the assessee could be said to be engaged in production or manufacture of an article or thing and entitled to deduction under section 80-IB. **S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Pre A. Y. 05-06**

A project approved as “housing project” by local authority eligible for deduction under section 80-IB(10) irrespective of extent of commercial user Where the legislature has provided that the deduction under section 80IB(10) is available to all housing projects approved by a local authority, the result is that even projects with commercial user approved as a “housing project” are eligible for deduction. Thus, the Tribunal was justified in confirming the deduction only to projects having commercial area upto 10% of BUA. If the project is approved as a “housing project” deduction under section 80-IB(10) is allowable irrespective of the commercial area. It was further held that the insertion of clause (d) to section 80-IB(10) w.e.f. 1.4.2005 to deny section 80-IB(10) deduction to projects having commercial user beyond the prescribed limits is not retrospective. **S. 80-IB(10) : Deduction – Development and construction – Housing project – Built up area of two units exceeded 1500 square feet – Assessee not entitled for deduction**

The Assessing Officer conducted spot enquiry and physical inspection revealed that individual residential unit measuring less than 1500 sq. feet in built up area on paper was never meant to be sold as such but was always to be sold together with adjoining unit. The built up area of the two units exceeded 1500 sq. feet. Assessee had only one electricity meter for two adjacent flats. All 104 units have been sold to adjoining pairs to 52 families and the buyers have been shown either same persons or husband and wife and only one entity was shown in the broucher for two flats. The Tribunal held that CIT(A) was justified in confirming the order of Assessing Officer refusing to grant deduction under section 80IB(10). (A. Y. 2003-04).

**S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Commercial area – Projects commenced prior to 1-4-2005 – Restriction of 5% is not applicable**

The Tribunal noted that the assessee's project had commenced prior to 1-4-2005. It also noted that in the case of Brahma Associates, the High Court held that the amendment to section 80IB is prospective in operation. Since the assessee's project had commenced in December 2003, the Tribunal held that amendment to section

80IB(10) w.e.f. Assessment Year 2005-06, restricting the commercial area to 5% is not applicable to projects commenced prior to 1-4-2005. (A. Y. 2005-06).

**S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Pro-rata basis – Residential buildings – Area exceeding 1500 square feet**

Whether deduction should be allowed in the case of flats having built up area not exceeding 1500 sq. ft., even though some of the flats were exceeding 1500 sq. ft. On reference to third member, the third member held that in view of order passed by Calcutta High Court in CIT v Bengal Ambuja Housing Development Ltd. (IT Appeal no 458 of 2006 dated 5-1-2007), assessee was entitled to deduction under section 80IB(10) in respect of flats having built up area not exceeding 1500 square feet and not entitled for deduction in respect of those flats having their built up area exceeding 1500 square feet. The third member also held that in view of CIT v Brahma Associates (2011) 197 Taxman 459 (Bom)(High Court), finding of Vice President on the issue of fixing limit of 10 percent cap does not hold good. *ACIT v. Bombay Real Estate Development Company (P) Ltd. (2011) 64 DTR 137 (Mum.)(Trib.)*

**S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Combined area of flats – Built up area**

When as per the approved plan the assessee has sold each flat under separate agreement which are less than 1000 sq. Ft. deduction under section 80IB cannot be denied to the assessee merely because some of the purchasers have purchased more than one flat and combined the same and area of such flats is more than 1000 sq. ft. of built up area. The definition of "Built up area" as given in sub section 14(a) of section 80IB is inserted by the Finance (No. 2) Act, 2004 w.e.f. 1st April, 2005 and therefore the same is applicable only in respect of the projects approved after 1st April, 2005 and consequently, balcony / terrace cannot be included in the built up area of the flats in the housing projects approved prior to 1st April 2005. **S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Land in the name of owner – Not in the name of Developer – Built up area – Open terrace**

Assessee having purchased land and developed a housing project consisting of residential flats having built up area of less than 1500 sq. ft. each by incurring all expenses and taking all the risk involved therein and received entire sale consideration from the buyers after completion of the housing project in its own right, deduction under section 80IB(10) could not be denied on the ground that the permissions and approvals by the local authorities were in the name of the housing society (Land owner) and not in the name of the assessee. As per the definition given in section 80IB(14)(a), built up area means, inner measurement of the residential unit at the floor level including the projections and balconies as increased by the thickness of the walls but does not include the common areas shared with other residential units. Open terrace is open to sky would not be part of the inner measurement of the residential unit at any floor level. The Assessing Officer was not justified in rejecting the assessee's claim by taking the open terrace, the built up area of each of the 110 units less than 1500 sq. ft., therefore the claim of assessee was allowed. **S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Residential area more than 1500 sq. ft.**

The eligibility conditions under section 80-IB are that the built up area should not exceed 1500 sq. ft in context of cities other than Delhi, and Mumbai and the profits must be derived in the previous year from the housing project. This restriction is applicable for the entire project. If some of the residential units of the project comprised area exceeding the prescribed limit, the benefit could not be extended to the project. The assessee cannot be granted exemption for the project. (A.Y. 2004-05)

**S. 80-IB(10) : Deduction – Undertaking – Development and construction – Housing project – Renewal plan approved – Commencement certificate**

The Assessee purchased land in 1996 and wall was constructed. Original plan expired after validity period of one year. Revised plan was approved and commencement certificate issued on 30-9-2000. User of land for non-agricultural purposes was permitted on 28-6-2001. The Assessing Officer disallowed the claim for deduction under section 80-IB(10) on the ground that the condition i.e. commencement of the construction after 1-10-1998 was not satisfied. The Tribunal held that expenses incurred for change of land use and other administrative/ other land development expenses incurred prior to statutory approvals, which have been received after 1-10-1998 cannot result into commencement of the project before 01-10-1998, Hence, deduction under section 80-IB allowed. Project consisted of residential units where the individual flat size varied between 800 sq. ft. and 3,000 sq. ft. The Tribunal noted that the provisions of section 80-IB(10) do not provide for denial of deduction, if a housing complex contains both, the smaller and larger residential units. Hence the assessee allowed deduction computed on proportionate basis. (A.Y. 2002-03)

### **S. 80P : Deduction – Co-operative societies – Marketing agricultural produce of members – Amendment – Retrospective**

The Supreme Court held in an earlier decision that the deduction related to agricultural produce was restricted to "Produced by members". In a subsequent decision it held that the deduction can be in relation to a produce "belonging to members". While considering the retrospective amendment of 1999 to restrict the deduction to the agricultural produce "Produced by members" the Court held that the amendment was valid, however the 1999, amendment could not be construed as authorizing the revenue authorities to reopen those assessments where the reopening was already barred by limitation. The amendment did not seek to touch on the period of limitation provided in the Act, and in the absence of any such express provision or clear implication, the legislature could not be taken to intend that the amending provision, authorized the Assessing Officer to commence proceedings which before the amendment came unto force, had by the expiry of the period provided, become barred. The 1999 amendment could apply to pending assessments in the sense that it could not revive a power lost by efflux of time.

**S. 90 : Double taxation relief – DTAA to prevail over Act – Person residing in both contracting States – India-Malaysia – Permanent establishment – Capital gains**

In case of conflict between Income Tax Act and provisions of DTAA, provisions of DTAA would prevail over provisions of Income Tax Act. Tax liability arising in respect of a person residing in both contracting States has to be determined with reference to his close personal and economic relations with one or other. In absence of permanent establishment in India in regard to carrying on of business of rubber plantations in Malaysia, business income earned by assessee out of rubber plantations could not be taxed in India. Capital gains are covered by Tax treaty.

### **S. 90 : Double taxation relief – Overriding effect – Royalty**

Income from receipt of royalties as set out in sec. 9(1) (vi) are taxable in India whether or not the non-resident has a place of residence, or place of business or business connection in India. However, the correct interpretation of the Double Taxation Avoidance Agreement would be to include the royalties from patents, copyrights or trade marks and the like within the expression "industrial" or "commercial" profits. This income would not be royalties within the meaning of the Double Taxation Avoidance Agreement but would fall under the expression "commercial or industrial profits." Liaison offices do not constitute a P.E. since liaison offices perform auxiliary functions and are thus covered under Art 5 (c) (e) of the Indo-UAE Treaty. The Authority fell in error of law in holding that liaison offices would constitute P.E. since without the acts performed by the liaison offices the non-resident assessee would not have been able to fulfill its part of the contract- this is because, going by this reasoning, every other activity would be required to be performed to enable the non-resident assessee to fulfill its part of the contract. Engineering fees for supply of drawings and design is fees for technical services with in the meaning of article VIII-A of DTAA with Germany. When there is a special provision dealing with special type of income such a provision should be understood as excluding a general provision dealing with income accruing or arising out of the business connection. Even though section 9 (1)(vii) comprehends the income by way of fees received for technical services rendered as a result of business connection or otherwise, yet it was not possible to apply the provisions of section 9 (1) ((i) because the said section stood excluded as a result of the provisions of the amended DTA Agreement. Therefore, the instant case would be covered by article VIII-A of the amended DTA Agreement. (A.Y. 1984-85)

The assessee, a French company, engaged in the operation of ships in international traffic, claimed that it did not have a PE in India and that no part of its income was chargeable to tax in India. The Assessing Officer & DRP held that as the assessee had an agent in India which concluded contracts, obtained clearances and did the other work, there was a PE in India under Articles 5(5) & 5(6) of the DTAA. On appeal by the assessee, HELD allowing the appeal:

(i) In order to constitute a PE under Article 5(1) & 5(2), three criteria are required to be satisfied viz; physical criterion (existence), functionality criterion (carrying out of business through that place of physical location) & subjective criterion (right to use that place). There must exist a physical "location", the enterprise must have the "right" to use that place and the enterprise must "carry on" business through that place. An "agency" PE will not satisfy this condition because the enterprise will not have the "right" to use the place of the agent. Under Article 5(6) of the India-French DTAA (which is at variance with the UN & OECD Model Conventions), even a wholly dependent agent is to be treated as an independent agent unless it is shown that the transactions between him and the enterprise are not at arms' length. The Department's argument that as the Assessing Officer had not examined whether the transactions were done in arm's length conditions, the matter should be restored to him is not acceptable because the onus was on the Revenue to demonstrate that the assessee had a PE. The onus is greater where the very foundation of DAPE rested on the negative finding that the transactions between the agent and the enterprise were not made under at arms length conditions. A negative finding about transactions with the dependent agent not being at ALP is sine qua non for existence of a DAPE under the India-France DTAA. The Assessing Officer could not be granted a fresh inning for making roving and fishing enquiries whether the transactions were at arm's length conditions or not (*Airlines Rotables Ltd. v. Dy. CIT (2010) 44 SOT 368* followed);

(ii) (Observed, on a conceptual note, taking note of revenue's plea but without deciding) If as a result of a DAPE, no additional profits, other than the agent's remuneration in the source country – which is taxable in the source state anyway de hors the existence of PE, become taxable in the source state, the very approach to the DAPE profit attribution seems incongruous. Further, before accepting the DAPE profit neutrality theory, as per *DIT v. Morgan Stanley and Co. Inc. (2007) 292 ITR 416 (SC)*, the arm's length remuneration paid to the PE must take into account 'all the risks of the foreign enterprise as assumed by the PE'. In an agency PE situation, a DAPE assumes the entrepreneurship risk in respect of which the agent can never be compensated because even as DAPE inherently assumes the entrepreneurship risk, an agent cannot assume that entrepreneurship risk. To this extent, there may be a subtle line of demarcation between a dependent agent and a dependent agency PE. The tax neutrality theory, on account of existence of DAPE, may not be wholly unqualified at least on a conceptual note. (A.Y. 2006-07)

**S. 90 : Double taxation relief – Permanent establishment – DTAA – India-UK [Art. 5(2), 7(1)]**

Items specified in clauses (j) and (k) of Art. 5(2) of Indo-UK, DTAA belong to a different genus of PEs i.e. extension of the basic rule set out in Art. 5(1) and thus, these clauses are applicable independent of Art. 5(1). Assessee UK based partnership firm, having rendered legal service to certain clients whose operations extended to India, and fulfilled the 90 days duration test envisaged in Art. 5(2)(k), it did have a PE in India under Art. 5(2)(k), and accordingly profits attributable to the PE are taxable under Art. 7.

Inclusion of "Profits indirectly attributable to PE" in Article 7(1) of Indo UK DTAA clearly incorporates a force of attraction principle in the tax treaty and therefore, in addition to taxability of income in respect of the services rendered to an Indian

Project which is similar to the services rendered by the PE is also to be taxed in India, irrespective of the fact whether such services are rendered through the PE or directly by the general enterprise. Case also holds that partnership will be considered as the resident for UK DTAA purposes despite not being a person under UK law (where partner was taxed, not partnership) (A.Y. 1995-96)

### **S. 90 : Double taxation relief – Fiscal domicile – Contracting state**

If fiscal domicile of a person is in a Contracting State, irrespective of whether or not that person is actually liable to pay tax in that country, he is to be treated as resident of that Contracting State – 'Liable to tax' in the Contracting State does not necessarily imply that the person should actually be liable to tax in that Contracting State by virtue of an existing legal provision but would also cover the cases where the other Contracting State has the right to tax such persons, whether or not such a right is exercised. **S. 90 : Double taxation relief – Foreign companies – DTAA – India-France [S. 80M, Art. 21]**

The provisions of article 21 (non-discrimination clause) of DTAA with France only deal with cases of discrimination on ground of nationality; non-availability of deduction under section 80M to foreign companies, i.e., companies which are not domestic companies, has nothing to do with nationality of a company; accordingly, non-discrimination clause in India-France DTAA cannot be invoked in cases where provisions of Indian Income tax Act are more favourable to domestic companies vis-à-vis foreign companies; thus, there is no merit in contention that in view of provisions of article 21 of DTAA between India and France regarding non-discrimination and in view of fact that provisions of section 80M seek to discriminate against foreign companies by allowing such deduction only to domestic companies, deduction under section 80M is required to be extended to foreign companies covered by India France DTAA. service so as to equip him to independently perform the technical function himself in future, without the help of the service provider, i.e. it would be regarded as Fee for Technical/included services only if the twin test of the rendering services and making technical knowledge available at the same time is satisfied - Hence held that as there is no transfer of any skills or technical knowledge or experience, or process or know-how to the CABs on account of grant of accreditation, it cannot be taxed either as fees for technical services or royalty; also no permanent establishment can be inferred on account of occasional visits of the applicant's personnel for the purpose of on-site assessment and also as the applicant does not have a fixed place of business or PE in India and the visits of the applicant's personnel were of less than 90 days in a 12 month period.

German company would supervise installation and have 2 engineers deputed to India for max. 60 days. Performance guarantee for entire work is given by German applicant - Revenue contended that sub-contractor is nominee of the applicant and therefore workshop of the sub-contractor should be treated as PE of the applicant

contractor - Authority ruled that once PE is characterized as installation PE, minimum period test shall apply irrespective of General PE rule, as specific provision will override the general provision in respect of the PE; further, work place of sub-contractor can be treated as workplace of applicant only if sub-contractor is treated as dependent agent of the applicant - Hence ruled no PE in India and not taxable in India.

Power Grid Corp. of India gave contract to Korean company covering all the works to be performed outside India including supply of all off-shore equipment and materials and also an onshore supply and services contract that the Korean company assigned to L&T, India - AAR observed that mere collaborative effort and overall responsibility assumed by the applicant for successful performance of the project is not sufficient to constitute an AOP as the contracts, obligations and payments under the contracts are separate and independent of each other; thus it cannot be constituted as an AOP - AAR thus ruled that the applicant does not have a PE within the specific description of Article 5(3) of DTAA; Further, the title to the goods in case of off-shore supply contract shall pass on to Power Grid at FOB Port of shipment; thus income in relation thereto cannot be said to accrue or arise in India

Remuneration is paid by Korean govt. owned company 'SBC' operating as liaison office in India to its Korean employee; contends it is tax exempt under Article 20(4) of the DTAA whereby tax is payable only in the contracting State for whom service has been rendered - AAR held that the Korean national is an employee of SBC but not the employee of the State; i.e. Government of Republic of Korea. SBC does not appear to be the department of the Government as the applicant guardedly states in the application that the liaison office of SBC 'is similar to a Government department'. A Government undertaking with corporate status cannot obviously be equated to the Government. The fundamental requirement of said Article is that the remuneration should be paid by the Contracting State - hence held not exempt from tax in India.

NRI working in UAE claims that he is entitled to the benefit of the provisions of the DTAA and is chargeable to lower rates of tax contained in Articles 10 & 11 on income from capital gains, interest & dividend - AAR observed that the definition of 'person' in Article 3(e) includes an individual who is treated as a taxable unit under the taxation laws in force in the respective contracting state. Under the Taxation Law in India an 'individual' is a taxable unit but is excluded from the definition of 'person' under UAE Decree; thus any person who does not pay tax under the laws of a contracting State cannot be treated as a resident of that State and hence is not entitled to claim the benefit of the provisions of the DTAA; further, in terms of article 13(3) and article 4 of the DTAA, the applicant, an individual Indian national, residing in UAE, is liable to capital gains tax in India and further, in terms of article 11 of the treaty between India and UAE read with Circular No. 734 dated 24.1.1996 issued by the CBDT, income receivable by the applicant in India by way of interest or dividends on bonds and deposits with banks and companies are liable to be taxed at the rates mentioned in the circular at 12.5 per cent of the gross amount of the interest received).

**S. 90 : Double taxation relief – Technical services – Deduction of tax at source – Taxability of Royalty whether on cash or receipt basis – DTAA – India-Sweden [S. 195, Article 12]**

Resident applicant credits payments towards royalties payable to non-residents in its books of accounts without deducting tax at source and contends as per DTAA, royalties are taxable only when 'paid' - Issue is whether income receivable by the non-resident companies is taxable in their hands in India only on cash or receipt basis as per Article 12 of the respective DTAA's and whether TDS is applicable only at time of making actual remittance and not at the time of making a mere provision in the books of accounts of the applicant - AAR observed that para (2) of Article 12 of the DTAA clearly lays down that the amount of such royalties/fees may also be taxed in India, in which they arise, and according to the laws of India. It is thus clear that the provisions of Article 12 of the treaty, discussed above, do not provide that taxability of such royalties/fees in India shall be on cash or receipt basis. Hence such royalties/fees would be taxable according to the law in India which include cash or receipt basis and TDS has to be at the time of making a mere provision thereof in the books of account of the applicant, since the requirement of actual payment of "royalties", is not a pre-requisite or pre-condition for triggering the incidence of income tax under section 195.

#### **S. 91 : Countries with which no agreement exists – Federal taxes – Foreign state – DTAA – Tax credit**

The view that State taxes cannot be allowed as a deduction and also cannot be taken into account for giving credit is incongruous and results in a contradiction. While section 91 allows credit for Federal & State Taxes, the DTAA allows credit only for Federal Taxes. The result is that the section 91 is more beneficial to the assessee & by virtue of section 90(2) it must prevail over the DTAA. Though section 91 applies only to a case where there is no DTAA, a literal interpretation will result in a situation where an assessee will be worse off as a result of the provisions of the DTAA which is not permissible under the Act. Section 91 must consequently be treated as general in application and must prevail where the DTAA is not more beneficial to the assessee. Accordingly, even an assessee covered by the scope of the DTAA will be eligible for credit of State taxes under section 91 despite the DTAA not providing for the same. (A. Y. 2000-01)

### **S. 92 : Avoidance of tax – Transfer pricing – Arm's length price – International transaction – Debit balances**

Assessee is engaged in business of marketing of air time available on television programmes, cricket and other events and also in the business of producing television serials. During the year assessee had international transaction with one of its associated enterprises. Said associate enterprise had overdue payment and the assessee did not charge interest on overdue payments. TPO made adjustment of arm's length price for overdue payment. The Tribunal held that:

a continuing debit balance in the account of the Associated Enterprise by itself does not amount to an international transaction under section 92B in respect of which arm's length price adjustment can be made. Even assuming that the continuing debit balances of AEs can be treated as "International Transactions" the right course of applying the CUP method would have been by comparing this not charging of interest with other cases in which other enterprises have charged the interest, in respect of over dues in respect of similar business transactions, with independent enterprises. As no exercise has been carried out addition was deleted. (A. Y. 2004-05).

### **S. 92 : Avoidance of tax – Transfer pricing – Arm's length price – International transaction – Advertisement expenses**

As per the agreement "MC" would get same amount of royalty whether advertisement expenditure was borne by assessee or by its franchisers, it could not be said that by agreeing to bear a part of advertisement expenses which was to be borne by franchisers, there was any arrangement between assessee and MC, a non-resident, to

effect that there was no profit to assessee or lesser profit to assessee, therefore section 92 was not applicable with regard to advertisement expenditure and as a consequence, thereof additions confirmed by the CIT(A) was deleted. Restructuring by non-resident of its participating interest in oil exploration block in India by transferring it to a partnership firm to be formed in Canada - AAR observed that said sections apply exclusively to international transactions carried out between associated persons and accordingly, the proposed transfer of the participating interest shall be regarded as an international transaction between two associated enterprises and resulting capital gains can be assessed in accordance with the transfer pricing provision and the provisions of section 45(3) (about recorded book entry) would not prevail over it.

**S. 92 : Avoidance of tax – Transfer pricing – Arm’s length price – Interest free loan to Indian wholly owned subsidiary [S. 92A, 92B, 92C, 92D, 92E]**

Non-resident extends interest-free loan to Indian wholly-owned subsidiary; question is whether it is required to charge interest as per the principles of arms length price; it contends that charging interest would actually result in erosion of tax revenue of the country and frustrate legislative intent as it would result in reducing income of an assessee - AAR observed, on the basis of opinion of Solicitor General that it has no jurisdiction to order “non-adherence” to statutory provisions i.e. it has no jurisdiction to order that Section 92(1) be not applied or implemented - Hence held provisions of said sections to be applied and thereafter, it is for the assessing officer to decide whether interest of the revenue would be better served by not applying sub-sections (1) and (2) of S. 92 than by adhering to them.

### **S. 92A : Avoidance of tax – International transaction – De facto control of an unrelated party – Considered “associated enterprises”**

If one enterprise controls the decision making of the other or if the decision making of two or more enterprises are controlled by same person, these enterprises are required to be treated as ‘associated enterprises’. Though the expression used in the statute is ‘participation in control or management or capital’, essentially all these three ingredients refer to de facto control on decision making.

The argument, based on *Dy. CIT v. Quark Systems (P) Ltd. (2010) 38 SOT 307 (SB)*, that exceptionally high and low profit making comparables are required to be excluded from the list of TNMM comparables is not acceptable. Merely because an assessee has made high profit or high loss is not sufficient ground for exclusion if there is no lack of functional comparability. While there is some merit in excluding comparables at the top end of the range and at the bottom end of the range as done in the US Transfer Pricing Regulations, this cannot be adopted as a practice in the absence of any provisions to this effect in the Indian TP regulations. (Benefit of +/- 5% adjustment as directed in *UE Trade Corporation 44 SOT 457* to be given);

The adjustment made by the TPO with regard to the advertisement expenditure incurred by the assessee was without jurisdiction because the Assessing Officer had not made any reference on this issue to the TPO. As the reference to the TPO is transaction specific and not enterprise specific, the TPO Officer has no power to go into a matter which has not been referred to him by the Assessing Officer. Even the CBDT Instructions are clear on this (*3i Infotech Ltd. v. Dy. CIT (2011) 136 TTJ 641* followed) (A. Y. 2006-07).

Where a transaction is incurred into by AEs being a resident and non resident, transaction shall amount to an international transaction falling under section 92B(1), therefore when either or both of AEs are non-resident, transaction entered into would amount to an international transaction within the meaning of section 92B(1), therefore, it does not matter that transactions in question are not “cross border transaction”. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – Question of section 40A(2) not examined as exercise is "revenue-neutral". Transfer Pricing Provisions should be extended to domestic transactions to "reduce litigation" [S. 40A(2)]**

The assessee did not have any employee other than a company secretary and all administrative services relating to marketing, finance, HR etc were provided by Glaxo Smith Kline Consumer Healthcare Ltd. ("GSKCH") pursuant to an agreement under which the assessee agreed to reimburse the costs incurred by GSKCH for providing the various services plus 5%. The costs towards services provided to the assessee were allocated on the basis suggested by a firm of CAs. The Assessing Officer disallowed a part of the charges reimbursed on the ground that they were excessive and not for business purposes which was upheld by the CIT(A). However, the Tribunal deleted the disallowance on the ground that there was no provision to disallow expenditure on the ground that it was excessive or unreasonable unless the case of the assessee fell within the scope of section 40A(2). (See 290 ITR 35 (Del.) for facts). The department challenged the deletion. HELD dismissing the SLP:

- (i) The Authorities below have recorded a concurrent finding that the said two Companies are not related Companies under section 40A(2). As far as this SLP is concerned, no interference is called for as the entire exercise is a revenue neutral exercise. Hence, the SLP stands dismissed. For other years, the authorities must examine whether there is any loss of revenue. If the Authorities find that the exercise is a revenue neutral exercise, then the matter may be decided accordingly;
- (ii) The larger issue is whether Transfer Pricing Regulations should be limited to cross-border transactions or whether the Transfer Pricing Regulations be extended to domestic transactions. In domestic transactions, the under-invoicing of sales and over-invoicing of expenses ordinarily will be revenue neutral in nature, except in two circumstances having tax arbitrage such as where one of the related

entities is (i) loss making or (ii) liable to pay tax at a lower rate and the profits are shifted to such entity;

- (iii) Complications arise in cases where the fair market value is required to be assigned to transactions between related parties under section 40A(2). The CBDT should examine whether Transfer Pricing Regulations can be applied to domestic transactions between related parties under section 40A(2) by making amendments to the Act.
- (iv) Though the Court normally does not make recommendations or suggestions, in order to reduce litigation occurring in complicated matters, the question of extending Transfer Pricing regulations to domestic transactions require expeditious consideration by the Ministry of Finance and the CBDT may also consider issuing appropriate instructions in that regard. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – Transactional net margin method – Attribution of profit to permanent establishment – DTAA – India-USA. [Art. 7]**

The authority was correct in holding that there is no need for attribution of further profits to the permanent establishment of the foreign company where the transaction between the two were to be held to be at arm's length taking into account all the risk taking functions of the multinational enterprise. There is a difference between the taxability of the permanent establishment in respect of the income earned by it in India which is in accordance with the Income-tax Act, 1961, and the taxability of the multinational enterprise through its permanent establishment in India under Article 7 of the DTAA.

The transactional net margin method was the appropriate method of quantifying the profits of the foreign company in the case of the service permanent establishment because under the transactional net margin method the total operating profit arising from the transaction was appropriated on the basis of sales, cost, assets, etc. (A.Y. 2005-06)

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Assessing Officer's decision to refer to Transfer pricing Officer must be based on material and not be arbitrary – Transfer pricing officer has no jurisdiction to decide the validity of any such reference**

The assessee entered into transactions with a party named Blue Gems BVBA. In the preceding year, the assessee treated the transactions as an "international transaction" for transfer pricing purposes. However, in the present year, the assessee claimed that though the said party was a "related party", it was not an "affiliated entity" as defined in section 92CA. However, instead of deciding the issue, the Assessing Officer made a reference to the TPO to determine the ALP and the TPO asked the assessee to show-cause why the transaction with the said party was not subject to transfer pricing proceedings. The assessee filed a Writ Petition to challenge the action of the Assessing Officer / TPO. Held by the High Court:

The Assessing Officer has jurisdiction to make a reference to the TPO only if there is an "international transaction". Though the question as to whether there is an "international transaction" may be disputed, the Assessing Officer is not obliged to grant hearing to the assessee, invite and consider the objections with respect to the question whether there was an "international transaction" before making a reference to the TPO. The Assessing Officer's opinion has to be based on available material and would have "ad-hoc" finality. The power cannot be exercised arbitrarily or at whims or caprice. Section 92C(1) has inbuilt safeguards to ensure that the reference is made only in appropriate cases with approval of the higher authority. At the stage of framing the assessment in terms of the TPO's report the Assessing Officer is entitled [despite the amendment to section 92CA(4)] to consider the objections of the assessee that in fact there had been no "international transaction". If the assessee succeeds in establishing such fact, the Assessing Officer would have to drop the entire transfer pricing proceedings. Even the DRP has the power to consider whether there was an international transaction or not and it can annul the computations proposed on the basis of the TPO's order. However, the TPO has no jurisdiction to decide the validity of any such reference and his task is only to determine the ALP. On facts, as the parties were closely related and the assessee had accepted in the preceding year that the transactions were subject to transfer pricing, the Assessing Officer's reference could not be interfered in writ proceedings. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Super normal profit co must be excluded from comparable**

The assessee, engaged in providing software development services reported an OP/Cost Margin of 14.96%. The TPO worked out the average of arithmetic mean of ALP (OP/OC) of 42 comparables at 24.91% and directed that an adjustment of ` 10.40 crores be made. In its objections to the DRP, the assessee claimed that the comparables included three companies which were "super-normal profit making" and that these should be excluded. It was claimed that if the said companies were excluded, the arithmetic mean of OP/OC of the comparables was 17.15% which was within the +/- 5% range permitted by section 92(C)(2). The TPO rejected the contention on the ground that one company was listed and audited and showing consistent growth at the same level and there was no abnormality and that the other company's information was not listed in the database. The third "abnormal" company was not dealt with by the TPO. The DRP dismissed the objections of the assessee by a "very cursory and laconic order". On appeal by the assessee, HELD allowing the appeal:

(i) The TPO rejected the assessee's contention with regard to inclusion of the three super-normal profit companies without any cogent reason. It is undisputed that the three companies have shown super-normal profits as compared to other comparables. Their exclusion from the list of comparable is quite correct. After excluding the three companies the arithmetic mean of the comparables falls within the  $\pm 5\%$  range permitted by section 92(C)(2);

(ii) Despite the voluminous submissions and paper book filed, the DRP passed a very cursory & laconic order without going into the details of the submissions which is quite contrary to the mandate of section 144C. (A. Y. 2006-07)

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Jurisdiction – International taxation**

Though the deputation of three employees by the assessee to its US subsidiary without consideration is covered by the definition of "international transaction" under section 92B (1), it was not necessary for the Assessing Officer to determine the ALP of the said transaction as there would be erosion of tax base of India if the assessee charges the cost of deputation of employees in as much as assessee is remunerating the subsidiary on the cost-plus basis for the services and entire revenue accrues to the assessee. Jurisdiction of TPO is restricted to the transactions referred by the Assessing Officer under section 92CA(1) and therefore, TPO cannot determine the ALP in relation to an international transaction not referred to him by the Assessing Officer under section 92CA(1), further, since the conditions laid down in section 92C(3) were not satisfied the impugned addition cannot also be sustained on the premise that the Assessing Officer as determined the ALP on the basis of material or information or document in his possession. Assessee company entered into international transactions with Byk which comprised of export of intermediates and clinical trial services. Assessing Officer made reference to TPO in order to find out whether international transactions were at arm's length price or not. In regard to clinical trial services performed by assessee-company for Byk, TPO after examining various aspects, concluded that mark up of 5% over cost was not as per arm's length price and same should be 17.4% on basis of comparable cost. On appeal Commissioner (Appeals) concluded that 5% mark up as returned by assessee was fully justified. On appeal by revenue the Tribunal noticed that in course of providing clinical trial service, major part of research activities was carried out by "Byk" itself and function of assessee was only to collect data from various hospitals

and transmit same to "Byk" for which it was suitably reimbursed by mark-up of 5% over cost. It was also noted that profits of assessee were exempt under section 10B and thus, company was in no way benefited by charging 5% mark-up as against 17.4% fixed by TPO. The Tribunal held that on facts there was no infirmity in impugned order passed by Commissioner (Appeals) and the same was upheld. (A. Ys. 2002-03 to 2003-04)

Bad debts written off cannot be factor to determine the arm's length price of any international transaction. The report of the TPO is not binding on the Assessing Officer. Assessing Officer can refer the matter to the TPO for determination ALP of an International taxation transaction or he may determine it on his own. Assessing Officer can determine the price of imports of his own. New proviso to section 92C(2) came in to operation from Asst. Year 2009-10 and therefore, did not apply to Asst. Year 2003-04, further, where only one price is determined in the matter of ALP, the option of five percent under proviso to section 92C(2) is not available to the assessee. (A. Y. 2003-04)

Under Chapter X of the Income Tax Act, 1961, the determination of the arm's length price of an international transaction has to be only at the transaction level or at a class of transactions. The law does not permit determination of the arm's length price of international transactions, by comparing margins at entity level or by taking overall industry level averages. The matter was set aside. (A. Y. 2002-03).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – If ALP determined by arithmetical mean, 5% deduction allowable**

In determining the arms' length price for transfer pricing purposes in respect of international transactions relating to 'procurement Support Services', it was held that pursuant to the First proviso to section 92C(2) (pre-amendment by Finance (No. 2) Act, 2009 w.e.f. 1.10.09) which provides that "where more than one price is determined by the most appropriate method, the arms length price shall be taken to be the arithmetical mean of such prices or at the option of the assessee, a price which may vary from the arithmetical mean of an amount not exceeding five per cent of such arithmetical mean" it is clear that the assessee has an option when there is arithmetical mean involved while computing the 'arm's length price' and it happens only if more than one price is determined by the most appropriate method. The First Proviso becomes operational where more than one comparable price is determined. The assessee at his option can make claim of deduction out of the arithmetic mean not exceeding 5%. All the judicial pronouncements (*SAP Labs India Pvt. Ltd. v. ACIT (2010) 6 ITR 81 (Bang.) (Trib.)*, *Sony India P. Ltd. v. Dy. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Prior Years' data cannot ordinarily be relied upon to justify ALP. Non-operating income & expenditure should be excluded while comparing**

It was held that the assessee has to adopt the data available for the TP study at the time of filing of the return. The OECD guidelines are not of binding nature and even the Proviso to Rule 10B(4) provides that any subsequent year data cannot be considered. The contemporaneous data of relevant financial year is to be used for making the comparable analysis for arriving at the ALP unless it is proved otherwise. For arriving at the net margin of operating income, only operating income and operating expenses for the relevant business activity of the assessee has to be taken into consideration. Other income, such as dividend income, profit on sale of assets, donations as well as non-operating expenses which are included in the operating incomes of other comparable companies should be excluded as it effects the net margin of the operating profits of the comparables. Working capital adjustments also have to be considered while arriving at the operating net margins. Also the assessee is entitled to a standard deduction of 5% as provided under proviso to section 92C(2) before making adjustments of the transfer price. (*Schefenacker Motherson Ltd. v. **S. 92C : Avoidance of tax – Transfer pricing – Arms’ length price – International transaction – For TNMM, interest on surplus and abnormal costs to be excluded**

Where interest on surplus funds is assessed as “business income”, it has to be excluded in computing the ‘operating profits’ because if it is included, one is computing the “return on investment” which is an inappropriate profit level indicator for a service provider. As the PLI is the Operating Margin on Cost, neither the interest income nor interest expenses is a relevant factor. The essential element is the cost incurred for the operating activity which has to be taken into account. In computing the ALP, abnormal expenses which are not of a routine nature as well as those of a personal nature have to be excluded. The assessee has to demonstrate “exact details, exhibiting the risk born by the comparable vis-à-vis the risk in running the assessee’s business” (*Sony India (P) Ltd. v. Dy. CIT (2008) 114 ITD 448 (Delhi)* where a 20% adjustment was permitted distinguished). The benefit of +/- 5% adjustment is not a ‘standard universal deduction’. This option is available only when assessee is computing the ALP and not when the AO/TPO is computing the ALP. (A.Ys. 2002-03 and 2003-04)

**S. 92C : Avoidance of tax – Transfer pricing – Arms’ length price – International transaction – Method – CUP method – TNMM**

The assessee sold automobile wipers to its associated enterprise and claimed that as per the “Comparable Uncontrolled Price” (CUP) method, the transactions were at arms’ length basis. The TPO rejected the CUP method on the basis that the comparability of controlled and uncontrolled transactions was not established with certain degree of reasonableness and accuracy and that the conditions prevailing in the market were not established to be identical. The TPO adopted the TNMM and directed that an adjustment be made by adopting the mean profit of comparables. This was confirmed by the DRP. On appeal, HELD:

- (i) Under section 92C read with Rule 10B, the most appropriate method has to be applied for determination of arm’s length price. In principle, the CUP method (the traditional transaction method) is preferable to the other methods because all other things being equal, the CUP and traditional transactional methods lead to more reliable results vis-à-vis the results obtained by applying transaction profit method (*UCB India (P) Ltd. (2009) 121 ITD 131* and *Serdia Pharmaceuticals (2011) 136 TTJ 129* followed);
- (ii) For the CUP method, the focus is on the market in which the products are sold by the assessee and any unique feature of the market in which assessee is situated is of no importance in relative terms. As the goods were sold by the assessee as well as the competitive Chinese manufacturers in the USA market, the market conditions in the territory of sale were the same. The buyer in the USA market will

be more concerned with quality and price rather than economic conditions prevailing in China and India (*SNF (Australia) Pty. Ltd. v COT (2010) FCA 635* referred to);

- (iii) As regards the comparability of the products the assessee has to provide the sale data of the AE in terms of sale price of Chinese and assessee's goods in the USA market and quantitative data of purchase of Chinese and Indian wipers by the AE and the terms of payment and the Assessing Officer shall compute the arm's length price using this data on CUP method. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Loss – Making and super – Profit companies are not comparable**

When loss making companies have been taken out from the list of comparables by the TPO, Zenith Infotech Ltd. which showed super profits should also be excluded. The fact that assessee has himself included in the list of comparables initially, cannot act as estoppel, particularly in light of the fact that the Assessing Officer had only chosen the companies which are showing profits and had rejected the other companies which showed loss (*Dy. CIT v. Quark System (P) Ltd. (2010) 38 SOT 307 (SB)* followed). (A. Y. 2006-07)

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Operational profits – Low turnover**

- (i) The assessee's argument that comparables with a turnover less than 20% of the assessee's turnover should be considered is not acceptable because it is a universal fact that there are lot of differences between large businesses and small businesses operating in the same field. In the case of small business, economies of scale are not available and they are generally less profitable. The fact that such companies were considered comparable in an earlier year is not conclusive for want of facts of that year and also because there is no res judicata;
- (ii) The argument that segmental results of a company engaged in diverse activities should be considered is also not acceptable because it is a common experience that in many such results certain expenditures, particularly relating to interest and head office, are generally not allocated. When direct comparables are available, there is no need to consider segmented results;
- (iii) In principle, should be only the operating profit of the comparables considered. Items like interest income, rent, dividend, penalty collected, rent deposits returned back, foreign exchange fluctuations and profit on sale of assets do not form part of the operational income because these items have nothing to do with the main operations of the assessee. Insurance charges would depend on the

nature of insurance charges. If the insurance charges were on account of loss of some parcel or courier against which courier has made a payment of compensation then such charges would constitute operational income. (A. Y. 2006-07).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Principles on use of multi-year data, turnover filter, risk adjustment & +/- 5% adjustment**

- (i) If the Transactional Net Margin Method ("TNMM") is adopted, the comparison has to be made between the net margin realised from the operation of the uncontrolled parties' transaction and net margin derived by the assessee on similar international transactions. The comparison should be between the net margins on transaction basis and not at enterprise level;
- (ii) Under section 92CA(3), the TPO is entitled to consider material in public domain which, though not available to the assessee at the time of the TP study, is relevant for the financial year;
- (iii) Ordinarily only the data pertaining to the financial year of the transaction can be considered. The proviso to Rule 10B(4) which permits the use of data relating to other than the financial year in which the international transaction has been entered into; being not more than two years prior to such financial year does not mean that one can insist on the use of multi-year data but it has a limited role only when the data of earlier years reveal facts which could have influenced on determination of the TP in relation to the transaction being compared. As the assessee has not made out a case that taking the data for only the current financial year will not present the correct and fair financial result of the comparables, the claim for multi-year data cannot be entertained;
- (iv) While in principle, comparables having an abnormal difference of turnover and distorted operating profits have to be excluded for determining the ALP, the claim that as the assessee revenue is about ` 20 crores, comparables having more than 50 crores and less than 5 crores of turnover should be excluded is not acceptable because no specific fact has been brought on record to show that due to the difference in turnover the comparables become non-comparables. It is accepted economic principle and commercial practice that in highly competitive market condition, one can survive and sustain only by keeping low margin but high turnover. Thus, high turnover and low margin are necessity of the highly competitive market to survive. Similarly, low turnover does not necessarily mean high margin in competitive market condition. Therefore, unless and until it is brought on record that the turnover of such comparables has undue influence on

the margins, it is not the general rule to exclude the same that too when the comparables are selected by the assessee itself;

- (v) The argument that an adjustment should be made for difference in function and risk level is not acceptable because the assessee has not brought on record how such functional difference and risk has influenced the result of the comparables with quantified data. Further, the +/-5% adjustment as the 2nd Proviso to section 92C is intended to adjust for such differences;
- (vi) The department's argument that the amendment by FA 2009 w.e.f. 1.10.2009 to the 2nd Proviso to section 92C with regard to the +/-5% variation from the arithmetic mean of the ALP is clarificatory and procedural and so retrospective is not correct. (A. Y. 2006-07).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Principles on use of multi-year data, adjustment to operating profits & +/- 5% adjustment**

- (i) The rejection of comparables on the ground of non-availability of current year's financial data is proper because under Rule 10B(4), only the current year's financial data is relevant for determination of ALP except where it is shown that the data of the earlier two years reveals facts which could have an influence on the determination of the transfer price;
- (ii) A selected comparable should be functionally comparable. A company which is majorly dealing in other segments cannot be accepted as functionally comparable;
- (iii) There is no principle of law that if only one comparable remains, the entire exercise would fail;
- (iv) The argument that expenses incurred prior to the commencement of manufacturing activity hence should be excluded from operating expenses under Rule 10B(1)(e)(i) is not acceptable because operational expenses is that which is incurred to earn that income. Expenses with nexus with revenue have to be considered as operational expenses and cannot be excluded only on the ground that the date of occurrence of the revenue is later and expenses have been incurred prior to that;
- (v) The assessee's argument that the margins have to be recomputed after claiming adjustment of capacity utilization is not acceptable. Under the TNMM, the net profit margin actually realized has to be considered and there is no room for any assumption for taking the profit margin. It is not permissible to deviate from the book results on the ground of capacity utilization. Under Rule 10B(3)(ii), there cannot be any deviation in the net profit shown in the books of account and the adjustment, if any, can be made to the same to eliminate the material affects to such differences to the extent of these adjustments are reasonably accurate. As no credible and accurate information with regard to capacity utilization was furnished, adjustment was not allowable;

(vi) The Proviso to s. 92C which gives the assessee the option to adjust the ALP by +/- 5% is applicable only where more than one price is determined by the most appropriate method. In a case where only one price is determined by the most appropriate method, the benefit of +/- 5% is not available to the assessee. (A. Y. 2006-07).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Loss/High – Profit cost need not per se be excluded**

The assessee rendered three services to its AE and while it received a mark-up for "application of technical development services" and "promoting the licensing of technology", it did not receive any mark-up for "application research". The argument that the three activities should be aggregated to determine the ALP is not acceptable because the entire benefit of the "application research" was retained by the AE and not shared with the assessee and so there was no justification for not compensating the assessee;

While in principle, it is correct that if loss making units are excluded, abnormal profit making units should also be excluded, on facts, the TPO had rightly rejected the loss making companies as not being comparable. In principle, neither loss making units nor high profit making units can be eliminated from the comparables unless, there are specific reasons for eliminating the same which is other than the general reason that a comparable has incurred loss or has made abnormal profits. The Hon'ble Tribunal held that, where there was shortage of price in respect of transactions entered with AE vis-à-vis NAE the Assessing Officer was right in rejecting the contention that price need not be disturbed as one declared by assessee was less than 5% variation in transaction with AE and NAE relying on CBDT circular No.12 dated 23/8/2011. The Tribunal further observed that Proviso, for which Circular No. 12 was issued had never come into operation and hence, question of administration of said proviso to section 92C(2) did not arise at all. Subsequent amendment brought in Finance Act, 2002, said circular had become otiose therefore the assessee could not place reliance on circular No. 12 and for relevant year under consideration only proviso to section 92C(2) as amended by Finance Act, 2002 was applicable. Since in the instant case, only one price had been determined under "most appropriate method" assessee was not entitled to concession, as prescribed in proviso to section 92C(2), hence, the order of Assessing Officer was confirmed. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Important principles on comparability &  $\pm 5\%$  adjustment stated**

- (i) The expression "shall" in Rule 10B(4) makes it clear that it is mandatory to use the current year data first and if any circumstances reveal an influence on the determination of ALP in relation to the transaction being compared than other data for period not more than two years prior to such financial year may be used. If the current year's data of comparables is not available at the time of filing the ROI a fresh search of comparables during the transfer pricing proceedings is permissible;
- (ii) The  $\pm 5\%$  tolerance band in section 92C is not a standard deduction. If the arithmetic mean falls within the tolerance band, then there should not be any ALP adjustment. If it exceeds the said tolerance band, ALP adjustment is not required to be computed after allowing the deduction at 5%. That means, actual working is to be taken for determining the ALP without giving deduction of 5%;

- (iii) The transfer pricing rules apply when one of the parties to the transaction is a non-resident, even if the transaction takes place within India. There is no need to find out the legislative intent behind the transfer pricing provision when the provisions were unambiguous. The existence of actual cross border transactions or motive to shift profits outside India or to evade taxes is not a pre-condition for transfer pricing provisions to apply. (A. Y. 2004-05)

*Dy. CIT v. Deloitte Consulting India Pvt. Ltd. (2011) 61 DTR 101 / (2012) 145 TTJ 589 (Hyd.)(Trib.)*

**S. 92C : Avoidance of tax – Transfer pricing – Arms’ length price – International transaction – Disallowance of costs on ground that AE also benefited not permissible**

- (i) A continuing debit balance per se, in the account of the associated enterprises, does not amount to an international transaction under section 92B in respect of which ALP adjustments can be made. It is a result of international transaction. The factum of payment has to be considered vis-à-vis terms of payment set out in the transaction arrangement, and not in isolation with the commercial terms on which transaction in respect of which payment is delayed. (Nimbus Communications followed);
- (ii) Under section 92B(1), the apportionment of cost is permissible only where there exists a “mutual agreement or arrangement” between two or more Associated Enterprises for apportionment of cost incurred in connection with a benefit, service or facility provided to any one or more of such Enterprises. In the absence of such an agreement to share the costs incurred on the McKinsey study, the costs cannot be apportioned. The bare allegation that the AE’s had received “specific and identifiable benefits” is not sufficient to justify apportionment. Further, even assuming that the AEs were liable to compensate the assessee, the TPO ought to have determined the ALP of such “international transaction” after taking into consideration all the rights obtained and obligations incurred by the two entities, including the advantages obtained by the AEs. He ought to have identified comparables and recorded a finding that the consultancy charges were higher than what a similarly situated and comparable independent domestic entity would have incurred. **S. 92C : Avoidance of tax – Transfer pricing – Arms’ length price – International transaction – CBDT’s view that +/-5% variation amendment applies to pending proceedings incorrect**

In respect of A.Y. 2006-07, the assessee entered into international transaction with its associate enterprises for a sum of ` 14.33 crores. The TPO applied the TNMM and determined the ALP at ` 15.08 crores and made an adjustment of ` 75 lakhs. The assessee claimed that as the said adjustment was within +/-5% of the ALP, no adjustment could be made under the proviso to section 92C(2) as it stood pre-

amendment by the F (No. 2) Act, 2009. The Department relied on Circular No. F. 142/13/2010-SO (TPL) dated 30.9.2010 (Corrigendum) where the view was expressed that as the amendment came into effect from 1.10.2009, it would apply in relation to all cases in which proceedings are pending before the Transfer Pricing Officer on or after such date. HELD disagreeing with the Department's contention:

While the Finance (No.2) Act, 2009 provides that the substituted Proviso shall come into effect on 1.10.2009 and applies in respect of AY 2009-10 & subsequent years, the Explanatory Notes to the Finance (No.2) Act, 2009 issued vide Circular No.5/2010 dated 3.6.2010 incorrectly states that the amendment comes into effect on 1.4.2009. In the Corrigendum, it is stated that the amendment shall apply to proceedings pending before the TPO on or after 1.10.2009. It is difficult to accept the argument of the Department that retrospective or prospective applicability of a provision should be decided in the manner explained by the CBDT. A procedural provision resulting in creating a new disability or which imposes a new duty in respect of transactions already completed cannot be applied retrospectively. As the amended Proviso brings about a substantial change in the relief available to an assessee, it cannot be treated as being retrospective in nature. *Kuber Tobacco Products (P) Ltd. v. Dy. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Despite FAR matching, Loss Co. to be excluded**

From the list of comparables provided by the assessee (after excluding persistent loss-making companies), the TPO rejected some other loss-making companies & determined the ALP applying the TNMM and made an adjustment of ` 2.28 crores. The Tribunal dismissing the appeal held that :

Merely because a company is showing losses, it does not lose its status of comparable if the other criteria depict its status as a comparable because the declaration of loss is an incident of business which is at par with profit. The FAR Analysis of a company indicated the avowed objective of the company and the tools that it sought to employ to achieve that objective but it was the financial result which decided whether that company has been successfully in achieving the objective or not. The TPO held that if the assessee's contention based on FAR analysis only is accepted then the process of choosing comparable will not proceed beyond the matching of FAR. All types of other tests i.e. data base screening, quality and quantitative screening or use of diagnostic with ratios will be rendered meaningless and unnecessary. Comparability has been taken into consideration by the assessee on the basis of FAR analysis and "other aspects" have not been considered. TPO had looked into "other aspects" also. (A.Y. 2002-03)

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – "Cost Contribution Agreements" – Commercial wisdom not to be questioned**

The assessee entered into a 'cost contribution agreement' with its parent company pursuant to which it paid a sum of ` 10.55 crores as its share of the costs. The TPO, Assessing Officer & DRP disallowed the expenditure. On appeal by the assessee, the Tribunal held that (i) The TPO was not entitled to determine the ALP under the cost contribution agreement at "Nil" on the basis that the assessee did not need the services at all. How an assessee conducts his business is entirely his prerogative and it is not for the revenue authorities to decide what is necessary for an assessee and what is not. The TPO went beyond his powers in questioning the commercial wisdom of the assessee's decision to take benefit of its parent company's expertise. Further, the TPO's argument that the assessee did not benefit from the services is irrelevant because whether there is benefit or not has no bearing on the ALP of the services. The fact that similar services may have been granted in the past on gratuitous basis

is also irrelevant in determining the ALP. The argument that no evidence of services having been rendered was produced is not acceptable because the assessee did produce voluminous evidence before the DRP which was not dealt with. The DRP ought to have dealt with the material and given reasons. Matter remanded to the Assessing Officer to determine actual rendering of services (*Vodafone Essar Ltd. v DRP 240 CTR 263 (Delhi)* followed);

- (ii) A cost contribution arrangement has to be consistent with the arm's length principle. The assessee's share of overall contribution to costs must be consistent with the benefits expected to be received, as an independent enterprise would have assigned to the contribution in hypothetically similar situation.
- (iii) The disallowance of payment under the 'cost contribution agreement' under section 37(1) & 40A(2) is not justified because the payment did not involve mark-up and was at arms length price. The services were for furtherance of the assessee's business interests;
- (iv) The disallowance of payment under section 40(a)(i) for want of TDS is not justified because the payment was not taxable in the AE's hands under Article 5 & 12 of the India-USA DTAA as the AE did not have a PE and the services did not constitute "fees for included services". (*GE India Technology Centre 327 ITR 456 (SC)* followed);
- (v) The TPO's argument that in charging for the services rendered to the AE, a 10% discount could not be given is not acceptable. Discount is a normal occurrence even in independent business situations. The material factor is whether the 10% discount is an arm's length discount and there is nothing on record to suggest that it is not so. (*A. Y. 2006-07*)

### **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Sale of IPRs – Important Principles of Law Explained**

There is nothing in section 92CA that requires the Assessing Officer to first form a "considered opinion" before making a reference to the TPO. It is sufficient if he forms a prima facie opinion that it is necessary and expedient to make such a reference. The making of the reference is a step in the collection of material for making the assessment and does not visit the assessee with civil consequences. There is a safeguard of seeking prior approval of the CIT. Moreover, by virtue of CBDT's Instruction No.3 of 2003 dated 20.5.2003 it is mandatory for the Assessing Officer to refer cases with aggregate value of international transactions more than ` 5 crores to the TPO.

The argument that the "Excess Earning Method" adopted by the TPO is not a prescribed method is not acceptable. A sale of IPR is not a routine transaction involving regular purchase and sale. There are no comparables available. The "Excess Earning Method" is an established method of valuation which is upheld by the U.S. Courts in the context of software products. The "Excess Earning Method" method

supplements the CUP method and is used to arrive at the CUP price i.e. the price at which the assessee would have sold in an uncontrolled condition. (A. Y. 2004-05)

### **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Principles of "Comparable Uncontrolled Transaction" explained**

Under Rule 10B(1)(e)(ii), "the net profit margin realized by the enterprise or by an unrelated enterprise from a comparable uncontrolled transaction or a number of such transaction is computed having regard to the same base. The term "uncontrolled transaction" is defined in Rule 10A(a) to mean "a transaction between enterprises other than associate enterprises, whether resident or non-resident". The result is that in applying the TNMM, the net profit margin realized from a comparable uncontrolled transaction is to be taken into consideration. The conditions require that a case should not only be comparable but also have uncontrolled transactions. These twin conditions need to be cumulatively satisfied. If a case is only comparable but has controlled transactions or vice-versa, it falls outside the ambit of the list of comparable cases;

The fact whether the comparable has a higher or lower profit rate has not been prescribed as a determinative factor to make a case incomparable. This is because profit is not a factor in itself, but a consequence of the effect of various factors. Only if the higher or lower profit rate results on account of the effect of factors given in Rule 10B(2) read with sub-rule (3), that such case shall merit omission. If however such extreme profit rate is achieved because of factors other than those given in the rule, then such case would continue to find its place in the list of comparables. (A. Y. 2004-05)

### **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Methods of computing ALP – Important Principles of Cost Plus, CUP & TNMM Explained**

The assessee, engaged in the business of manufacture and export of studded diamond and gold jewellery, imported & exported diamonds and exported jewellery to associated enterprises. For transfer pricing purposes, the ALP of the imported & exported diamonds was evaluated using the "Comparable Uncontrolled Price" (CUP) method while the exports of jewellery was evaluated using the "Cost Plus Method" (CPM). The TPO & Assessing Officer rejected both methods on the ground that adequate material to support it was not available and instead adopted the TNMM and made an adjustment. On appeal, the CIT(A) upheld the adoption of CPM on the imports & exports of diamonds on the ground that total cost details were maintained and the average margin earned from AE transactions was higher than that earned

from non AE transactions. However, he did not deal with the ALV on export of jewellery. On appeal by the department, HELD reversing the CIT(A):

- (i) As regards the CPM, it had not been correctly applied. The application of CPM provides for (a) ascertaining the direct and indirect costs of property transferred, or services rendered, to the AE; (b) ascertaining the normal mark up of profit over aggregate of costs in respect of similar property or services to unrelated enterprises and (c) adjusting the normal mark up for differences, if any, in the material factors such as risk profile, credit period etc. While the benchmark gross profit can be set by taking into account several transactions with unrelated enterprise on a 'global basis', the benchmark cannot be applied on a global basis but has to be on a transaction basis. Eg. if the benchmark GP is 20% and the assessee charges a mark-up of 2% in one transaction with AE and 38% in another transaction with the AE, both transactions, will meet the ALP test resulting in an incongruity. On facts, while the normal mark up has been computed at 16.31%, and the average of mark up on sales to AEs has been taken at 17.08% and all AE transactions taken to be at ALP, there are individual instances which are less than the benchmark. This is not the correct way to apply the CPM. Also, the costs of inputs have not been verified and it is not shown that the terms of sale to the AEs and all other relevant factors are materially similar to the transactions with independent enterprises. Also, the CPM has been applied by comparing gross profit on sales, whereas the method requires comparison of mark up on costs on transactions with AEs vis-à-vis mark up on costs on transactions with non AEs (matter remanded to CIT (A) for de novo consideration);
- (ii) As regards the CUP for import & export of diamonds (which was not decided by the CIT (A)), the assessee ought to have produced evidence to show that the transactions are at prevailing market prices;
- (iii) As regards the TNMM, International transactions with AEs have three significant areas of impact on the overall profitability i.e. sales of finished goods to AEs, sales of raw materials to AEs and purchase of raw materials of AEs), and if the ALP cannot be reasonably determined by CUP or any other direct method (i.e. CPM and RPM) in respect of even one of these areas, the application of TNMM or other indirect method ( i.e. profit split method) is inevitable. On a conceptual note, when ALP of the transactions with AEs cannot be reasonably ascertained, the profit earned by the assessee entering into these transactions is to be estimated, and that is precisely what TNMM does. When TNMM is applied in the context of sales of finished goods to AEs, it is this figure which is taken as variable figure and it bears the impact of higher margins, and when TNMM is applied in the context of purchases of raw materials from AEs, it is the figure of purchases of raw material from AEs which is taken as variable figure and it bears the impact of higher margins. Beyond that, the cause of invoking TNMM does not make much material difference (point whether TNMM has to be applied to the transactions and not on overall profits left open);
- (iv) The argument, relying on *Dy. CIT v. Indo American Jewellery Ltd. (2010) 41 SOT 1 (Mum.)(Trib.)*, that no ALP adjustment can be made as the assessee enjoys

s. 10A tax benefits and has no "motive" to avoid tax is not acceptable because those observations are "obiter dicta" without binding force and in view of Aztech Software 107 ITD SB 141 where it was held that tax avoidance motives need not be shown before invoking transfer pricing provisions. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Data – Selection of comparable – +/-5% Adjustments**

The expression "shall" has been used in Rule 10B(4) which makes it abundantly clear that only current year data of an uncontrolled transaction is to be used for the purpose of comparability while examining the international transactions with AEs, unless the case is covered by the proviso i.e. if the data of preceding two years reveals facts which could have an influence on the determination of transfer price. Assessee company being engaged in producing semiconductor integrated circuits is a complex product requiring skilled workforce. TPO was justified in treating it as high end service provider for the purpose of selection of comparables. The fact that the assessee's role is only 2 to 3 percent of the overall operations performed by the group is not at all relevant for deciding whether it is high end performer or low end performer. Assessee having submitted a TP report every year by using different filters for selecting comparables are commensurate to the result declared by it. TPO was justified in rejecting the same and selecting new comparables by applying quantitative as well as qualitative filters. Tolerance band provided in the proviso to section 92C(2) is not to be construed as a standard deduction. If the arithmetic mean of comparables falls within range of said tolerance band, no adjustment is required, if it exceeds then the ultimate adjustment is not required to be computed after reducing the arithmetic mean by 5 percent. As per agreement between assessee and "KII" assessee was to receive service charges as per specified direct cost plus mark up of 80 percent. Assessing Officer took the view that said method of determining ALP was not reliable and thus he proposed to determine ALP under section 92C(3). Assessing Officer issued the notice to assessee asking to explain as to why net margin of 20 percent should not be taken which was prevalent profit in said line of business. However subsequent to issue of notice, the Assessing Officer himself gathered data in respect of profitability of some companies engaged in providing software services and determined ALP on basis of cost plus mark up of 80 percent. In appeal CIT(A) called for remand report in which Assessing Officer admitted that business of three companies was different. CIT(A)

deleted the addition. The Tribunal held that the Assessing Officer had relied upon uncomparable the CIT(A) was justified in deleting the addition. (A. Ys. 2002-03 and 2003-04).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Most appropriate method – CUP – TNMM**

Simply because the comparable transactions are available only in respect of 9 products, it does not mean that the CUP method is to be rejected. TPO was not justified in adopting CPM and in comparing the gross margin in export segment vis-à-vis gross margins in domestic segment of assessee without appreciating that the CUP or TNMM was the most proper method for determining the ALP. TPO is directed to accept claim of the assessee regarding the ALP based on TNMM which method adopted by assessee in the subsequent year and which has been accepted in the succeeding year. (A. Y. 2006-07).

Assessee is selling the manufactured products both in the domestic as well as in the foreign market. Assessee is exporting completely finished products in the same manufacturing unit with the same raw material with mostly unrelated cost base, therefore, the cost plus method is most appropriate method to determine the ALP. In respect of assessee's international transactions, internal cost plus method taking profit / direct cost of production as PLI was justified, giving due weightage to the relevant factors including small market and credit risk, Assessing Officer is directed to adopt 60 percent as profit margin mark-up on the direct cost. Regarding applicability of proviso to section 92(C)(2), when variation exceeds 5 percent of the ALP the assessee shall not get benefit. (A. Y. 2006-07).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Net margin – TNMM – Segmental financial – Bad debts – Foreign exchange fluctuations – Interest on foreign exchange loan – Corporate guarantee**

For computing the net margin of assessee only the cost related to the transactions with AEs has to be considered and accordingly, segmental financials are to be used for arriving at the net margin on international transactions. Bad debts which are not being relatable to the transactions with AEs have to be excluded. Foreign exchange loss should be considered while computing the net margin for the international

transactions. Rate of interest in respect of foreign currency loan in the international market is to be on LIBOR , matter was remitted to the Assessing Officer to verify the actual average LIBOR which prevailed in the financial year under consideration and adopt the same. Corporate guarantee provided by the assessee does not fall within the definition of international transaction, hence no adjustment is required in respect of corporate guarantee transaction, because corporate guarantee is incidental to assessee's business and there are no guidelines provided. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Comparables – If TPO does not give cogent reasons to reject a comparable, it must be presumed to be comparable & DR cannot argue to the contrary**

The assessee, a captive service provider rendering back office support services to its AEs, earned an adjusted Net Cost plus Margin of 7.90%. The assessee adopted TNMM and computed the mean of margins earned by the comparables at 7.62%. The TPO held that "No companies were identified as comparables" by the assessee and after selecting 12 companies as comparables, determined an arithmetic mean of 27.80% and made an adjustment of ₹ 10.49 crores. The CIT(A) deleted the addition. On appeal by the department, HELD dismissing the appeal:

- (i) The TPO was wrong in stating that the assessee has not provided any comparables. The initial prerogative of choosing comparable cases is always that of the assessee because it is the best judge to know the exact services rendered by it and finding the comparable cases from the data base. If the TPO wants to exclude any of such comparables, he has to justify the exclusion by adducing cogent reasons and cannot act on whims and fancies. If the TPO fails to show expressly as to how the cases are not comparable, a presumption has to be drawn that those cases are comparable;
- (ii) The department's argument that even if the TPO had not given reasons to exclude the assessee's comparables, the CIT(A) ought to have done so is not acceptable. Going by the presumption of acceptability of such cases, the appellate authority is under no duty to check whether the work was properly done by the Assessing

Officer / TPO to the prejudice of the assessee. The fact that the CIT(A) has the power to enhance does not mean that he has a duty to do so;

- (iii) The Dept. Representative, while arguing the appeal, cannot improve the order of the Assessing Officer / TPO by contending that the TPO was wrong in accepting a particular claim of the assessee. While the DR has the duty to defend the order of the TPO, he cannot find flaws in the order of the TPO in an attempt to show that the TPO failed to do what was required to be done by him. If the DR is allowed to fill in the gaps left by the TPO it would amount to conferring the jurisdiction of the CIT under section 263 to the DR. The DR cannot be allowed to take a stand contrary to the one taken by the TPO. Accordingly, the DR cannot be allowed to argue that certain cases included by the assessee in the list of comparables, were in fact not comparable, when the TPO failed to point out as to how such cases were distinguishable (*Mahindra & Mahindra Ltd. v. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – CUP method – TNM method [Rule 10B]**

Assessee was engaged in manufacturing and supply of additives. Raw materials and finished goods were purchased from foreign Associated Enterprise. Assessee computed arm's length value of purchase of raw materials by adopting CUP method. No proper reason could be found as to why TPO rejected method adopted by assessee and applied TNM method based on financial of a company IIP, however, from financial of IIP it was found that its sales were of ` 14 lakhs against sales of ` 120 Crores of assessee. Said IIP had not paid any excise duty and indirect taxes, but incurred only packaging cost in addition to cost of materials. IIP was not engaged in any major manufacturing activity nor had it a comparable turnover. As there were substantial differences in financial data of two companies which eroded degree of comparability between two. Tribunal held that TPO had not only wrongly adopted TNM method

without rejecting CUP method followed by assessee, but also made improper addition based on financial results of an uncomparable entity. As regards purchases from Associated enterprises the Tribunal held that assessee had committed fundamental mistakes in working out arm's length price based on resale price method and, therefore matter was set back to file of Assessing Officer. Since 70 percent of assessee's sales were out of purchases sourced from associate enterprises, working out gross profit margin internally, after excluding such transactions would be inappropriate due to negligible quantities of balance purchases and sales, hence, in such cases gross profit margin should be taken from comparable uncontrolled transactions entered in to by similarly placed concerns. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Ship management – Foreign principals – Comparables**

TPO after examining set of comparables given by assessee held that assessee had erred in including loss making entities in its comparables hence, rejected the comparables and made adjustments to ALP. In appeal Commissioner (Appeals) deleted the addition. On Appeal Tribunal held that assessee in its transfer pricing study analysis had given set of comparables relating to financial years 2000-01 and 2001-02 contending that data for financial year 2002-03 was not available at time TP report was compiled. Tribunal set aside the matter to the Assessing Officer for fresh adjudication with a direction to give sufficient opportunity to assessee to file fresh comparables of financial year 2002-03 so that proper ALP could be determined in accordance with law. **S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Royalty**

Assessee was engaged in business of manufacture of polystyrene and expandable polystyrene. It was wholly owned subsidiary of LG Chemicals India (P) Ltd. (Holding Company). Said holding company was 100 percent subsidiary of another company namely LG Chemicals Ltd. Korea. Assessee entered in to an "Trade mark sub-licence agreement" with its associated enterprise LG chemicals Ltd Korea as per which assessee was given non exclusive sub-licence for use "LG" trade marks for its business. The assessee had paid royalty for use of trade mark. On reference the TPO held that the transaction was a sham one and motive behind same was to shift profits of assessee company out of country. He determined the royalty as nil. Accordingly the assessing Officer disallowed entire payment of royalty. Dispute Resolution panel up held the view of TPO. The Tribunal held that company may use foreign brand / logo for not only increasing its market share, but also for maintaining its existing market share, it was to be held that there was a business necessity for assessee to make impugned royalty payment to its associated enterprise and, TPO/DRP wrongly

concluded that impugned royalty payment to its associated enterprise was a sham transaction. Accordingly the Tribunal set aside the order and directed the Assessing Officer to examine a fresh. (A. Y. 2006-07).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Tax haven – Comparison with domestic market**

Assessee was a manufacturer of fabrics. It exported fabrics to its Associated enterprise at Panama at rate of US\$ 1.16 per meter and same fabric was also sold in domestic market at rate of ₹ 72 (US \$ equivalent 1.515). Transfer pricing Officer adopted domestic price as ALP for export sale to Associated Enterprise. The assessee contended that while comparing the domestic price adjustments were required to be made like incentives on export, discount on sales promotion, advertisement expenses etc. The Tribunal held that the Transfer pricing Officer was error in not taking into consideration the above factor hence the method adopted by the Assessee has to be accepted. The Tribunal further held that the fact that the associated enterprise is located in tax heaven has no bearing in so far as method of application of ALP determination is concerned. (A. Y. 2002-03).

The assessee is doing business of manufacturing and trading of jewellery and precious and semi precious stones. The assessee applied TNMM to international transactions, where as Assessing Officer held that split method is applicable. While applying profit split method the Assessing Officer has taken value of one dollar at ₹ 78.44. He has not explained how he adopted the said value. The Tribunal held that TNMM is the most appropriate method and the Assessing Officer was not justified in making addition on profit split method. (A. Y. 2004-05).

**S. 92C : Avoidance of tax – Transfer pricing – Arms' length price – International transaction – Computation – Information – Scope, data and comparability [S. 133(6), Rule 19D(4)]**

In a transfer pricing matter, the Tribunal had to consider the following issues (i) whether transfer pricing adjustments have to be restricted to AE transactions only, (ii) whether a turnover filter can be applied and only companies with turnover within the range can be considered for comparison; (iii) whether the TPO is entitled to collect information under section 133(6) for determining the ALP or he is confined to data available in public domain on the specified date, (iv) Whether the +/- 5%

adjustment is a "standard deduction", (v) whether an adjustment to the ALP can be made for "low capacity utilization"? HELD by the Tribunal:

- (i) Under Chapter X, only international transactions between AEs are required to be computed having regard to the ALP. Accordingly, the transfer pricing adjustments have to be restricted to the AE transactions by adopting the operating revenue and operating costs of only those transactions;
- (ii) Though the Act & Rules does not provide for a turnover filter, there has to be an upper and lower limit because size does matter in business. A big company is in a position to bargain the price and attract more customers. It also has a broad base of skilled employees who are able to give better output. A small company may not have these benefits and the turnover would come down reducing profit margin. When are loss making companies are excluded from comparables, super-profit making companies should also be excluded. A reasonable classification of companies on the basis of net sales or turnover has to be made
- (iii) While Rule 10D(4) requires that the information should be "contemporaneous" and exist latest by the "specified date", there is no "cut-off date" upto which only the information available in public domain can be considered by the TPO. Even data that becomes available in the public domain after the specified date can be considered. If the TPO collects information under section 133(6), he is not required to inform the assessee about the process used by him nor is he required to furnish the entire information to the assessee. However, the assessee must be given proper hearing if any information is proposed to be used against it;
- (iv) The +/-5% adjustment is a "standard deduction" and not merely the range within which if the ALP falls that the ALP of the assessee is required to be accepted
- (v) All comparables have to be compared on similar standards and the assessee cannot be put in a disadvantageous position, when in the case of other companies adjustments for under utilization of manpower is given. The assessee should also be given adjustment for under utilization of its infrastructure. (A.Y. 2006-07)

### **S. 92C : Avoidance of tax – Transfer pricing – Arms' Length Price – TNMM**

It is not acceptable that for purpose of computation of ALP, the assessee has the unfettered discretion to adopt the TNMM and the TPO is not entitled to reject that

method without showing deficiencies / defects. Section 92C r.w. Rule 10C requires the “most appropriate” method to be chosen from amongst those specified. The exercise of selecting the “most appropriate” method implies that the appropriateness of method is to be ranked in some order. Accordingly, it is open to the TPO to reject the TNMM and adopt the CUP method on the basis that the latter is “most appropriate” on the facts of the case. (A.Ys. 2002-03 to 2004-05)

The Tribunal held that in absence of allegation that the agreement approved by regulatory authority is a sham, the tax authority cannot disregard the same. The assessee undertook international transactions with associated enterprises for export pulses. The Assessing Officer made a reference to TPO for determination of the ALP and concluded by adopting “CUP” method, that in six instances the price paid by the assessee was in excess of quotation in “Agriwatch” database. In appeal the CIT(A) accepted that in respect of the transaction where the variation between the price paid and the price given in “Agriwatch” was less than 5%, no adjustment could be made though he confirmed other additions. On cross appeal before the Tribunal it was held that transfer pricing benefit under section 92C +5 % variation is not available if only one price determined. (A.Y. 2003-04)

**S. 92C : Avoidance of tax – Transfer pricing – Arms’ Length Price – Interest on loan**

TPO in the instant case had not followed the mandate of the Act. No method has been specified. Under these circumstances, the adjustment made by the TPO under section 96A(3) could not be sustained. Even on merits assessee had not charged interest on fees receivable by it from WSN, where as it had charged interest on loan granted to NCWN. On facts charging of interest on loan granted is different from charging interest on bills raised for services rendered. Both are not comparable. Thus additions were deleted. (A.Y. 2003-04)

Assessee company having an AE in USA, entered into a product development services agreement and a professional services agreement, both separately, with its said AE. Assessing Officer made reference under section 92C to TPO. TPO has accepted prices in respect of transaction entered into between assessee and its AE as ALP compatible. However, TPO noticed that an amount of ` 5.52 crores belonging to assessee was outstanding for more than six months. She opined that by parking this huge amount at disposal of its AE, assessee was depriving funds otherwise available in its hands and adversely affecting its profitability. TPO has calculated interest on aforesaid amount and recommended Assessing Officer to add interest in assessee's taxable income. Assessing Officer made additions. Payment received by the assessee company from its AE / parent company was in the nature of reimbursement of incentives paid to the employees of the assessee and it did not have any element of income and therefore, no adjustment could be made in the computation of ALP by notionally imputing a mark up on that amount, more so when no such adjustment has been made in the earlier or subsequent years wherein also similar incentives were paid and the facts were identical. Assessee engaged in business of import of rough diamonds and selling same in local markets without value addition to goods, resale price method is most appropriate method for determining ALP with respect to AE transaction.

If comparables cited by assessee were not found appropriate, fresh comparables could be searched, but method adopted was not to be rejected. Matter was set aside to Assessing Officer for disposal afresh after finding appropriate comparable and adopting resale price method. (A. Y. 2004-05).

**S. 92CA : Avoidance of tax – Reference to Transfer Pricing Officer – Transfer pricing – CUP method will determine ALP of interest-free loan**

The assessee advanced ₹ 7.39 crores to its AE on interest-free terms. For transfer pricing purposes, it claimed that no external comparable uncontrolled price was available for benchmarking the transaction and so TNMM was applicable to determine the arm's length basis of the loan. Applying TNMM, the assessee claimed that the notional interest was factored in the software development income and no separate addition could be made. This was rejected by the TPO & CIT(A) on the ground that the giving of interest-free loans to the AE was an entirely separate transaction not in conjunction with the activity of software development and hence merited a separate analysis. On appeal by the assessee, HELD by the Tribunal:

The assessee was required to comply with the transfer pricing provisions of section 92 to 92F with respect to the transaction of interest-free loan to its subsidiary. The CUP method is the most appropriate method in order to ascertain the ALP of such international transaction by taking into account prices at which similar transactions with other unrelated parties have been entered into. For that purpose, an assessment of the credit quality of the borrower and estimation of a credit rating, evaluation of the terms of the loan e.g. period of loan, amount, currency, interest rate basis, and additional inputs such as convertibility and finally estimation of arm's length terms for the loan based upon the key comparability factors and internal and/or external comparable transactions are relevant. None of these inputs have anything to do with the costs; they only refer to prevailing prices in similar unrelated transactions instead of adopting the prices at which the transactions have been actually entered in such cases, the hypothetical arms length prices, at which these associated enterprises, but for their relationship, would have entered into the same transaction, are taken into account. Whether the funds are advanced out of interest bearing funds or interest free advances or are commercially expedient for the assessee or not, is wholly irrelevant in this context. As the transaction is of lending money, in foreign currency, to its foreign subsidiary, the comparable transaction should also be of foreign currency lending by unrelated parties. (A.Y. 2002-03)

### **S. 94 : Avoidance of tax – Transaction in securities – Tax free dividend – Loss on sale of units [S. 10(33)]**

Assessee had purchased certain units of UTI from P on 29-5-1989 at rate of ₹ 14.75 per unit, at the same time assessee entered in to an irrecoverable commitment to sell back those units to P at rate of ₹ 13 per unit on 31-7-1989. The assessee received dividend at the rate of 18 percent on those units. The assessee incurred loss. The assessing officer disallowed the loss holding that the same was predetermined. The High court held that even if it was assumed that transaction was a pre planned one, there was nothing to impeach genuineness of transaction and therefore, assessee was entitled to claim the loss on said transaction. ### **S. 94 : Avoidance of tax – Transaction in securities – Capital loss – Redemption of units**

When units have been redeemed by assessee, same would constitute transfer for the purpose of section 94(7) and short term capital loss to the extent of dividend is not allowable. CIT(A) was justified in applying the provisions of section 94(7) and setting off dividend income of ₹ 97,90,628 of A. Y. 2002-03 against the short term capital loss of ₹ 1,06,03,428 of the A. ### **S. 94 : Avoidance of tax – Transactions in securities – Conditions**

Entries and treatment in the assessee's books of account is not relevant. Loss on valuation has no place in section 94(7). Amendment in section 94(7), brought by the Finance Act, 2004 should be applied prospectively is not sustainable. (A. Y. 2005-06).

### **S. 94(3)(b) : Avoidance of tax – Transactions in securities – Not regular or recurrent**

The court held there had been no systematic efforts by the assessee to avoid the tax. It had been done only once. In the absence of any kind of regular transaction or recurrent transaction, the provisions of sub sections (1) and (2) of section 94 were

not attracted and whole transaction came within exemption under section 94 (3) (b).

**S. 94(7) : Avoidance of tax – Loss on sale of units of mutual funds – Dividend stripping – Tax planning – Colourable Device [S. 10(33), 14A]**

Assessee purchased units of a mutual fund on the record date, earned dividend, sold all the units ex-dividend on the next working day and claimed set off of loss incurred on the sale of units. Contention of the Revenue that the differential price of the units being the cost of dividend, is expenditure incurred for obtaining exempt income and it should be netted against the dividend income in terms of section 14A cannot be accepted. Mandate of section 14A is to curb the practice to claim deduction of expenses incurred in relation to exempt income against the taxable income while claiming exemption of such income. Words “expenditure incurred” in section 14A refers to expenditure on rent, taxes, salaries, interest, etc. in respect of which allowances are provided for. A payback does not constitute an “expenditure incurred” in terms of section 14A. For attracting section 14A, there has to be a proximate cause for disallowance which has its relationship with the tax exempt income. Payback or return of investment not being such proximate cause, section 14A is not applicable to the facts of the case. Fact that the assessee received tax-free dividend and made use of the provision of section 10(33) cannot be said to be “abuse of law”. Even assuming that the transaction was pre-planned, there is nothing to impeach the genuineness of the transaction. Hence, loss arising in such cases before the insertion of section 94(7) w.e.f. 1st April 2002, cannot be disallowed. However, after 1st April 2002, such loss can be ignored by the Assessing Officer to the extent of dividend received by the assessee in view of section 94(7). Losses over and above the amount of the dividend received are still allowable. Parliament has not treated the dividend stripping transaction as sham or bogus. It has not treated the entire loss as fictitious or only a fiscal loss. If the argument of the Department is to be accepted, it would mean that before 1st April 2002, the entire loss would be disallowed, but after that date a part of it is allowable under section 94(7), which cannot be object of section 94(7) as it is inserted to curb tax avoidance by certain types of transactions in securities.

A citizen is free to carry on its business within the four corners of the law. Mere tax planning, without any motive to evade taxes through colourable devices is not frowned upon. (A.Y. 2000-01 and 2001-02)

**S. 104 : Additional income tax – Undistributed Profits of certain Companies – Agricultural Land [S. 47(viii)]**

Since section 47(viii) specifically exempts any transfer of agricultural land in India effected before 1-3-1970 from the scope of section 45, compensation which became payable to the assessee as a result of acquisition of its agricultural land in 1962, was totally exempt from section 45, and therefore, could not form part of "gross income" or "distributable income" for purpose of section 104. The word "having regard to" used in section 104 do not restrict the consideration only to two matters indicated in

the section as it is impossible to arrive at a conclusion as to reasonableness by considering only two matters mentioned isolated from other relevant factors. Assessee sold certain share of "PLL" and received certain amount as sale consideration. Assessee claimed that said gains were not includible in his total income. Assessee has not paid Securities Transaction Tax (STT) on said shares. Assessing Officer has not allowed the exemption on the ground that the assessee has not paid STT on said shares and the Shares of PLL were not listed on any stock exchange on the date of sale. **S. 112 : Tax on long term capital gains – Non-residents – Sale of shares by Mauritian subsidiary of UK company – Tax residency certificate – Not taxable – Income deemed to accrue or arise in India – DTAA – India-Mauritius [Article 13.4, S. 9]**

The applicant held 50% shares in the capital of Ardex Endura (India) Pvt. Ltd. Indian Company is engaged in manufacturing of flooring adhesives. The applicant is proposing to sell its entire stake to another non-resident group company known as Ardex Beteiligungs – GmbH Germany at fair market value. The applicant seeks ruling mainly on following questions as to whether

- a) the capital gains arising on the proposed sale transaction would be chargeable to Income-tax in India in the hands of the Applicant, having regard to the provisions of paragraph 4 of Article 13 of the India-Mauritius Tax Treaty or whether the applicant can receive the sale proceeds without deduction of income tax at source?
- b) the Applicant would be required to file a return of income in India in respect of the proposed transfer of shares?

Revenue contended that the applicant is wholly owned subsidiary of UK company and it had no income of any nature during the current year or previous year and the only

asset was investment in the Indian company. The funds for purchase of the investments were received from holding company and also the decision regarding the sale of shares was taken by the holding company. Thus the veil should be pierced and India-UK treaty should be applied.

The applicant contended that the company was created in 1998 by a group other than Ardex group. Ardex group was in the business of manufacturing of construction material and it acquired Mauritian company with a view to expand its business. The applicant was a tax resident of Mauritius and the Tax Residency Certificate has to be accepted view of the decision in *Azadi Bachao Andolan* (263 ITR 706).

The authority ruled that the arrangement has not come into existence all of a sudden. It is not clear how far the theory of beneficial ownership could be invoked. Also it was held in *Azadi Bachao Andolan* that treaty-shopping itself is not taboo. As the shares were held for a considerable length of time and sale is effected at Market value, it was held that the capital gains on the proposed sale of shares by the applicant is not chargeable to tax in India. However since the shares to be transferred are the shares of an Indian company, we rule that the applicant is bound to file a return of income in India. Ref: *VNU International BV*, AAR 871 of 2010.

#### **S. 112 : Tax on long term capital gains – Relief of lower tax rate cannot be denied to non-residents despite non-applicability of 2nd proviso to S. 48 [S. 48, 55(2)]**

Authority followed the decision in case of *Timken France, SAS* and held that the phrase in section 112(1) “before giving effect to the provisions of second proviso to section 48” means before giving effect to the 2nd proviso wherever it is applicable, but, the non-applicability of the 2nd proviso will not preclude the applicant to avail the relief of lower rate of tax; hence applicable tax rate would be 10% - Further, in the normal course, cost of acquisition of bonus shares allotted without consideration shall be taken as ‘nil’ but in the case of a capital asset answering the description given in sub-clauses (i) and (ii) of clause (b), the rules of computation laid down by those sub-clauses of clause (b) would prevail over the rules in the preceding sub-

clause (aa). And hence cost of bonus shares acquired prior to 01-04-1981 should be fair market value as on 01-04-1981 and not 'nil'.

**S. 112 : Tax on long term capital gains – Rate of tax – proviso to S. 48: Benefit of lower tax rate of 10% available for both on original and bonus shares [S. 48]**

Non-resident applicant sells entire holding of original and bonus shares in Indian listed company to the Indian promoters giving rise to long-term capital gains - AAR held that the phrase in section 112(1) "before giving effect to the provisions of second proviso to section 48" means before giving effect to the 2nd proviso wherever it is applicable, but, the non-applicability of the 2nd proviso will not preclude the applicant to avail the relief of lower rate of tax. Hence applicable tax rate would be 10%. It further ruled that bonus shares just as original shares are listed securities and the proviso to section 112(1) does not make any distinction between original and bonus shares; hence same interpretation will hold good in the case of bonus shares as well. However, the cost of acquisition of the asset (bonus shares) shall be taken as Nil as per sub-clause (iiia) of clause (aa) of section 55(2).

##### **S. 113 : Tax – Block assessment – Search cases – Surcharge – Referred to larger bench [S. 132, 158BC]**

In relation to block assessment in search cases, a proviso was added with effect from June 1, 2002 to section 113 of the Income Tax Act, 1961, to the effect that the tax shall be increased by a surcharge. On a claim by the Department that proviso was retrospective, the Supreme Court referred the matter to a larger Bench.

##### **S. 113 : Tax – Block assessment – Search cases – Surcharge [S. 158BB]**

The Supreme Court held that surcharge is leviable even in cases of block assessments under section 158BB. It further held that the proviso to section 113 inserted by the Finance Act 2002, is clarificatory in nature and therefore would not change the position prior to the insertion of the proviso.

##### **S. 113 : Tax – Block assessment – Search cases – Rate of tax – Surcharge**

Levy of surcharge in the block assessment of those assessee when search was carried out prior to 1-6-2002 is not justified as the amendment to section 113 was carried out through Finance Act, 2002 came into effect from 1-6-2002 only.

Nature of proviso to section 113 is not clarificatory or curative since it increases the tax liability of the assessee and hence cannot be applied retrospectively.

**S. 113 : Tax – Block assessment – Search cases – Rate of tax – Surcharge**

Section 113 being a specific provision applicable to undisclosed income computed under Chapter XIV-B, capital gain included in the undisclosed income is subject to tax @ 60 per cent and not @ 20 per cent. (A.Ys. 1986-87 to 1996-97)

Levy of surcharge of 17 per cent by Finance Act, 2001 under section 113 over and above 60 per cent on undisclosed income is not invalid as Parliament has power to prescribe rate of income-tax under article 270 of Constitution of India and also to prescribe rate for purpose of surcharge over and above rate of income-tax, under article 271 of Constitution; merely because there is no reference about Central Act in section 113, it cannot be said that Parliament cannot levy surcharge in respect of tax on undisclosed income by separate enactment. ### **Section 115AD : Tax on income of Foreign Institutional Investors from securities or capital gains arising from their transfer**

#### **S. 115AD : Capital gains – Foreign Institutional Investors – Business income – Short term capital loss from exchange traded derivative transactions – Investment in securities [S. 43(5)]**

Foreign institutional investors (FIIs) can only make investment in securities in country's capital market and they cannot undertake trade in them. Income arising to a FII from transfer of securities falls within ambit of section 115AD, as per which income arising from transfer of such securities is held to be falling under head 'capital gains', it cannot be considered as 'business income' whether speculative or non-speculative. Section 43(5) has no application to FIIs in respect of securities as defined in Explanation to section 115AD, income from sale of securities is to be considered as short term or long term capital gains. In the facts of the case, Income from derivative transactions resulting into loss of ₹ 12.27 crores was to be considered as short term capital loss on the sale of securities which is eligible for adjustment against short term capital gains arising from the sale of shares and not speculation loss. #### **S. 115AD : Capital gains – Foreign Institutional Investors – Securities – Special provision overrides general provision – No option with FII of opt out of S. 115AD – India-UK DTAA [S. 48, Article 26]**

Authority observed that S. 115AD is a special provision in Chapter XII which deals with "determination of tax in certain special cases" and hence will override the general provisions. There are several decisions of the Hon'ble Supreme Court laying down the law on this aspect. Further, there is no provision in the scheme of 115AD that is available to FIIs to opt out of the same. For the reason that the applicant suffered capital loss in an assessment year, it cannot claim the option to opt out of said section. It is well settled position in law that income includes both profit and loss. In any event said section does not cause any discrimination to a non-citizen as it is more beneficial and hence article 26 of the Treaty is not attracted - Hence held that there is no option available to FIIs to opt out of its operation

AAR ruled that income from NRO deposits will get concessional treatment of tax @ 20% + SC + cess as NRO account with a bank which is a public company would be foreign exchange asset and income arising from it would be investment income as defined in S. 115C; also ruled that non-resident has the option for continued treatment of his income from specified asset for concessional rate of tax specified under section 115E until transfer or conversion of asset into money; further, on return to India NRI can avail the benefits of Chapter XIIA so long as his bank account is treated as NRO account by RBI. #### **S. 115F : Non-residents – Foreign exchange assets – Capital gains – Bonus shares eligible for section 115F relief if original shares acquired in foreign currency**

The assessee, a NRI, purchased shares in foreign currency. On the sale of bonus shares, the assessee claimed relief under section 115F. The department's objection that the assessee has received bonus shares without investing any convertible foreign exchange is not correct because as the original shares were acquired by investing convertible foreign exchange, it cannot be said that the bonus shares were acquired without taking into consideration the original shares. In accordance with Dalmia Investment 52 ITR 567 (SC) the cost of acquisition of the original shares is closely interlinked with the bonus shares. Once bonus shares are issued, the averaging out formula has to be followed with regard to all shares. Accordingly, bonus shares are covered by section 115C(b) and eligible for benefit under section 115F. (A. Y. 2005-06)

For the Asst. Year 1988-89, there was no provision in section 115J to compute book profit as per account prepared in a particular manner and therefore, it was open to

assessee to compute book profit either on basis of profit and loss account prepared under provisions of part II and part III of schedule VI of Companies Act, or as per annual accounts placed before AGM. However, after insertion of sub-section (1A) in section 115J from assessment year 1990-91, accounts for the purpose of book profit have to be prepared as per Part II and Part III of Schedule VI of Companies Act. In case when the book profit not increased on account of creation of reserve, the book profit can also not be decreased on account of transfer from such a reserve to the P&L a/c unless the entire reserve created during the year is added to book profit. On the facts it was found that the reserve created by assessee on revaluation of fixed assets without routing it through P&L a/c and therefore, it was held that the transfer from the said reserve of certain amount and credit to P&L a/c cannot be excluded from computation of book profit. Accordingly, the same is not covered by clause (b) or clause (c) of the Explanation to s. 115J(1), and therefore, it was not to be added to the net profit to arrive at the book profit for the purpose of s. 115J. **Section 115JA : Deemed income relating to certain companies**

**S. 115JA : Company – Book profit – Deemed income – Interest is payable on failure to pay advance tax in respect of tax payable under section 115JA [S. 115JB, 234B]**

Section 115J / 115JA are special provisions. For purposes of advance tax the evaluation of current income and the determination of the assessed income had to be made in terms of the statutory scheme comprising section 115J/115JA. Hence, levying of interest was inescapable. The assessee was bound to pay advance tax under the scheme of the Act. Section 234B is clear that it applies to all companies. There is no exclusion of section 115J/115JA in the levy of interest under section 234B (*Kwality Biscuits Ltd. v CIT 243 ITR 519 (Kar.) (SLP dismissed in 284 ITR 434)* considered

**S. 115JA : Company – Book profit – Deemed income – Credit to be set off before computing Advance-tax shortfall and liability for section 234B, 234C – Interest**

The scheme of section 115JA(1) and 115JAA shows that right to set-off the tax credit follows as a matter of course once the conditions of section 115JAA are fulfilled. The grant of credit is not dependent upon determination by the Assessing Officer except that the ultimate amount of tax credit to be allowed depends upon the determination of total income for the first assessment year. Thus, the assessee is entitled to take into account the set off while estimating its liability to pay advance tax. The amendment to Explanation 1 to section 234B by FA 2006 w.e.f. 1.4.2007 to provide that MAT credit under section 115JAA shall be excluded while calculating advance-tax liability is to remove the immense hardship that would result if this was not done;

The fact that the Form & Rules provided for set off of MAT credit balance after computation of interest under section 234B is irrelevant because it is directly contrary to a plain reading of section 115JAA(4). (A. Ys. 1998-99 to 2000-2001).

**S. 115JA : Company – Book profit – Deemed income – Provision for doubtful debts**

Provision for bad and doubtful debts being a provision made to cover up the probable diminution in the value of asset i.e. debt receivable by the assessee, it cannot be said to be a provision for liability and therefore, item (c) of the explanation to section 115JA is not attracted and the provision for doubtful debts can not be added back under Cl. (c). Thus it can be concluded that provision for bad and doubtful debt can be added back to the net profit only if item (c) of the explanation to section 115JA is attracted. (A.Y. 1997-98)

**S. 115JA : Company – Book profit – Deemed income – Export – Set off of carried forward – Business loss and unabsorbed business loss – Negative income [S. 80AB, 80AB(5), 80HHC, 115JB]**

The Court held that the assessee is entitled to deduction under section 80HHC computed in accordance with sub-section (3)(3A) of 80HHC because assessment under section 115JB is only an alternative scheme of assessment and what is clear from clause (iv) of the Explanation there to is that even in the alternative scheme of assessment under section 115JB, the assessee is entitled to deduction of export profit under section 80HHC. In other words, the export profit eligible for deduction under section 80HHC is allowable under both schemes of assessment. The restriction contained in section 80AB or section 80B(5) cannot be applied in as much as carried forward business loss or depreciation should not be first set off leaving the gross total income at nil, which would disentitle the assessee for deduction under other provisions of Chapter VIA-C, which includes section 80HHC also. There is no provision in section 80HHC to determine the export profit with reference the profit and loss account maintained under companies Act, Therefore, the assessee would be entitled to deduction of export profit under section 80HHC and the relief is to be granted in terms of sub-section (3) and 3(A) of that section.

**S. 115JA : Company – Book profit – Deemed income – Carry forward and set off losses under the Act – More than 8 years [S. 70 to 79]**

Assessee company's total income was less than 30 per cent of book profit. For purpose of MAT provision, assessee bifurcated its accumulated loss shown in books of account in to business loss and depreciation. As depreciation was less than business loss, he deducted same from profit. Assessing officer deducted business loss from same profits earned. While doing so, applying the provisions of Income-tax Act in respect of carry forward of business loss, he also ignored losses of years which were more than 8 years old as end of year. The Tribunal held that loss incurred in a year cannot be ignored. i.e. it is not possible to omit past; loss from books of account under double entry system of accounting. The Tribunal held that principle prescribed in sections 70 to 79 is not applicable for computing accumulated losses shown in books of account following Accounting principles. There is drastic variation between Income-tax provisions and accounting provisions in respect of carry forward and set off losses. (A. Y. 2000-01).

**S. 115JA : Company – Book profit – Deemed income – Provision for doubtful debt**

(i) For the purpose of section 115JA, addition to book profit, i.e. computed as per Parts II and III of Schedule VI to Companies Act, 1956, can be made only if it is permissible by clauses (a) to (f) of Explanation to section 115JA.

- (ii) Merely because deduction of provision for bad and doubtful debt is not allowable in computing total income there would be no ground for including same in book profit as per section 115JA.
- (iii) Adjustments to be made to net profit disclosed in profit and loss account for purpose of section 349 of Companies Act are quite different than adjustment required to be made under Explanation to section 115JA. However, it is not necessary that same is to be included in book profit for purpose of section 115JA merely because some item debited to profit and loss account is required to be added to net profit for purpose of computing director's remuneration under section 349 of Companies Act.
- (iv) Provision for bad and doubtful debt is not a provision for liability but it is a provision for diminution in value of assets and, therefore, clause (c) of Explanation to section 115JA would not be applicable in respect of provision for bad and doubtful debts.
- (v) Provision for bad and doubtful debt, if not proved to be excessive or unreasonable, cannot be considered to be reserve falling under clause (b) of Explanation to section 115JA. Therefore, on facts, provision for bad and doubtful debts would not fall within purview of adjustments under section 115JA.
- (vi) Provision for wealth-tax does not fall under any of items of Explanation to section 115JA and, therefore, no adjustment could be made in respect of same while computing book profits under section 115JA. (A.Y. 1997-98)

#### **S. 115JA : Company – Book profit – Deemed income – Interest**

Adjustment for income-tax (interest) payable. IT Act maintains a distinction between "income-tax" and "interest" and, therefore, "interest on income-tax" clearly falls outside the scope of the term "income-tax" as used in cl. (a) Explanation to sub-s. (2) of s. 115JA. (A.Y. 1999-2000)

**S. 115JA : Company – Book profit – Deemed income – Computation – Long term capital gain**

Where assessee's income was computed under section 115JA and tax was levied at 40 per cent, assessee's claim that since its entire book profits consisted of long-term capital gain, such income should be taxed at 20 per cent as provided in section 112, had no merit. (A.Y. 1997-98)

**S. 115JA : Company – Book profit – Deemed income – Deemed income – Provision for doubtful debts**

Clause (c) of Explanation to s. 115JA(2) is only for provisions with respect to liabilities and that too unascertained liabilities. It does not cover provision made for diminution in value of assets. Therefore, the provision for doubtful debts could not be added back to the net profit as per P&L A/c by invoking clause (c) of Explanation to section 115JA(2). It was, further, provision for doubtful debts and advances could not be held to be a reserve within the meaning of clause 7(2) of Part III of Schedule - VI to the Companies Act, and accordingly, clause (b) of the Explanation is also not applicable to it. **Section 115JAA : Tax credit in respect of tax paid on deemed income relating to certain companies**

**S. 115JAA : Company – Book profit – Deemed income – Tax credit – To be set off before computing Advance Tax shortfall and liability for section 234B, 234C – Interest**

The scheme of section 115JA(1) and 115JAA shows that right to set-off the tax credit follows as a matter of course once the conditions of section 115JAA are fulfilled. The grant of credit is not dependent upon determination by the Assessing Officer except that the ultimate amount of tax credit to be allowed depends upon the determination of total income for the first assessment year. Accordingly, the assessee is entitled to take into account the set off while estimating its liability to pay advance tax. If this interpretation is not given, there will be absurdity.

The amendment to Explanation 1 to section 234B by FA 2006 w.e.f. 1.4.2007 to provide that MAT credit under section 115JAA shall be excluded while calculating advance-tax liability is to remove the immense hardship that would result if this was not done.

**S. 115JB : Company – Book profits – Deduction – Export [S. 80HHC]**

Section 115JB is a self contained code. It refers to computation of "book profit" which has to be computed by making upward and downward adjustments. Cl. (iv) of the

Explanation to section 115JB seeks to exclude "profits eligible for deduction under section 80HHC". Section 80HHC(1) refers to eligibility whereas section 80HHC(1B) deals with the "extent of deduction". For the purposes of computation of book profit which is different from the normal computation under the Act, the upward and downward adjustments are to be kept in mind and thus cl. (iv) of the Explanation to section 115JB covers full export profits of 100% as "eligible profits" and the same cannot be reduced to 80% by relying on section 80HHC(1B). The argument of the Department that both "eligibility" as well as "deductibility" of the profit have to be considered together for working out the deduction as mentioned in cl. (iv) has no merit. ### **S. 115JB : Company – Book profit – Provision for diminution in value of investments – Change of law**

For the assessment year 2002-03, the Assessing Officer recomputed the book profits of the assessee by making an adjustment for provision for diminution in value of investments on the ground that the provision made by the assessee fell under clause (c) of Explanation 1 to section 115JB (2). The Commissioner(Appeals) deleted the addition which was up held by the Tribunal. In appeal the court held that after amendment by Finance (No. 2) Act, 2009, made effectively from April 1, 2001, clause (i) of Explanation 1 had been inserted in section 115JB(2) of the Act where by any amount or amounts set aside as provision for diminution in the value of any asset would not reduce the book profits of an assessee. The adjustment claimed by the assessee as provision for diminution in value of investment was not tenable and it would be added in

the profit which thereby would enhance the book profits under section 115JB of the Act. (A. Y. 2002-03).

### **S. 115JB : Company – Book profit – Interest – Retrospective amendment of law – Impossibility of performance**

Provisions relating to payment of advance tax are applicable in a case where the book profit is deemed to be the total income under section 115JB. On the facts of the assessee there was no liability to make payment of the advance tax on the last day of the financial year i.e. 31st March 2001 when its book profit was nil according to section 115JB. Provision of section 115JB having been amended by the Finance Act, 2002, with retrospective effect from 1st April 2001, the assessee cannot be held defaulter of payment of advance tax, where on the last date of the financial year preceding the relevant assessment year, the assessee had no liability to pay advance tax, he cannot be asked to pay interest under section 234B and 234C for no default in making payment of tax in advance which was physically impossible therefore interests under sections 234B and 234C can not be charged. **S. 115JB : Company – Book profits – Long-term capital gains [S. 10(38)]**

Applicant, a US company transfers its shareholding in an Indian listed company to its Mauritius company by effecting transaction on BSE making it tax exempt under S. 10(38) of I.T. Act; issue is whether MAT is applicable due to the proviso to S. 10(38) which states: "Provided that the income by way of long-term capital gain of a company shall be taken into account in computing the book profit and income-tax payable under Section 115JB" - AAR observed that annual accounts, including the P&L Account, cannot be prepared as per the first proviso to Section 115JB(2) in respect of the world income; further, as the applicant did not have a place of business in India it was not required to prepare its accounts under Section 594 read with Section 591 of the Companies Act, 1956 and is therefore of the view that MAT is not designed to be applicable to the case of the applicant, a foreign company, who has no presence or PE in India - Hence held provisions of MAT are not attracted as the applicant is a foreign company and has no place of business or PE in India and is not required to make out annual accounts as per provisions of Companies Act.

**S. 115JB : Company – Book profits – Additions – Interest on borrowed capital [S. 36(1)(iii)]**

Applicant is Govt. company in power distribution in Rajasthan - Additions made by Assessing Officer to book profit on account of interest, prior period items and Depreciation provided as per Electricity Act - AAR observed that loan was for the business purpose of the applicant and it was the liability of the applicant to bear the interest liability, hence allowable under section 36(i)(iii); further, applicant maintaining mercantile system of accounting could not provide certain expenses in the books of accounts on account of its unascertainability, now provided the expenses as "prior period expenses" during the period under consideration; held prima facie applicant is entitled to such relief and addition to the book profit cannot be sustained; further, applicant has provided depreciation as per the Companies Act, 1956 read with principles contained in the statutory rules framed under the Electricity (Supply)

Act; held such a diversion from the Companies Act in providing depreciation and not following the accounting standard 12 deserved proper consideration by Assessing Officer and therefore additions made to profits on account of depreciation is not sustainable. (A.Y. 2004-05)

**S. 115JB : Company – Book profits – Set off of the current years profit – Brought forward or Unabsorbed depreciation**

Applicant's question was whether it has discretion to set off the current year's profit, either against the loss brought forward or unabsorbed depreciation or in a manner most beneficial to it and whether such adjustment can be changed from year to year - AAR ruled that both on the interpretation of said section as well as on the principal of consistency of method of accounting, the applicant does not have the option to reduce the current year's profit in a manner different from the manner adopted for determination of "book profit" but the lesser of the two is required to be reduced from the current year's income and certainly not in a manner more beneficial to the applicant; further after making the reduction in one year, the applicant cannot adopt a different method in the subsequent years. **CHAPTER XII-G**

**SPECIAL PROVISIONS RELATING TO INCOME OF SHIPPING COMPANIES**

***B. Computation of tonnage income from business of operating qualifying ships***

**S. 115VA : Shipping business – Operating qualifying ships – Write back of sundry creditors – Interest on loans and advances to employees – Capital gains [S. 41(1), 45, 56]**

Provisions of sections 28 to 43C cannot override computation of profits and gains of under section 115VA hence the Assessing Office cannot make separate additions in respect of write back of sundry creditors, prior period adjustments etc. under section 41(1). Loans were advanced to employees involved in core activity of assessee company hence interest income derived from such activity was taxable under the

head "income from business" and therefore it cannot be brought to tax separately. Income earned by assessee from sale of ships will be taxable under the head capital gains hence, receipt in question cannot be considered as turn over as per provisions of section 115VA thus it was out of purview of Chapter XII-G of the Act. (A. Y. 2007-08).

##### **S. 115WA : Fringe benefits – Charge of tax – Tax exempt status – Non-resident – Non profit organisation also liable – DTAA – India-USA**

Non-resident applicant is tax exempt in home country under section 501(c)(3) of Internal Revenue Code and hence contends that as per Article 1(2) of DTAA, it is not chargeable to income tax in India including FBT which it contends is chargeable only when the employer is chargeable to income tax in India - AAR observed that said Section mandates that FBT shall be charged for every assessment year in addition to the income-tax charged under the Act; further, sub-section (2) thereof clarifies that

even when no income tax is payable by an employer of his total income computed in accordance with the provisions of this Act, the tax on fringe benefits shall be payable by such employer - hence held that applicant is liable to pay fringe benefit

### **Section 115WB : Fringe benefits**

#### **S. 115WB : Fringe benefits – Rent for car parking Area – Revision [S. 263]**

In the present case it was held that the essential facilities attached to a rented building had to be treated as part of building itself and therefore, rent or license fee paid for such facilities should be treated as forming part of rent. It was further held that in view of the above, the rent paid for car parking area did not fall under category of 'running, maintenance and repair expenses of car' and thus assessee was not liable to pay fringe benefit tax on the said amount. ## **C. Powers**

## **Section 131 : Power regarding discovery, production of evidence, etc.**

### **S. 131 : Income-tax authorities – Powers – Discovery – Summons**

The question before the Assessing Officer was whether the assessee is a trader or a commission agent. The Assessing Officer summoned five parties who were in the state, but could not summon other 5 which were outside the State. The five parties within the State came and gave the evidence that the assessee is a commission agent. On the basis of the fact that the other five did not give any evidence the Assessing Officer took the view that the assessee is a trader. The Supreme Court held that the fact that other five parties did not give any evidence would not allow the Assessing Officer to draw the inference that the assessee is a trader and that the assessee could not be held responsible for the non-appearance of the other 5 traders. ### **S. 131 : Income-tax authorities – Powers – Discovery – Impounding of Books – Retention – Approval**

Section 131 of the Act provides that any books, documents, etc. impounded by the Assessing Officer can be retained beyond fifteen days only with the prior approval of superior authorities. This power of extending retention period of books, documents, etc indefinitely or during the pendency of appeal would defeat the very object of impounding with an outer limit of fifteen days. Thus the extension of such retention period can only be a one time exercise and supplementing the outer limit of fifteen days for some more days depending upon the circumstances of a case. The extension of the period should be counted only in days and not in months or years as outer limit is indicated in days.

**S. 132 : Income-tax authorities – Powers – Search and seizure – Action violates "human rights" – Officers personally liable to pay compensation**

The income-tax department conducted search and seizure operations under section 132 at the premises of the assessee when interrogation & recording of statement was conducted for more than 30 hours and till the odd hours of the night without any break or interval. The assessee filed a complaint alleging violation of human rights. HELD upholding the plea:

The Commission is of the view that the members of the raiding party may take their own time to conclude the search & seizure operations but such operations must be carried out keeping in view the basic human rights of the Individual. They have no right to cause physical and mental torture to him. If the officer-in-charge of the Interrogation/recording of statements wanted to continue with the process he should have stopped the same at the proper time and resumed it next morning. But continuing the process without any break or interval at odd hours up to 3:30 AM, forcing the applicant and/ or his family members to remain awake when it is time to sleep was torturous act which and cannot be countenanced in a civilised society. It was violative of their rights relating to dignity of the individual and therefore violative of human rights. Even die-hard criminal offenders have certain human rights which cannot be taken away. The applicant's position was not worse than that. In the opinion of the Commission, the Income Tax Department should ensure that the search & seizure operations at large in future are carried out without violating one's basic human rights.

**S. 132 : Income-tax authorities – Powers – Search and seizure – Authorisation under section 132(1) – Notice under section 131(1A) after warrant under section 132(1)**

Section 131(1A) is only an enabling section and it does not in any manner effect the search and seizure operation carried on under section 132. For the purpose of judging the action of the concerned authority with respect to search and seizure, Section 132 alone has to be considered. Section 132 is an independent code itself. Materials collected before search showed that officer concerned could have reason to believe that the petitioner were in possession of money, bullion etc., wholly or partly undisclosed income or asset and therefore there was reason to believe within meaning of section 132(1). Further, after search and seizure operation, the power under section 131(1A) cannot possibly be invoked in view of its plain language and if the power is invoked, it will not in any manner affect the validity of the search and seizure operation. Section 131(1A) and 132 should be interpreted harmoniously.

It may be possible that notice under section 131(1A) issued after search might itself be invalid but it cannot invalidate search conducted under a valid authorization under section 132(1). The fact that the income tax authorities issued notice under section 131 (IA) after the Search and seizure operation under section 132 would show that there was neither reason to believe nor material before the authorising officer on the basis of which he could issue a warrant under section 132.

**S. 132 : Income-tax authorities – Powers – Search and seizure – Prohibitory order – Information – Reason to believe**

Where the bank accounts of persons unconnected with the petitioner and reflected in their return were kept under the prohibitory order even after 60 days, it was bad illegal and should be set a side. when places of persons of diverse activities and unconnected with each other are searched and their bank accounts are frozen by the authority to get or gather materials and information to form a belief that the assessee is avoiding tax, it is wholly outside the scope of the search and seizure.

Condition precedent for search and seizure is 'reason to believe' under section 132 which cannot be equated with 'reason to suspect'.

Likelihood of getting undisclosed things at best can be a 'reason to suspect' but does not form any 'reason to believe'.

Flourishing of business under brand name cannot be the reason to believe evasion of tax law; even requirement of block assessment ipso facto cannot be the 'reason to believe' under section 132.

**S. 132(4) : Income-tax authorities – Powers – Search and seizure – Statement on oath – Addition – Capitation fee**

The Assessing Officer made addition towards capitation fees alleged collected from the students was solely based on the sworn statement recorded under section 132(4) of a special Officer of engineering College. There was no incriminating evidence regarding the receipt of capitation fee either found or seized. What was found was the number of students who were admitted under different quotas in various courses. The Tribunal held the additions cannot be made in the hands of assessee on the basis of such evidence. The Tribunal held that the Central Board of Direct taxes had issued instructions by Circular no 286/2/ 2003 –IT, wherein it had directed that the search party should not obtain confession. So the admission made under section 132(4) by the Special Officer of the college could not be treated even as a valid piece of evidence. Accordingly the order of Commissioner (Appeals) deleting the addition was confirmed. (A.Y 2008-09).

Though statement given under section 132(4) is an important piece of evidence against assessee, statement given under section 132(4) is not conclusive and person giving statement can retract same under certain circumstances; time gap between statement and retraction of statement would be one of important points to be taken into account while deciding whether statement was voluntary or not; the other circumstance is where statement was given under mistaken belief of either fact or law. **S. 139 : Assessment – Return – Revised return – Intimation – Revision [S. 143(1), 264]**

Assessee filed the original return of income showing the capital gain on full value of consideration of deemed transfer. The Assessing Officer passed the intimation under section 143(1), accepting the return. Assessee filed the revised return within one year of end of assessment year. Assessing Officer has not passed the order on the basis of revised return. Assessee filed the revision petition under section 264 before the Commissioner. Commissioner rejected the petition. On a writ petition, the Court held that, once the revised return is filed within the period of limitation, it is incumbent on the Assessing Officer to process and decide the same within statutory period of limitation and by not doing so the Department cannot be permitted to gain benefit thereof. Accordingly the petition was allowed. (A. Y. 1998-99).

Applicant transferred 50% shares of its Indian subsidiary to a company incorporated in Switzerland. It submits that such transfer would be governed by said Article of the DTAA and would be taxable only in Netherlands as purchasers are residents of Switzerland. It further submits that it is not required to file a return of income as the said section is merely a machinery section that would apply only where the transaction entered into by the foreign assessee is liable to be taxed in India. Revenue concedes that transfer would not be taxable in India but urged that the whole exercise, from start to finish, of determining the taxability or otherwise of the transfer is carried out under the Act and this requires compliance to the machinery provisions of said section - AAR accepted the views of learned CIT and further observed that as per the third proviso of said section, every company is required to file its return of income, whether it has an income or a loss. Instead of causing

inconvenience to the applicant, the process of filing of return would facilitate the applicant in all future interactions with the Income tax department.

#### **S. 140 : Assessment – Return to be signed – Commissioner (Appeals) – Defect in memo of appeal – Rule 45**

The assessee is a limited company. The Assessing Officer passed assessment order under section 143(3) of the Income-tax Act, 1961 for the Asst. Years 1990-91 and 1995-96. Thereafter, assessee filed appeal before CIT(A). However, both the appeal

memos were signed by the assessee's advocate who was not authorized to sign the same. Subsequently, the CIT(A) dismissed the said appeals on the ground that since appeal memo are not signed by the authorized signatory, they are not maintainable. The ITAT allowed assessee's appeals and directed CIT(A) to permit the assessee to sign the memos of appeals so as to make the same in conformity with the requirement of section 146 r. w. Rule 45 and relied on Bombay High Court's judgments in the cases of *Dayabhai Gidshardas v. Babaji Kotwal reported in AIR 1953 Bom. 28* and *Kaluram Pannalal v. #### **S. 142 : Assessment – Inquiry before assessment – Auditing of accounts – Block period**

Block periods 1988-89 to 1998-99

Direction for Special Audit – Directions should not be for preparation of New Account Books.

Provisions of sec. 142(2A) of the I. T. Act 1961 do not give any authority to direct the preparation of fresh books of account by referring the matter to an auditor under special audit.

The ITAT held that reference to Special Audit under section 142(2A) was not for the purpose for which the provision was enacted but merely for getting the extended period for completing assessment, which was not allowed in law. On that basis, Special Audit was held to be illegal and assessment order was held to be barred by time.

On appeal to High Court, it was held that the findings given by the ITAT are findings of facts based upon the relevant material and hence no question of law arises.

#### **S. 142 : Assessment – Inquiry before assessment – Limitation – Validity of notice – Return [S. 139(4), 148]**

Limitation for issuance of notice is controlled by the words "for the purpose of making an assessment under this Act". If the Assessing Officer has jurisdiction or power notice under section 142(1) can be issued at any point of time. Since the return under section 139(4) clearly included within the meaning of the words "return under section 139" as such notice can be issued even where the return has been filed after the end of the assessment year. Similarly, a notice under section 142(1) can be issued even in respect of a return filed in response to notice under section 148. In such cases notice under section 142(1) would certainly be beyond the period of one year from the end of the assessment year but the Assessing Officer would be within his jurisdiction or power to issue notice under section 142(1). In other words, in such cases notice under section 142(1) can be issued even after the end of one year from the end of the assessment year. (A.Y. 1997-98)

### **S. 142(2A) : Assessment – Inquiry before assessment – Special audit – Larger bench**

The Supreme Court has referred the issue of whether the assessee should be given an opportunity of being heard before the Assessing Officer issues a direction for the accounts to be audited under section 142(2A) to a larger bench to reconsider its earlier decision in the case of *Rajesh Kumar v. Dy. CIT (2006) 287 ITR 91 (SC)*. (A.Y. 2003-04)

*Editorial:- The Finance Act, 2007 has inserted a proviso to section 142(2A) with effect from June 1, 2007, providing for an opportunity to be given to the assessee before issuing a direction under section 142(2A) to get the accounts audited.*

### **S. 142(2A) : Assessment – Inquiry before assessment – Special audit – Natural justice**

A direction under section 142(2A) of the Act for special audit is not an administrative order, but is a quasi-judicial order. The Supreme Court held that under section 136 the entire proceeding before the Assessing Officer is judicial, and therefore special audit being part of it cannot be an administrative order. Therefore the principles of natural justice are to be followed by the assessing officer for making an order for special audit under section 142(2A). Further the power under section 142(2A) cannot be lightly exercised. The satisfaction should be based on objective assessment, regard being had to the nature of accounts.

**S. 143 : Assessment – Breach of natural justice – Cross examination**

With a view to ascertain percentage of silver used by assessee in its product, Assessing Officer sent samples of products to a research institute. On basis of report of such institute, total consumption of silver by assessee was estimated. Assessee filed objections to said report and sought permission to cross-examine analyst. However, Assessing Officer paid no heed to such request and proceeded with assessment order. Whether since correctness or otherwise of report, on basis of which assessment order was passed against assessee, was itself under challenge, said report could not be automatically accepted and Assessing Officer committed violation of principles of natural justice in not permitting cross-examination of analyst and relying upon his report to detriment of assessee. Where one of transactions found noted on loose papers found during search was attributed by assessee to her aunt, and Tribunal, on totality of facts and circumstances, accepted assessee's submission that transaction did not concern him,

mere non-appearance of assessee's aunt before Assessing Officer would not justify addition. (A.Ys. 1988-89 to 1998-99)

*CIT v. Kailash Chand Sharma (2005) 146 Taxman 376 / 198 CTR 201 (Raj.)(High Court)*

### **S. 143 : Assessment – Additions to income – Loose papers**

Addition made to assessee's income on basis of paper seized from assessee's premises was rightly deleted by Tribunal believing assessee's plea that paper did not belong to him, entries recorded therein did not relate to him and same were not in handwriting of any of partners or employees or any connected person, and that paper was written in English and none of partners or employees of firm knew English.

### **S. 143 : Assessment – Additions – Bogus claim**

Impugned addition to Income on account of treating job charges and material bills as bogus, cannot be sustained when it has been established by furnishing relevant bills, bank statements etc. and the fact remains that without purchase of such material and

job charges being incurred, the manufacture could not have been possible. (A.Y. 1996-97)

*Hylux Automotive (P) Ltd. v. ITO (2007) 163 Taxman 90 (Mag.)(Delhi)(Trib.)*

### **S. 143 : Assessment – Evidence – Rejection by Assessing Officer**

Assessing Officer is duty bound to falsify the assessee's claim with convincing and appealing evidence, rather than doubting the transaction in the realm of suspicion. Assessing Officer cannot reject the evidence placed without showing how it was not reliable. (A.Y. 1990-91)

*Anilkumar Mahipal v. I.T.O. (2007) 162 Taxman 87 (Mag.)(Jodh.)(Trib.)*

### **S. 143 : Assessment – Issue of notice – Limited scrutiny**

The jurisdiction of Assessing Officer in cases where notice is issued for limited scrutiny, is confined to claims set out in the notice for verification. Assessing Officer has no power to make the entire assessment of income in such limited scrutiny cases. Even Commissioner (Appeals) power cannot be enlarged beyond the power of Assessing Officer in limited scrutiny cases, and decision to consider other claim not covered in the notice for limited scrutiny is contrary to provisions of the Act. *Better Investments (P) Ltd. v. ITO (2007) 161 Taxman 130 (Mag.)(Delhi)(Trib.)*

### **S. 143 : Assessment – Res judicata – Findings in earlier year**

Revenue authorities can examine the issue which was not raised in earlier years, as every Asst Year is an independent Asst. Year. Assessing Officer is not debarred from adjudicating the issue which has not been examined nor revenue had expressed its view on that issue in earlier years. (A.Y. 1994-95)

*Dy. CIT v. Ramgopal & Sons (2006) 155 Taxman 223 (Mag.)(Mum.)(Trib.)*

### **S. 143 : Assessment – Service of notice – Mandatory**

The notice under section 143(2) dated 27-9-2002 was dispatched for service by registered post on 30-9-2002. In absence of proof of service of notice on 30-9-2002, it cannot be presumed that notice dispatched is served on very same day, and thus there was no valid service of notice under section 143(2) and a violation of mandatory requirement of law. ### **S. 143 : Assessment – Additions – Consumption**

Additions which are made on ground of higher consumption of electricity without bringing on record corroborative evidence nor finding any defect in stock register, nor any findings of sales outside the books, held to be not justified. (A.Ys. 1998-99, 1999-2000)

*ITO v. Jai Glass (P) Ltd. (2006) 155 Taxman 163 (Mag.)(Chd.)(Trib.)*

### **S. 143 : Assessment – Admission made by assessee – Counsel**

An admission made by the assessee for the assessment is a material fact unless it is rebutted – A document has to be construed as a whole and a part of it cannot be ignored which is not suitable – Assessee cannot be penalised for the fault of his counsel.

*ITO v. Late Rohit Nanavati, (Jaipur) (Tax World – February 2006 – Vol. XXXV – P. 44)(Jp.)(Trib.)*

### **S. 143 : Assessment – Revised return – Information**

Assessing Officer having merely culled out certain information from the revised return which was admittedly time-barred and invalid, and completed the assessment acting only on the original return and passed the assessment order within the time-limit as per original return, assessment was not vitiated. (A.Y. 1996-97)

*R. Sureshkumar v. ACIT (2006) 99 TTJ 997 (Chennai)(Trib.)*

### **S. 143 : Assessment – Income from undisclosed sources – Addition**

When the statement of assessee's wife was not confronted to the assessee nor he was allowed any opportunity to cross-examine his wife, such statement could not be relied upon to make addition in the hands of the assessee.

### **S. 143(2) : Assessment – Notice – Time limit in case of defective return – Limitation**

Time limit for issue of Notice under sec. 143(2) is not from date when defect was rectified but from date when return was filed.

In cases where the profit and loss account and balance sheet do not accompany the return of income, it would be regarded as defective in contradistinction to an invalid return. Therefore, a defective return cannot be regarded as an invalid return ipso

facto: It may assume the character of an invalid return if the defect after due notice has not been removed by the assessee. (A.Y. 1989-90)

### **Section 144 : Best judgment assessment**

#### **S. 144 : Best judgment assessment – Arbitrary – Honest and fair estimate**

Even though there is always a certain degree of guess work in a best judgment assessment, the authority should try to make an honest and fair estimate of the income and should not act totally arbitrarily.

*Kachwala Gems v. Jt. CIT (2006) 206 CTR 585 / (2007) 288 ITR 10 / 158 Taxman 71 / 196 Taxation 738 / AIR 2007 SC 487 (SC)*

#### **S. 144 : Best judgment assessment – Liquor trade – General principles – Rejection of books of account – Percentage of 40% could not be adopted [S. 145]**

The Assessing Officer rejected the book results and estimated the gross profit at 40% of purchases. This was confirmed by CIT(A). The Tribunal held that the estimation of turnover at eight times the purchase price and 1% there on as profit would be reasonable. The Court held the estimating the net profit at 2% of the estimated sales or 16% of the purchase price would be reasonable. The Court laid down the following general principles (1) The power to levy assessment on the basis of best assessment is not an arbitrary power; it is an assessment on the basis of best judgment of the officer; (2) When best judgment assessment is undertaken it cannot be as per the whims and fancies of the Assessing Officer but should be based on some material either produced by the assessee or gathered by the taxing officer. If for any reason material like books of account produced by the assessee is rejected as unreliable or unsatisfactory, there should be valid reasons for doing so; and (3) whenever best judgment assessment is made, the Court would not call for proof from the officer if there is some nexus between the amount arrived at after some guess work and the facts of the case. **S. 144 : Best judgment assessment – Counsel – Evidence [Rule 46A]**

The assessee had given all documents/ evidences to its counsel who failed to appear before the Assessing Officer. The Assessing Officer proceeded to make an ex parte assessment under section 144 by treating addition to unsecured loans and share application money as unexplained under section 68. Before the CIT(A) the Assessee filed additional evidence u/r 46A and pleaded that it should not be made to suffer for no lapse on their part. The Tribunal held that CIT(A) was not justified in refusing to admit additional evidence. (A. Y. 2002-03)

**S. 144 : Best judgment assessment – Rejection of books – Fair and reasonable estimate**

**[S. 145]**

Tribunal held, that while invoking provisions of section 145(3) and rejecting book results, the Assessing officer cannot make an addition in an arbitrary manner and without any basis. Assessing officer has to make an independent inquiry, refer the past history as well as comparable cases, and is duty bound to make a fair and reasonable estimate, based on evidence and material on record. Assessment has to be made as in manner required under section 144 while invoking the provisions of section 145(3).

The DRP, is an authority created under a statute and conferred with the powers, which has the obligation to act as a body living to the expectations which the law mandates. It was held that section 144C empowers the Dispute Resolution Panel (DRP) to issue directions to the Assessing Officer and cannot be treated as totally redundant or absolutely inefficacious remedy to the assessee. Thus, no assessee can have any kind of apprehension that the approach to the DRP is perfunctory.

**S. 144C : Assessment – Reference to dispute resolution panel – Transfer pricing – Jurisdictional commissioner should not be part of DRP – Reassessment [S. 147]**

Where DIT-II was exercising supervisory functions over the Assessing Officer, the real likelihood of "official bias" cannot be ruled out. Even if the officer is impartial and there is no personal bias or malice, nonetheless, a right minded person would think that in the circumstances, there could be a likelihood of bias on his part. In that event, the officer should not sit and adjudicate upon the matter. He should recuse himself. This follows from the principle that justice must not only be done but seen to be done. In order to ensure that no person should think that there is a real likelihood of bias on the part of the officer concerned, the CBDT is directed to ensure that a jurisdictional Commissioner is not nominated as a member of the DRP under Rule 3(2) of the Rules. By doing this, the principle that justice must not only be done but seen to be done would be ensured. Nonetheless the constitutional validity of section 144C and Rule 3(2) of the Rules was upheld. #### **S. 144C : Assessment – Reference to dispute resolution panel – Transfer pricing – Power to "enhance" – Confined to issues raised in draft assessment order – "Future losses"**

Under section 144C(5), the DRP can issue directions only in respect of the objections raised by the assessee and the objections are to be in terms of the variation proposed

in the draft order. Section 144C(8) restricts the powers of the DRP to “confirm, reduce or enhance the variations proposed in the draft assessment order”. Hence, the DRP’s directions have to be with reference to the objections to the variations proposed in the draft order. (GE India Technology Centre v DRP (Kar) followed); As regards the deduction for “future losses”, Accounting Standard AS-7 requires “expected loss” (difference between probable contract costs and contract revenues) to be “recognised as an expense immediately” irrespective of whether work has commenced and the stage of completion of activity. When the department wants to assess a particular income in a particular year, it should always ascertain the method followed by the assessee in the past and whether the change in the method of accounting was warranted on the ground that profit is being underestimated under the impugned method of accounting. Unless the officer gives a finding with facts and figures that there is a underestimation the presumption would be that the whole exercise is revenue neutral. (A.Y. 1994-95)

#### **S. 145 : Assessment – Method of accounting – Valuation of closing stock**

The assessee valued the closing stock at net realizable price being the price quoted on the London Metallic Exchange following the principle of valuation of stock at cost or market price whichever is less. However, the assessee did not value the stock at the domestic market price which was admittedly more than the international price of the stock. The Supreme Court held the valuation to be wrong on the ground that it is merely reduction of prospective profits and not a case of anticipated profits. (A.Y. 1996-97)

Section 642 of the Companies Act, 1956, gives power to the Central Government to make rules in addition to the power to alter the schedules and therefore, the rules framed under section 642 adapting AS 22 is not ultra vires. AS 22 requires companies to make provision for deferred tax. This is a means to give effect to the concept of true and fair contemplated under section 211(1) and therefore, it is not inconsistent with the provisions of the Companies Act, including Schedule VI.

**S. 145 : Assessment – Method of accounting – Valuation of stock – Rejection of accounts**

To attract section 145, it is necessary that the assessee has computed the income in accordance with the method of accounting regularly employed by the assessee. Where the accounts are correct and complete to the satisfaction of the Assessing Officer, but the method employed is such that in the opinion of the Assessing Officer the income cannot be deduced there, then the Assessing Officer may adopt a different method of computation of the income as he may determine.

Permissibility of valuation of stock at market value would be only if market value of stock is lower than cost. Where market value of stock had been taken into consideration while arriving at chargeable income although market value of stock was more than the cost value of stock, rejection of accounts maintained by assessee for valuation of closing stock by Assessing Officer was in accordance with law. **S. 145 : Assessment – Method of accounting – Hybrid system – Change in system – Compliance with company law – Continue hybrid system for tax purposes**

The assessee was in the business of publishing and was showing income received from subscription of magazines and advertisements on cash basis, while income from sale of magazines, research and software development were shown on mercantile basis and the same was accepted by the department in the earlier years. But the relevant year under consideration, to comply with the Companies Act, the assessee had to follow mercantile system of accounting. The assessee showed the income arising from subscription of magazines and advertisements on mercantile basis, however the assessee claimed a deduction of the income from subscription of magazines and advertisements which had been accounted for, and the same being not received was claimed as a deduction. The Assessing Officer disallowed the deduction, and the same was upheld by the CIT(A) and Tribunal. On appeal to the High Court by the assessee, the High Court while allowing the appeal held that once the Tribunal had accepted that the assessee was following the hybrid system of accounting for income tax purposes and it was only to comply with the Companies Act, that it changed its system of accounting to mercantile system, the Tribunal erred in holding that the assessee's income for the purposes of income tax proceedings could not hark back to the hybrid system, and therefore held that the Tribunal was not justified in disallowing the claim of deduction by the assessee being income from advertisements accrued but not received. #### **S. 145 : Assessment – Method of accounting – Construction Works Contract**

Assessee was following AS-7 Accounting System - The same system followed regularly - Assessee has liberty to follow any recognized method of accounting for his business.

The assessee is a private limited company. The business activity of the assessee is of execution of works contract. For the same business assessee was following Accounting Standard 7 as laid down by the Institute of Chartered Accountants wherein the closing value of Work-in-Progress was determined on the basis of the method prescribed therein. The assessee debited all the expenses incurred in respect of the Work-in-Progress account, and did not determine the profit on the basis of the entire work-in-progress.

The High Court held that the assessee has the option to adopt any recognized method of accounting for his business and the income shall be computed in accordance with such regularly maintained accounting system. (A.Ys. 1991-92 to 1994-95.)

**S. 145 : Assessment – Method of accounting – Valuation of Stock – Production of film – Rule 9A**

Assessee was engaged in the business of film production. During the relevant accounting year, the assessee produced a movie. However, the distribution rights granted by the assessee on minimum guarantee basis were not sold for certain territories. The Assessing Officer valued the closing Stock of the movie at ` 4,48,279 as against ` 1.45 lakhs declared by the assessee. The Commissioner (Appeals), confirmed the addition. The Tribunal held that there could be many reasons why distribution rights could not be sold in some territories and therefore the assessee was not bound to write off the cost as some territories and therefore, the assessee was not bound to write off the cost as some per the table contemplated by the rule 9A and allowed the second appeal. The court held that ,it is correct to say that the ITO can disregard the table in appropriate cases where it is not practicable to apply the provisions of Rule 9A. For example in a given year the total realization declared

by an assessee is less than the cost of production of the movie, then the table may not be strictly applicable. However, in the instant case, the total realization was ` 32,90,962 and therefore, it was possible for the ITO to value the closing stock as per the table given in rule 9A. Therefore in the instant case sub rule (9)(c) was not applicable. (A.Y. 1979-80)

#### **S. 145 : Assessment – Method of accounting – Valuation of stock – Completion of contract method – Work in progress**

Assessee having followed percentage completion method consistently which has been accepted in earlier as well as in subsequent years valuation of closing work in progress made by it at historical cost cannot be disturbed particularly when the categorical findings of the CIT(A) highlighting that the assessee has not deviated from the guidelines issued by the ICICI under AS-7 has not been challenged by the revenue. Addition made by the Assessing Officer by reworking the closing work in progress at current rates rightly deleted. (A. Ys. 1998-99, 1999-2000).

For the relevant assessment year the assessee filed the nil income. In the course of survey the Assessing Officer found that there was certain unaccounted stock. The Assessing Officer rejected the books of account under section 145(3) and estimated the net profit and also sales. He also made separate addition were made in respect of unaccounted stock under section 69 as well as disallowances and additions in respect of excess wastages etc. The direction given to the Commissioner (Appeals) to work out the net profit by applying a rate as had been in the immediately preceding assessment year. #### **S. 145 : Assessment – Method of accounting – Despite section 209(3) of the Company's Act, company can follow cash system for tax purposes**

As per section 209(3) of the Company's Act, a company is obliged to follow the mercantile system and that is its' "regular method" for purposes of section 145. It was held that the assessee has regularly employed the cash system of accounting in recording its day to day business transactions. It is not a case where the assessee has been maintaining its accounts of day to day business under the mercantile system of accounting and thereafter prepares accounts in accordance with cash system of accounting for income tax purposes. Section 209(3) of the Companies Act, 1956 does not override section 145 of the Income-tax Act. There was also no valid basis for the Assessing Officer's action in rejecting the books of account and system of accounting followed by the assessee. Further, since the department has accepted

the assessee's system for the past several years, the principles of consistency apply and there should be finality and certainty in litigation in the absence of fresh facts to show that the assessee's system of accounting is arbitrary or perverse. (A.Ys. 2004-05 to 2006-07)

**S. 145 : Assessment – Method of accounting – Project completion method – Housing project – Enhancement – Power of Commissioner (Appeals) [S. 251(2)]**

Assessee having regularly followed project completion method which is an accepted method of accounting and the Assessing Officer having accepted the same in the preceding as well as in the subsequent assessment years, there was no justification to reject the said method and apply the percentage completion method when the assessee has offered the income in the year of completion of the project. As the Commissioner of (Appeals) has not issued the enhancement notice as required under section 252(2), while enhancing the income, the Commissioner of (Appeals) was not justified in enhancing the income by rejecting the project completion method followed by the assessee. Assessee is in the business of builder, had taken a slum rehabilitation project. Assessee had been allotted TDR in lieu of handing over possession of constructed transit building. Assessee has sold the TDR in two installments. Assessing Officer taxed the receipts of TDR as independent income. Assessee contended that as they are following project completion method as per AS. 7, income from project had to be computed in year of completion. The Tribunal directed the Assessing Officer to compute the income of project after taking into consideration entire expenditure and receipt from beginning of year including TDRs. In case the project was not found complete, Assessing Officer would set off TDR receipts against work in progress and no income would be assessed on account of TDR receipts separately. **S. 145 : Assessment – Method of accounting – Valuation of stock – Excess stock found during Survey [S. 133A]**

A survey was conducted at assessee's premises in course of which inventory of stock was prepared. There was discrepancy in value of stock as per books and as per inventory taken at the time of survey. After survey assessee filed its return wherein value of excess stock found at the time of survey was reduced by an amount of ₹ 5.18 lakhs. Assessee contended that assorted or mixed pipes valued at market price were merely scrap, and thus their scrap value was to be taken in to account while

valuing the stock. The Tribunal held that burden lied on assessee for changing value drastically in respect of valuation of stock. As the assessee has not filed any credible or reliable evidence to show that cost or market price was either of items mentioned was not proper at the time of survey, the contention of the assessee was not accepted. The rejection of books of Assessee firm engaged in business of builder - realtors, on ground that Assessee had not furnished quantitative particulars, no proper vouchers were available for expenses and labour payments were not supported by verifiable details, was held to be justified.

It was observed that even when all payments were made by cheque and TDS was deducted on every payment to labourer, same can not substitute the necessity of maintaining records and evidences in a proper manner. Also the primary condition to be satisfied was that the working results reflected in the books must be verifiable and beyond dispute, even though the method of accounting and method of recognition of income were acceptable. **S. 145 : Assessment – Method of accounting rejection – Specific defects**

Assessing Officer having not pointed out any specific defect in the assessee's books of account, there was no basis for rejecting the books of account and applying a higher GP rate without citing any comparable case. (A.Y. 1998-99)

*ITO v. Prakash Chand (2006) 100 TTJ 639 (Jodh.)(Trib.)*

**S. 145 : Assessment – Method of accounting GP rate – Marble sawing**

GP rate cannot be uniform in the business of excavation of marble blocks from mines and sawing and, therefore, GP rate of 16 per cent declared by the assessee was reasonable. (A.Y. 1997-98)

*Bombay Marble Industries v. ITO (2006) 100 TTJ 927 (Jodh.)(Trib.)*

**S. 145 : Assessment – Method of accounting – Rejection – Consistency**

Assessing officer cannot reject the method of accounting consistently followed, and when the same was accepted in previous assessment year. (A.Y. 1998-99)

*ACIT v. Chhabra Land & Housing Ltd. (2006) 152 Taxman 68 (Mag.)(Chd.)(Trib.)*

**S. 145 : Assessment – Method of accounting comparable GP rate – Stock records**

It was held in the instant case that Assessing Officer is not justified in rejecting book results, and estimating profit merely by comparing G.P. rate with that of comparable dealer, when assessee had maintained proper books of account, and had furnished full details regarding purchases, sales and stock registers in which no defect whatsoever were pointed out.

It was also held that Income tax provisions nowhere authorises Assessing Officer, nor cast an obligations on assessee to prove a negative result; i.e., to prove that why profit was not at a particular rate. (A.Y. 1998-99)

*ITO v. Girish H. Mehta (2006) 153 Taxman 41 (Mag.)(Rajkot)(Trib.)*

**S. 145 : Assessment – Method of accounting – Stock valuation – Revaluation loss**

Reducing the value on non-moving stores by a fixed percentage is a recognised method and the resultant loss is an allowable expenditure.

*National Aluminium Company Ltd. v. Dy. CIT, (2006) 101 TTJ 948 (Cuttack)(Trib.)*

**S. 145 : Assessment – Method of accounting – Income from undisclosed sources – Addition**

The statement of the assessee admitting suppression of sales, provisions of section 145 were rightly invoked – CIT(A) having allowed partial relief by reducing the addition, no interference is warranted.

*Bhimraj Rajpurohit v. ITO (2006) 105 TTJ 899 (Jodh.)(Trib.)*

**S. 145 : Assessment – Method of accounting – Stock valuation – Uncleared Goods**

Held that addition made on account of excise duty in respect of uncleared finished goods lying in factory premises be excluded from value of the closing stock. (A.Y. 1995-96)

*Honda Sael Power Products Ltd. v. Dy. CIT (2006) 157 Taxman 128 (Mag.)(Delhi)(Trib.)*

**S. 145 : Assessment – Method of accounting – Accounts – Rejection**

Assessee having maintained proper stock register and quantitative details of consumption of raw material, provisions of section 145(3) were not applicable and trading addition was not justified. (A.Y. 1998-99)

*ACIT v. Protinkem (2006) 102 TTJ 604 (Amritsar)(Trib.)*

**S. 145 : Assessment – Method accounting – Revised return – Project completion method**

Where assessee filed original return of income and income was declared on basis of work-in-progress and, by filing revised return, assessee adopted method of accounting as project-completion method for working out profit, assessment had to be made as per revised return. (A.Y. 1995-96)

*Satish H. Patel v. Dy. CIT (2005) 93 TTJ 458 (Pune)(Trib.)*

**S. 145 : Assessment – Method accounting – Rejection of accounts – Day to day stock register**

Merely because day-to-day stock register is not maintained by assessee, provisions of section 145 cannot be invoked. (A.Y. 1992-93)

*Sha Devji Keshvji Ginning & Trading Co. (P.) Ltd. v. Dy. CIT (2005) 3 SOT 803 (Bang.)(Trib.)*

**S. 145 : Assessment – Method accounting – Rejection of accounts – Stock register**

Assessing Officer was justified in invoking provision of section 145 where assessee did not have any stock register nor correctness of quantitative tally was acceptable and in disallowing part of wastage claimed treating it as excessive.

*ACIT v. Sunder Chemicals & Agarbatti Works (P.) Ltd. (2005) 146 Taxman 11 (Mag.)(Delhi)(Trib.)*

**S. 145 : Assessment – Method accounting – Rejection of accounts – Manufacturing concern – Day to day stock register**

In case of manufacturing concern, in absence of stock register, true and correct profits cannot be deduced from method of accounting followed by assessee and in such a case trading results can be rejected though method of accounting is accepted by

Assessing

Officer.

**S. 145 : Assessment – Method accounting – Rejection of accounts – No defects in books**

Where Assessing Officer failed to point towards any defect in accounts whereby he was of opinion that income could not be properly deduced there from, Assessing Officer was not justified in rejecting book results. (A.Ys. 1989-90, 1990-91)

*V. Pinto & Co. v. Dy. CIT (2005) 3 SOT 634 (Bang.)(Trib.)*

**S. 145 : Assessment – Method accounting – Rejection of accounts – Sale to partner – Partner sold at a higher amount**

Where assessee sold certain goods to a partner who in turn sold them to another party at a higher amount, as deliberate attempt was made by assessee-firm to divert profits to partner by understating sale consideration, addition on account thereof was justified. (A.Y. 1995-96)

*ITO v. Allied Metal Engg. (2005) 2 SOT 81 (Delhi)(Trib.)*

**S. 145 : Assessment – Method accounting – Rejection of accounts – Summons not issued in spite of specific request by the assessee – Books could not be rejected [S. 131, 133 (6)]**

Where assessee had specifically made request to Assessing Officer to summon parties who had got their demand draft discounted through assessee, by exercising powers under section 131, but Assessing Officer ignored assessee's request, called for information under section 133(6) and rejected assessee's accounts, rejection of books of account could not be said to be justified. (A.Ys. 2000-01 & 2001-02)

*Meenakshi Devi (Smt) v. ACIT (2005) 96 TTJ 813 (Agra)(Trib.)*

**S. 145 : Assessment – Method accounting – Rejection of accounts – Hotel**

Where Assessing Officer rejected accounts maintained by assessee-hotel for various reasons and it was found that all reasons recorded by Assessing Officer for rejection of book results did not exist, nor he had pointed out any defect in books but simply chose to ignore them and adopted his own hypothetical exercise to estimate room tariff and restaurant receipts which assessee in his opinion ought to have earned, rejection of accounts was not justified. *Hotel Hilltone (P.) Ltd. v. ACIT (2005) 97 TTJ 969 (Jodh.)(Trib.)*

#### **S. 145 : Assessment – Method accounting – Rejection of accounts – Spare parts**

Where assessee was engaged in business of sale and purchase of accessories and spare parts, non-maintenance of quantitative details of spare parts could not be a ground for rejection of books of account and Assessing Officer was not justified in rejecting books of account without pinpointing specific defects and thereby making an ad hoc addition when discrepancies which were found by Assessing Officer were duly reconciled before lower authorities. (A.Y. 1995-96)

*ACIT v. L.M.P. Tractors (P.) Ltd. (2005) 148 Taxman 52 (Mag.)(Ahd.)(Trib.)*

#### **S. 145 : Assessment – Method Accounting – Estimation of profits – Defects**

Assessing Officer cannot estimate income at figures which do not bear any relationship with past history of case and without pointing out any specific defects in books. (A.Y. 2001-02)

*ITO v. Somsons & Co. (2005) 148 Taxman 21 (Mag.)(Amritsar)(Trib.)*

#### **S. 145 : Assessment – Method accounting – Estimation of Profits – Comparable GP rate**

Rejection of book results and application of provisions of section 145 was not justified merely on ground that GP shown by some other assessee was better than GP shown by assessee, more so when GP shown by assessee was higher than GP shown in earlier assessment year.

#### **S. 145 : Assessment – Method accounting – Estimation of profits – Onus**

If profits shown by assessee in his return are not accepted, it is for taxing authorities to prove that assessee made more profits and ITO could not proceed to make an arbitrary addition. (A.Y. 1996-97)

*Dy. CIT v. Nikko Auto (P.) Ltd. (2005) 145 Taxman 42 (Mag.)(Delhi)(Trib.)*

**S. 145 : Assessment – Method accounting – Estimation of profits – Reasonable**

When defects are found in accounts, total turnover/sales can be estimated proportionately after invoking provisions of section 145; however, while applying G.P. rate, Assessing Officer is required to make rational estimate having regard to nexus of material on record.

Where while applying higher GP rate in respect of country liquor sold by assessee Assessing Officer relied upon case of a Jaipur dealer, Assessing Officer grossly erred in relying upon case of third party whose premises was situated in Jaipur whereas area of operation of assessee was rural area. (A.Y. 2000-01)

*Rajaram Rajender Bhandari & Party v. ACIT (2005) 95 TTJ 97 (Jp.)(Trib.)*

**S. 145 : Assessment – Method Accounting – Estimation of profits – Jeweller**

Where in case of assessee-jeweller additions were made by invoking section 145 on ground that labour register produced before Assessing Officer was written in one day and, therefore, same was not reliable and in that register assessee had mentioned only names of persons without addresses who had ordered for making of ornaments and, hence, it was also not verifiable, addition was justified. (A.Y. 1994-95 to 1996-97)

*ITO v. Prakashchand Soni (2005) 94 TTJ 631 (Indore)(Trib.)*

**S. 145 : Assessment – Method accounting – Estimation of profits – Garments**

Where in case of retailer of cloth and garments, same Assessing Officer had accepted assessee's gross profit rate in earlier and subsequent years and no other comparable case where Gross Profit rate was higher was shown, addition made by him by substituting his own gross profit rate, was not justified. (A.Y. 1993-94)

*ACIT v. Rakesh Binny Show Room (2005) 147 Taxman 97 (Mag.)(Amritsar)(Trib.)*

**S. 145 : Assessment – Method accounting – Estimation of profits – Project completion method**

Where assessee was consistently following the project-completion method which was accepted by the revenue in the past and subsequent years, in absence of any adverse comments by auditors, who had audited books of account of the assessee, Assessing Officer had no power to rewrite books of account and to estimate income on mere doubts and suspicion, on ground that since assessee was contractor and not builder, it could not follow project-completion method. (A.Y. 1994-95)

*Abode Construction Ltd. v. ITO (2005) 2 SOT 27 / 95 TTJ 35 (Mum.)(Trib.)*

**S. 145 : Assessment – Method accounting – Estimation of profits – Construction**

Where assessee-company undertook a project for construction /development of residential complex and during year under construction modified its method and basis

followed for recognition of profits, from completed-project method, to recognition of profits during currency of project, so as to pay tax during currency of project on estimate basis, such change could not be equated with a change in method of accounting and as such Assessing Officer was not justified in holding that such change was impermissible and in estimating profits on mercantile method of accounting. (A.Y. 1993-94)

*Dy. CIT v. Conwood Agencies (P.) Ltd. (2005) 2 SOT 573 (Mum.)(Trib.)*

#### **S. 145 : Assessment – Method accounting – Estimation of profits – Reasonable**

Where assessee-firm purchased firewood from nearby villages and supplied it to a company using its own lorry, estimation of profit rate of 7.5 per cent of gross receipt would be proper. (A.Ys. 1996-97, 1997-98)

*Dy. CIT v. Nidhish Trading Co. (2005) 3 SOT 486 (Cochin)(Trib.)*

#### **S. 145 : Assessment – Method accounting – Valuation of stock – Accounting Standards**

Since as per Accounting Standard-2, issued by Institute of Chartered Accountants of India, for purpose of valuation of closing stock of finished goods selling price is to be reduced by estimated gross profit, such a recognised method of valuation cannot be disturbed unless it is known that valuation has not been made correctly. (A.Y. 1992-93)

*Artson Engg. Ltd. v. Dy. CIT (2005) 142 Taxman 40 (Mag.)(Mum.)(Trib.)*

#### **S. 145 : Assessment – Method accounting – Valuation of stock – Dissolution**

In a case where on death of one of two partners, firm was dissolved and business was taken over and continued by the sole remaining partner in individual capacity and neither there was any distribution of assets and liabilities of erstwhile firm nor business ceased to continue as one unit, value of stock shown by assessee at average price could not be rejected. (A.Y. 1997-98)

*ACIT v. Kuldip Chand & Sons (2005) 93 ITD 253 / 94 TTJ 1111 (Amritsar)(Trib.)*

#### **S. 145 : Assessment – Method accounting – Valuation of stock – Conversion of proprietary concern in to firm**

Where proprietary concern of assessee is converted into partnership firm and subsequently, business is continued by partnership firm, stock-in-trade should be valued at cost or market price whichever is lower. There was no cessation of business. The Tribunal held that the ratio of *Sakthi Trading Co v. CIT (2001) 250 ITR 871 (SC)*, is applicable in the instant case, therefore the Assessing Officer was directed to value the stock in trade at cost or market value price, which ever was lower after obtaining requisite details from the assessee. **S. 147 : Reassessment – Exempted income – Proviso to S. 14A – Validity**

For A.Y. 2000-01, the assessee filed a return on 30.11.2000. As section 14A was inserted subsequently by FA 2001 (w.r.e.f 1.4.62) and was tabled in Parliament on 28.2.2001, the assessee did not make any disallowance under section 14A. The Assessing Officer also did not make a disallowance in the section 143(3) order passed on 7.3.2003. After the expiry of 4 years, the Assessing Officer sought to reopen the assessment to make a disallowance under section 14A. The assessee challenged the reopening on the ground that (i) under the Proviso to section 14A, a reopening under section 147 for A.Y. 2001-02 & earlier years was not permissible, (ii) as section 14A was not on the statute when the ROI was filed, there was no failure to disclose & (iii) as the Assessing Officer had also sought to rectify under section 154, he could not reopen under section 147. The High Court (197 TM 415) dismissed the Writ Petition inter alia on the ground that "the Proviso to section 14A bars reassessment but not original assessment on the basis of the retrospective amendment. Though the ROI was filed before section 14A was enacted, the assessment order was passed subsequently. The Assessing Officer ought to have applied section 14A and his failure has resulted in escapement of income. The object and purpose of the Proviso is to ensure that the retrospective amendment is not made as a tool to reopen past cases

which have attained finality". On appeal by the assessee to the Supreme Court, HELD dismissing the SLP:

In our view, the re-opening of assessment is fully justified on the facts and circumstances of the case. However, on the merits of the case, it would be open to the assessee to raise all contentions with regard to the amount of `98.46 lakhs being offered for tax as well as it's contention on section 14A of the Income Tax Act, 1961. Under Circular No. 549 dated 31-10-1989, the Assessing Officer has no power to review but only to reassess. After amendment of 1989, the Assessing Officer can reopen assessment provided he has "reason to believe" that income has escaped assessment, based on tangible material. Mere "change of opinion" does not empower the Assessing Officer to review assessment in the garb of reassessment. ### **S. 147 : Reassessment – Reopening – Jurisdiction of High Court**

The Commissioner (Appeals) confirmed the order of the Assessing Officer that the income is to be assessed as income from house property for the A.Y. 1997-98. The CIT(A) also directed that the A.Y. 1992-93 to 1999-00 should be reopened. The Tribunal reversed the order of the CIT(A) and held that the income is in the nature of business income and not income from house property. The High Court in the challenge to the reopening allowed the petition of the assessee.

On an appeal by the department, the Supreme Court held that it was not open for the High Court to direct by an omnibus order that all subsequent years were connected years and that all income should be treated as business income. The Supreme Court further held that the unit for assessment was a 'year' and this was not a case of block assessment. (A.Ys. 1992-93 to 1999-2000)

### **S. 147 : Reassessment – Change of opinion – Intimation [S. 143(1)]**

The intimation under section 143(1) cannot be treated as an order of assessment. The distinction between intimation and assessment is also brought out by the statutory provision as they stood at different points of time. Prior to April 1, 1989, the assessing officer had to pass an assessment order if he decides to accept the return, but under the amended provision, the requirement of passing the order has been dispensed with and instead only an intimation is required to be send.

As there is no assessment, the question of change of opinion does not arise.

Further, what is required at the time of the issue of notice under section 147 is reason to believe that the income has escaped assessment but not the established act of escapement of income. (A.Y. 2001-02)

### **S. 147 : Reassessment – Reasons not asked – Power of ITAT – Direction to AO**

While the Assessing Officer is required to record reasons, Law does not mandate the Assessing Officer to suo moto supply the reasons to the assessee. It is for the assessee to demand the reasons and raise objections to the reopening which the Assessing Officer is required to dispose of by passing a speaking order. As the assessee did not ask for the reasons and instead participated in the reassessment proceedings, the Tribunal could not have restored the matter back to the file of the Assessing Officer and give another opportunity to the assessee to raise objections to the "reasons to believe" recorded by the Assessing Officer. It is trite that what cannot be done directly, it is not allowed indirectly as well. This novel and ingenuousness

method adopted by the Tribunal in setting aside the reassessment orders on merits cannot be accepted.

However, also held that as the assessee had challenged the validity of reassessment before the CIT(A), it ought to have been provided with the reasons and so the matter was remitted for supply of reasons. (A.Ys. 1996-97 and 1997-98)

Though Explanation 3 to section 147 inserted by the F.A. 2009 w.e.f 1.4.1989 permits the Assessing Officer to assess or reassess income which has escaped assessment even if the recorded reasons have not been recorded with regard to such items, it is essential that the items in respect of which the reasons had been recorded are assessed. If the Assessing Officer accepts that the items for which reasons are recorded have not escaped assessment, it means he had no “reasons to believe that income has escaped assessment” and the issue of the notice becomes invalid. If so, he has no jurisdiction to assess any other income. (Jet Airways 331 ITR 236 (Bom) followed).

#### **S. 147 : Reassessment – Despite “Wrong Claim” – Invalid if failure to disclose not alleged**

It is necessary for the Assessing Officer to first state that there is a failure to disclose fully and truly all material facts. During the course of assessment proceedings for A. Y. 2001-02 & 2002-03, assessee's claim for deduction under section 80HHC was allowed. After the expiry of four years from the end of relevant assessment year an amendment to section 80HHC was brought with retrospective effect from 01-04-1998. It was admitted position that the conditions were not therein at the time of filing of return nor at the time of original assessments. Assessing Office issued notice under section 148. The Tribunal, on examination of material on record, concluded that all the relevant facts were available on record and that it cannot be said that assessee had failed to disclose fully and truly all material facts, and thus no reopening could be done. Held that, the Tribunal rightly concluded that proviso to section 147 could not be invoked merely because there was an amendment in future which was introduced retrospectively and covered period in question, and thus Tribunal order has to be confirmed. **S. 147 : Reassessment – Income escaping assessment – Search – No seizure**

During the search no books of account or documents or money or bullion or jewellery or any other valuable articles or things were found. It was a solitary statement of the assessee, which too was retracted immediately thereafter. Furthermore, apart from the statement there were no particulars coming forward namely who were the dummy subscribers, whether shares from the so-called dummy subscribers were transferred in the name of the assessee or assessee remained the benami owner thereof and was in the control and possessions of those shares, etc. No such questions were even put by the Assessing Officer to the assessee after recording the statement. Thus the only material for issuance of notice under section 148 was the statement recorded under section 132(4). Even if the statement was to be believed, that would have been the basis for issuing the notice for A. Y. 1995-96 and not A. Y. 1994-95. It was merely a figment of imagination on the part of the CIT(A) that statement should not be believed to the extent that that cash was paid in the current financial year i.e. 1994-95 as normally such cash is paid at the time of purchase of shares by the so called dummy subscribers. It was not even recorded in the 'reasons to believe' by the Assessing Officer. Therefore, the order of the CIT(A) on that aspect was clearly erroneous and justifiably set aside by the Tribunal. (A. Y. 1994-95)

**S. 147 : Reassessment – “Full & true disclosure of material facts” means “specific” disclosure of “each” fact – Long term capital gain [S. 54EC]**

The assessee entered into an agreement in July, 2001 for sale of development rights for ` 39 crores. The transfer was in December, 2003. The assessee computed LTCG of ` 23.19 crores. The assessee invested in eligible bonds between Feb., & June 2002 (after the agreement to sell but before the transfer) and claimed exemption under section 54EC. During the assessment proceedings, the Assessing Officer asked for a copy of the agreements with the purchaser and other details which the assessee furnished. A copy each of the section 54EC bonds (which gave the dates of investments) was also furnished. The Assessing Officer allowed the deduction as claimed. After the expiry of 4 years from the end of the assessment year, the Assessing Officer issued a notice under section 148 claiming that as the investments were made prior to the date of transfer (Dec., 2003), section 54EC deduction was not admissible. The assessee filed a Writ Petition to challenge the reopening on the ground that there was no failure on its part to make a full and true disclosure of material facts. HELD dismissing the Petition:

- (i) “Full and true disclosure of material facts” means that the disclosure should not be garbled or hidden in the crevices of the documentary material which has been filed by the assessee with the Assessing Officer. The assessee must act with

candor. A full disclosure is a disclosure of all material facts which does not contain any hidden material or suppression of fact. It must be truthful in all respects;

- (ii) On facts, though the Assessing Officer enquired into the matter and the assessee furnished a copy of the section 54EC bonds (from which the dates of allotment/ investment were evident), there was no (specific) reference by the assessee to the dates on which the amounts were invested in the section 54EC bonds. Also, it was evident that the Assessing Officer had not applied his mind to the issue of section 54EC exemption. Accordingly, the Assessing Officer was justified in reopening the assessment.

**S. 147 : Reassessment – Retrospective amendment does not mean failure to disclose material facts – After four years [S. 80HHC]**

After the expiry of four years from the end of the assessment year, the Assessing Officer re-opened the assessment under section 147 by relying on the retrospective amendment to section 80HHC by the Taxation Laws (Amendment) Act, 2005 w.e.f. 1.4.1998. The CIT(A) and Tribunal (included in file) struck down the reopening. On appeal by the department, HELD dismissing the appeal:

The assessment was sought to be reopened on account of retrospective amendment to section 80HHC introduced by the Taxation Laws Amendment Act, 2005 with effect from 1st April, 1998. If the legislature amends the provisions of the Act with retrospective effect, it cannot be said that there was failure on the part of the assessee to disclose fully and truly all material facts relevant for the purpose of assessment.

**S. 147 : Reassessment – Non disclosing of primary facts – Exemption – Change of opinion – Within four years**

Assessee company was engaged in domain name registrations and website hosting services. For the Assessment years 2002-03 and 2004-05, it claimed deduction under section 10A. Assessing officer disallowed the said claim. In appeal Commissioner (Appeals) allowed the claim, which had become final. On the basis of that the Assessing Officer allowed the claim for the Assessment years 2004-05 to 2006-07. For the Assessment year 2007-08 the assessee did not make the claim as the returned income was loss. Subsequently the Assessing officer issued notice under section 148 on the ground that domain registration service did not fall under category of web site services. The Court held that since reasons furnished for reopening of assessment did not contain any new tangible material or a reference to any new facts which had come on record and which were not present to mind of Assessing Officer when earlier assessments were finalized, it could be said that Assessing Officer sought to reopen the assessment for assessment years 2006-07 and 2007-08 purely

on basis of a change of opinion which is not sustainable in law. Accordingly notice under section 148 dated 18th March 2011 was set aside. (A Ys 2006-07 & 2007-08).

**S. 147 : Reassessment – Non disclosure of primary facts – Change of opinion – Share from AOP – Survey – With in four years [S. 167B(2)]**

Assessing Officer after considering all relevant documents passed assessment order. However, thereafter Assessing Officer issued notice for reopening assessment on ground that documents seized during survey at assessee's premises revealed that assessee had received its share from gross sale proceeds and not from share of profits against surrender of development rights in land. The Court held that when the revenue had evidently treated AOP as a valid entity in law and had brought it to tax in order of assessment for assessment year 2007-08 and material relied upon by Assessing Officer for reopening assessment had been submitted during original assessment proceeding, reopening of assessment was unjustified. **S. 147 : Reassessment – Failure to disclose – Lapses by Assessing Officer – Assessing Officer must specify what facts are failed to be disclosed – Lapse by Assessing Officer no ground for reopening if primary facts disclosed**

In A.Y. 2001-02, the Assessing Officer assessed advances of ₹ 1.56 crores received from a group concern as "deemed dividend" under section 2(22)(e). In appeal, the CIT(A) held that the advances received in earlier years could not be assessed. The Assessing Officer thereafter reopened the assessment for A.Y. 1999-00 (after 4 years from the end of the AY). Though the Assessing Officer alleged that there was a failure on the part of the assessee to disclose full and true material facts, he did not specify what that failure was. The reopening was upheld by the CIT(A) & the Tribunal. On appeal to the High Court, Held allowing the appeal:

- (i) In AY 1999-00, the Assessing Officer inquired into the details of advances received but did not make any addition under section 2(22)(e). If the Assessing Officer fails to apply legal provisions, no fault can be attributed to the assessee. The assessee is merely required to make a full and true disclosure of material facts but is not required to disclose, state or explain the law. A lapse or error on the part of the Assessing Officer cannot be regarded as a failure on the part of the assessee to make a full and true disclosure of material facts;
- (ii) Though the recorded reasons state that the assessee had failed to fully and truly disclose the facts, they do not indicate why and how there was this failure. Mere repetition or quoting the language of the proviso is not sufficient. The basis of the averment should be either stated or be apparent from the record;
- (iii) Explanation (1) to section 147 which states that mere production of books is not sufficient does not apply a case where the Assessing Officer failed to apply the law to admitted facts on record.

(iv) The allegation that the assessee did not disclose the true and correct nature of payment received from the sister concern nor disclosed the extent of holding of the sister concern so as to enable the Assessing Officer to apply his mind regarding section 2(22)(e) is not acceptable. The assessee had filed statement of accounts of each creditor and indicated them to be sister concerns. The primary facts were furnished. The law does not impose any further obligation of disclosure on the assessee (CIT v Burlop Dealers Ltd. 79 ITR 609 (SC) followed). (A. Ys. 1999-2000 & 2000-01)

**S. 147 : Reassessment – Change of opinion – Revised statement beyond the statutory period under section 139(5) [S. 139(5), 148]**

On receipt of notice under section 142(1), the assessee filed a revised statement of total income at ` 99,45,288, which included capital gains of ` 95,14,653 as against the originally declared income of ` 1,34,47,493 and capital gain of ` 1,30,21,230/-. The assessment was completed accepting the revised statement. The assessment was reopened on the ground that the assessee was not entitled to file revised statement beyond the statutory period under section 139(5). The Court held that an opinion having been formed on the very issue on which the assessment is sought to be reopened and that too only issue, it can only be viewed as a change of opinion on the part of the successor Assessing Officer, hence reopening is valid. It was found that earlier years the expenses were allowed under section 143(3), therefore in the absence of any fresh material before the Assessing Officer, reopening of assessment on the basis of material which was already taken in to consideration by the Assessing Officer at the time of original assessment was not valid. **S. 147 : Reassessment – Failure to disclose material facts – After four years – Limitation – Effect of section 149(1)(b). [S. 149(1)(b)]**

Section 149 of the income-tax Act 1961, merely prescribes the maximum time limit for issuance of notice under section 148 of the Act based upon the amount involved. The provision does not in any manner override the proviso to section 147 of the Act, after the expiry of four years from the end of the relevant assessment year unless the conditions stipulated there under are satisfied, therefore even in those cases falling under clause (b) of sub-section (1) of section 149 of the Act, if the notice under section 148 is issued beyond a period of four years but within a period of six years from the end of the relevant assessment year, for the purpose of invoking section 147 of Act, the requirements of the proviso, namely, that there should be failure on the part of the assessee to disclose fully and truly all material facts necessary for his assessment still requires to be satisfied. **S. 147 : Reassessment – Audit objection – If Assessing Officer disputes Audit objection, she cannot use that as “reason to believe”**

The Revenue Audit raised an objection that the assessee had made remittances to foreign parties without deduction of TDS under section 195 and that the expenditure ought to have been disallowed under section 40(a)(i). In reply, the Assessing Officer wrote back stating that as the amounts remitted to the foreign parties were not

chargeable to tax in India, the assessee was under no obligation to deduct tax under section 195 and that the expenditure was not disallowable under section 40(a)(i). However, she still issued a notice under section 147 and reopened the assessment to disallow the said expenditure. The assessee filed a Writ Petition to challenge the reopening. Held allowing the Petition:

Under section 147, it is only the Assessee Officer's opinion with respect to the income escaping assessment which is relevant for the purpose of reopening an assessment. While it is true if the audit party brings certain aspects to the notice of the Assessing Officer and thereupon, the Assessing Officer forms his own belief, it may be a valid basis for reopening assessment, the mere opinion of the Audit Party cannot form the basis for the Assessing Officer to reopen an assessment. On facts, the Assessing Officer had categorically come to the conclusion that the objection of the audit party was not valid and that the assessee's explanation with respect to non-requirement of collection of TDS was required to be accepted. Accordingly, the Assessing Officer could have no "reason to believe" that income had escaped assessment and so the section 148 notice was without jurisdiction.

During the year under review assessee has entered in to financial restructuring with lenders, according to which the lenders have agreed to waive / forego accumulated finance cost to the tune of ` 20,58,24,991. This accumulated finance cost was credited to the work in progress account to that extent the company has contingent liability the amount of which is unascertainable. The assessment was completed under section 143(3), after detailed scrutiny. Assessing Officer reopened the assessment, on challenge before the High Court, the High Court held that Assessing officer reopened the assessee's assessment without referring to any failure on the part of the assessee to disclose material facts or making any allegation of suppression on the part of the assessee, and in fact, relying upon a disclosure made in one of the notes forming part of the accounts as stated in the reasons recorded by him, Assessing Officer clearly acted in excess of his jurisdiction in reopening the assessment beyond four years. (A. Y. 2004-05).

**S. 147 : Reassessment – Sanction – Commissioner – Joint Commissioner – Not a curable irregularity – Sanction of Commissioner instead of Joint Commissioner renders reopening invalid. [S. 148, 151(2), 292B]**

The Assessing Officer issued a notice under section 148 to reopen an assessment. As section 143(3) order had not been passed & 4 years had elapsed, the Assessing Officer ought to have obtained the sanction of the Joint / Additional CIT under section 151(2). Instead, he routed the file through the Additional CIT and obtained the sanction of the CIT. On appeal by the assessee, the Tribunal struck down the reopening on the ground that correct sanction had not been obtained. On appeal by the department, Held upholding the Tribunal:

(i) Section 151(2) requires the sanction to be accorded by the Joint/Additional CIT. The Assessing Officer sought the sanction of the CIT. Though the file was routed through the Addl. CIT, the latter only made an endorsement "CIT may kindly accord sanction". This showed that the Addl. CIT did not apply his mind or gave any sanction. Instead, he requested the CIT to accord approval. This is not an irregularity curable under section 292B;

(ii) The different authorities specified in section 116 have to exercise their powers in accordance with law. If powers conferred on a particular authority are arrogated by other authority without mandate of law, it will create chaos in the administration of law and hierarchy of administration will mean nothing. Satisfaction of one authority cannot be substituted by the satisfaction of the other authority. If the statute requires a thing to be done in a certain manner it has to be done in that manner alone. Also, the designated authority should apply his independent mind to record his satisfaction and it should not be at the behest of a superior authority.

**S. 147 : Reassessment – Assessing Officer raised specific and pointed queries in section 143(3) assessment – Assessing Officer cannot be said to have formed any opinion if explicit opinion not recorded**

The question of change of opinion arises when the Assessing Officer forms an opinion and decides not to make an addition and holds that the assessee is correct. Here, though the Assessing Officer had asked specific and pointed queries there was no discussion, ground or reason why addition was not made in spite of the assessee's failure to furnish confirmation and details to that extent. The argument that when the assessment order does not record any explicit opinion on the aspects now sought to be examined, it must be presumed that those aspects were present to the mind of the Assessing Officer and had been held in favour of the assessee is too far-fetched a proposition to merit acceptance.

The term "failure" on the part of the assessee is not restricted only to the income-tax return but extends also to the assessment proceedings. If the assessee does not disclose or furnish to the Assessing Officer complete and correct information and details it is required and under an obligation to disclose, there is a failure on its part.

The assessee had set apart certain amount under the directive of a statutory authority in each of the assessment years that is A.Y. 1997-98 to 1999-2000. This fact was disclosed by the assessee in the return of income. In all the assessment years, during original assessment proceedings the issue with respect to the fund was specifically noticed by the Assessing Officer. On these facts the Court held that

reopening of assessment of all the years on the ground that the amount spent out of the fund was not an allowable deduction amounted to a mere change of opinion which is not permissible. The Court further observed that, the assessing officer has been given power to reassess under section 147 upon certain conditions being satisfied, and the assessing officer does not have power to review. If such a change of opinion were to be permitted as a ground of reassessment then it would amount to granting a licence to the assessing officer to review his decision for which he does not have under the provision of section 147. **S. 147 : Reassessment – After four years, valid – Audit report and annexures**

Prima facie to claim benefit under section 80-IB of the Income-tax Act, 1961, on the relevant date one of the requirements was that the size of the plot of land should be a minimum of one acre. The size of the land was not mentioned in the return. Hence, there was no true disclosure of the exact size of the plot when the new construction commenced. In order to invoke the extraordinary jurisdiction of the court the petitioner must also make out a case that no part of the relevant material had been kept out from the Assessing Officer. The information was in the annexures and

consequently Explanation 2(c)(iv) of section 147 would apply. The reassessment proceedings after four years were held to be valid. (A.Y. 2001-02)

**S. 147 : Reassessment – After four years – Full & true disclosures – Work done – TDS certificates**

Assessment of an assessee cannot be reopened after four years, only on the ground that as per T.D.S certificate the work done was shown at a higher amount than the work done shown in the return of income filed by the assessee. The T.D.S. certificate is not concerned with the work done by the assessee. As such, it cannot be said that there was no failure on the part of the assessee to disclose truly and fully all the material information with respect to the particulars of its income.

**S. 147 : Reassessment – Assessment under section 143(1) – Within four years – Reasons to believe – Not valid [S. 143(1)]**

Original assessment order was made under section 143(1) and the re opening of the assessment was initiated within a period of 4 years, it was still necessary that there should be reasons to believe that income had escaped assessment and such reasons are subject to judicial scrutiny. There essentially have to be valid reasons to believe that income has escaped assessment and these reasons on standalone basis must be considered appropriate for arriving at the conclusion arrived at by the officer recording the reasons. In view of the above the initiation of reassessment

proceedings in the instant case by the Assessing Officer was held bad in law and the proceedings were quashed. (A. Y. 2001-02)

**S. 147 : Reassessment – Income from house property – Co-owner – Assessment [S. 22]**

Scheme of the Act does not envisage that annual value of co owned property, upon being determined in assessment of AOP, is to be divided amongst co-owners in pre determined ratio. In hands of AOP was wholly academic infructuous. Quantification of annual value of co-owned property in course of assessment of AOP consisting of co-owners is not a condition precedent for taxability of individual share of such income in hands of co-owners. The very initiation of reassessment proceedings in hands of AOP of co-owners was unsustainable by law. (A. Y. 2002-03).

**S. 147 : Reassessment – Valuation of property – Inspectors report**

Merely because the stamp valuation authority has adopted certain valuation for payment of stamp duty on the property purchased by the assessee, the same cannot be the basis to conclude that assessee's income has escaped assessment, particularly when no tangible material has been brought on record to suggest escapement of income except the inspector's report which could not be relied upon to ascertain the market value of property, hence, reassessment quashed by the CIT(A) was up held. **S. 147 : Reassessment – Non-disclosure of primary facts – Prima facie reason – Assessment under section 143(1) [S. 14A, 143(1)]**

What is necessary to reopen an assessment is not final verdict but a prima facie reason. Once reason is recorded by Assessing Officer and subject to other conditions laid down in enabling provision, Assessing Officer assumes jurisdiction to issue notice under section 148. Merely because for earlier assessment years issue in dispute has been decided by Commissioner (Appeals) in favour of assessee cannot be a fetter to Assessing Officer in exercising his jurisdiction under section 147. (A. Y. 1999-2000). *ACIT v. Tube Investments of India Ltd. (2011) 133 ITD 79 / (2012) 143 TTJ 658 / 13 ITR 619 / 66 DTR 153 (TM)(Chennai)(Trib.)*

**S. 147 : Reassessment – Brought forward business loss – Unabsorbed depreciation – Deduction – Export – Manner of computation [S. 80HHC]**

Assessee's claim for deduction under section 80HHC was allowed on amount of income before reducing brought forward business loss and unabsorbed depreciation hence, the Assessing Officer was justified in reopening assessment on that issue. Once assessment is reopened under section 147 on more than one point and one such point is finally taken in to consideration while determining the total income under section, read with section 147, it cannot be held that initiation of reassessment was illegal. Similarly when no escapement of income is found to have taken place on account of reasons which led to issuance of notice under section 148, then the Assessing Officer cannot assessee or reassess any other income which comes to his knowledge during course of reassessment proceedings, however if escapement of income is found in respect of any of reasons basis of which notice under section 148 was issued, then the jurisdiction of Assessing Officer to reassess any income which earlier escaped assessment and now comes to his notice during course of reassessment proceedings cannot be held to be invalid. In order to justify initiation of reassessment it is sine qua non that there must be some income which escaped assessment. Where the manner of computation done by assessee is incorrect but does not reduce total income or ultimate tax liability, it cannot be a case of escaping assessment covered under section 147. (A. Ys. 1999-2000 and 2000-2001). *Priya Ltd. v. ITO (2011) 133 ITD 38 / 58 DTR 166 (Mum.)(Trib.)*

The assessee in the first round of litigation did not raise the issue of reassessment, before the Tribunal although it was in appeal before the Tribunal on merits. The Tribunal held that, it is now well established that the issue of jurisdiction of the authorities is fundamental and is like the root of the proceedings or matter. The matter had not reached the finality and the dispute or defect as regards the jurisdiction got inbuilt in to the order and should, therefore always be subject matter for legal scrutiny, when questioned. After all the jurisdiction to authorities cannot be conferred by acceptance or negligence of the parties to the dispute. It can always be agitated or questioned when the assessee gets some opportunity over the issue. In a way that issue is always open to challenge even if the round is second or third. As long as the issue has not reached the finality, it is always open to question or challenge in judicial proceedings. (A.Y. 2001-02)

#### **S. 147 : Reassessment – Reason to Believe – Within four years**

Reassessment could be initiated within four years from the end of the relevant assessment year if the Assessing Officer has 'reason to believe' that the income has escaped assessment notwithstanding the fact that there was full disclosure of material facts on record. The assessee, in such cases, cannot defend the initiation of action on the ground that the material facts were disclosed on record and that the Assessing Officer must have or ought to have considered them during the original assessment. The powers to make assessment or reassessment, where the initiation has been made within four years from the end of the relevant assessment year, would be

attracted even in cases where there has been complete disclosure of material facts upon which a correct assessment might have been based in the first instance, and whether it is an error of fact or law that has been discovered or found out justifying the belief required to initiate the proceedings. **S. 147 : Reassessment – Re-opening – Acceptance under section 143(1) – Note to computation**

Assessee HUF filed Return without disclosing Capital Gain arising on sale of an agricultural land. However, Assessee disclosed the same by way of Note, below the Capital Account, stating that Capital Gain is not taxable, as deduction under section 54B is available on Gain being investment in another agricultural land, Return was originally accepted under section 143(1)(a), and later same was re-opened under section 148 on ground that Capital Gain is not included in the Return of Income. Held,

that as original assessment was completed under section 143(1)(a), no opinion was formed therein, and it can not be said that reassessment was on basis of change of opinion, and thus re-opening was justified.

Section 54 B : It was held that deduction under section 54B is available to all the Assessee. The word "assessee" is not qualified by any class of Assessee and HUF is eligible for deduction under section 54 B.

#### **S. 147 : Reassessment – Seized material – Independent Information**

Seized material cannot be used for purpose of Re-opening the assessment. Reopening has to be based on an independent information available justifying prima facie escapement of Income.

*ITO v. T. Mohan Rao (2007) 158 Taxman 35 (Mag.)(Chennai)(Trib.)*

#### **S. 147 : Reassessment – Reason to believe – Benami**

The bank account through which draft was received by assessee was benami, which was sufficient to form a belief that income of assessee had escaped assessment and therefore, initiation of reassessment proceedings was valid. (A.Y. 1998-99)

*Badri Vishal Aggarwal v. Dy. CIT (2006) 105 TTJ 418 (Delhi)(Trib.)*

#### **S. 147 : Reassessment – Change of opinion – After four years**

Reopening of assessment after 4 years from end of relevant Assessment year; i.e., beyond the time laid down, as well as on ground of merely change of an opinion can not be sustained. (A.Ys. 1994-95 and 1995-96)

#### **S. 147 : Reassessment – Explanation 2 – Book profit**

- (i) Incorrect determination of Investment Allowance to be carried forward to the succeeding years is an escapement of income by virtue of clause (c)(iv) of Explanation 2 to section 147.
- (ii) Validity of reopening does not depend upon quantum of finally assessed income. Therefore, merely because the 'Book Profit' computed under section 115J was still higher, after the reassessment, then the income computed under the normal provisions of the Act will not invalidate the reopening under section 147. ### **S. 147 : Reassessment – Loss – Negative figure**

- (i) Income for the purpose of reassessment cannot be a negative figure.
- (ii) Assessing Officer to close the reassessment proceedings on satisfying with the returned income, where the assessee had declared loss, as he cannot determine loss and allow thereby giving assessee a right to claim set-off in subsequent year to detriment of revenue and such act will be contrary to object, scope and ambit of section 147. **S. 147 : Reassessment – Intimation [S. 143(1)(a)]**

Processing of a return under section 143(1)(a) cannot be equated with an assessment and it cannot be said that Assessing Officer, who had processed return under section 143(1)(a), had formed an opinion and as no opinion is formed, it cannot be said that there is a change in opinion if Assessing Officer subsequently reopens assessment completed under section 143(1)(a) based on information given by audit. **S. 147 : Reassessment – Intimation [S. 143(1)(a)]**

There is no merit in plea that Assessing Officer having issued an intimation under section 143(1)(a) and having not issued a notice under section 143(2), within period of 12 months specified in the proviso to section 143(2), there resulted an order of assessment accepting return of income filed by assessee and such assessment cannot be reopened by Assessing Officer on a mere change of opinion and without forming requisite belief about escapement of income. **S. 147 : Reassessment – Intimation – Notice time under section 143(2) not expired**

**[S. 143(1)(a)]**

When a valid return is already on record, action under section 148, without first framing assessment under section 143(3), cannot be held a valid action; where Assessing Officer had issued intimation under section 143(1)(a) and thereafter instead of issuing notice under section 143(2) for which time-limit had not expired, he issued notice under section 148 on basis of same information received by him, such notice was invalid. **S. 147 : Reassessment – Rectification of mistake [S. 154]**

Assessing Officer has no jurisdiction to initiate proceedings under section 147 for taxing same income, which Assessing Officer had made subject-matter of proceedings under section 154, because an assessee cannot be subject to two types of proceedings at one time. (A.Y. 1996-97)

*Anil Gupta v. Assessing Officer (2005) 96 TTJ 798 (Delhi)(Trib.)*

**S. 147 : Reassessment – Rectification of mistake [S. 154]**

It is not necessary for Assessing Officer to exhaust other remedies available under Act before taking recourse under section 147 and, therefore, merely because proceedings under section 154 were dropped, reopening of assessment could not be said to be bad in law. Section 147 also empowers the assessing officer to assess such income which has escaped and which comes to his notice in the course of proceeding under section 147. (A.Y. 1998-99)

**S. 147 : Reassessment – Further Disclosure – Deduction – Netting [S. 80-I, 80 HH]**

Where assessment was reopened on ground that deduction under sections 80-I and 80HH was not properly computed as assessee also had interest income which was not considered at time of original assessment, since interest paid by assessee was more than interest earned and after netting, assessee had no positive income by way of interest, it could not be said that any income liable to tax had escaped assessment so as to justify reassessment as there was no failure on the part of assessee to disclose full and true material facts for assessment. **S. 147 : Reassessment – Exemption – Nexus between reasons recorded and income escaped [S. 10(23C)]**

Where assessee-stock-exchange had been allowed exemption under section 11 in original assessment, and subsequently assessment was reopened on basis of applicability of section 10(23C), issue relating to section 10(23C) could not be considered as a reason for coming to conclusion about escapement of income as assessee did not claim exemption under that section; there was absence of nexus between reasons recorded and belief about escapement of income; and, therefore reassessment was invalid. #### **S. 147 : Reassessment – Reason to believe – Change of opinion**

Where in original assessment Assessing Officer allowed assessee's claim under sections 80HHC and 80-IA in respect of short-term capital gains and interest on refund and, subsequently, Assessing Officer issued notice under section 148 to disallow excess relief, reassessment notice issued by Assessing Officer under section 148 was not on basis of change of opinion but on basis of excessive relief allowed to assessee and, therefore, was valid.

### **S. 147 : Reassessment – Validity – Change of opinion**

Where Assessing Officer had allowed deduction under section 80HHC on basis of audit report without discussing provisions of law or Schedule XII to Act, it could be said that he had not applied his mind and, therefore, subsequent reopening of assessment to withdraw that deduction did not fall under category of change of opinion so as to be invalid. Reopening of assessment to withdraw relief under section 80-IA merely by putting reliance on Commissioner's order under section 263 and without mentioning that there was escapement of income, was not justified. (A.Ys. 1995-96, 1997-98)

### **S. 147 : Reassessment – Bad debts – Disclosure of facts**

Where assessment completed under section 143(3) was reopened on ground that bad debts claimed in profit and loss account were wrong on account of absence of any outstanding debt in balance sheet of immediately preceding year, since Assessing Officer, at time of original assessment proceedings was aware of such 'bad debts', it could be said that Assessing Officer did not have reason to link escapement of income from assessment with non-disclosure by assessee of material facts at time of original assessment and, therefore, proceeding initiated after expiry of four years from end of relevant assessment year was barred by limitation.

#### **S. 147 : Reassessment – Reason to believe – Satisfaction**

Validity of notice issued under section 147 has to be judged on basis of materials available on record at time of initiation of proceedings and not with reference to materials or events becoming available after initiation; there is, therefore, no merit in contention that reassessment proceedings cease to be valid as soon as Assessing Officer finds that income which he wanted to tax through notice under section 147/148 was not taxable.

A material fact which is not in existence right up to the time of assessment cannot possibly be disclosed. Therefore, a fact which comes into existence subsequent to the making of the assessment cannot be a material fact within the purview of section 147. Merely signing the notices on a particular date cannot be equated with “issuance of notice” as contemplated under section 149. The date of issue would be the date on which the same was handed over for service to the proper officer, which in the present case would be the date on which the notices was actually handed over to the post office for the purpose of booking for the purpose of effecting service on the assessee. Where the assessment order does not contain any discussion on a particular issue, the same may be rendered without application of mind, and in that case, there is no question of change of opinion, in such cases mere production of books of account is also not sufficient as per section 147, Explanation 1 and therefore, reopening would be valid. **S. 148 : Reassessment – Notice for reassessment – Limitation – If there is no failure on the part of assessee – Assessment cannot be reopened after four years**

It was clear that there was no fault of the assessee. Even if it were deemed to be escaped assessment within the meaning of Explanation 2(c)(ii) of section 147, in view of the undisputed fact that there was no fault of the assessee, the delay could not be condoned. Limitation was applicable under the proviso appended to section 147. Limitation of four years had already expired. The reassessments were barred by time. The application of section 147 is subjected to the proviso as the proviso is qualified with the words "provided that". Therefore, by virtue of the proviso, the whole application of section 147 is dependent on the failure on the part of the assessee for the escaped assessment. It was not available where the fault was of the Assessing Officer and that could be corrected under section 154 where also the limitation of four years is provided for its application. Therefore, even the correction, if not termed as reassessment, was also barred by time. (A.Ys. 1991-92 to 1995-96)

**S. 148 : Reassessment – Notice for reassessment – Change of opinion – Sufficiency of reasons**

The reasons recorded by the Assessing Officer for reopening the assessment showed that neither was the explanation given by the assessee erroneous nor was there any other material/information on the basis of which a prima facie opinion was formed to the effect that by not increasing the book profit with the amount of the provision for

deferred taxation, income chargeable to tax had escaped assessment. Thus, the reopening of the assessment was not based on any material but merely on change of opinion without any basis. The notice under section 148 was not valid and was liable to be quashed. (A.Y. 2003-04)

**S. 148 : Reassessment – Non-supply of 'Reasons for Reopening' within the limitation period time – Reopening void**

Where the notice has been issued within the said period of six years but the reasons have not been furnished within that period is hit by the bar of limitation because the issuance of the notice and the communication and furnishing of reasons go hand-in-hand. A notice under section 148 without the communication of the reasons therefore is meaningless inasmuch as the Assessing Officer is bound to furnish the reasons within a reasonable time. The expression 'within a reasonable period of time' as used in GKN Driveshafts 259 ITR 19 (SC) cannot be stretched to such an extent that it extends even beyond the six years stipulated in section 149. **S. 148 : Reassessment – Notice – Sanction to issue – Chief Commissioner – After four years [S. 151]**

Original assessment was completed under section 143(3) on 29-1-2001. Subsequently, Assessing Officer who of rank of Assistant Commissioner (ACIT) initiated proceedings under section 147 vide notice dated 24-3-2005 issued under section 148, after obtaining approval from Joint Commissioner (Jt. CIT). As proceedings under section 147 were initiated after 4 years from relevant assessment year, assessee objected to jurisdiction of Assessing Officer in issuing notice under section 148 on ground that Assessing Officer had not obtained sanction of Chief Commissioner (CCIT) or Commissioner (CCIT). In view of *Shashi Kant Garg (Dr.) v. CIT (2006) 285 ITR 158 (All)*, objection raised by assessee was to be up held and consequently, impugned notice was quashed. (A. Y. 1998-99).

*ITO v. Bhavesh Kumar (2011) 131 ITD 1 / 59 DTR 145 / 140 TTJ 257 (TM)(Agra)(Trib.)*

**S. 148 : Reassessment – Notice – Reasons recorded**

When notice under section 148 is issued, Assessing Officer is bound to furnish reasons recorded with in a reasonable time after return has been filed so that assessee could file the objections if any. When so such reasons are furnished to assessee either along with notice under section 148 or at time when hearing are conducted but furnished only before assessment order is passed, such assessment is to be set aside and remanded back for re-adjudication after supplying copy of reasons recorded. (A. Y. 2005-06).

*Kaushalendra Pratap Singh v. ITO (2011) 133 ITD 111 (Kol.)(Trib.)*

### **S. 148 : Reassessment – Notice for reassessment – Validity – Jurisdiction**

The reassessment notice issued to the assessee by the Assessing Officer at Agra who had no jurisdiction over the assessee assessed at Delhi, not being an 'AO' qua the assessee within the meaning of section 2(7A) was void ab initio and was no notice within the meaning of section 148(1). Section 292BB is applicable w.e.f. 1st April 2008 and it does not apply to the year under consideration, i.e. A. Y. 2001-02. Further, section 292BB does not cure the jurisdictional defect in the notice. Reassessment notice being void ab initio, the assessee cannot be said to have acquiesced in any proceeding or enquiry within the meaning of section 292BB and, therefore, this defect is incapable of being cured by recourse to the provisions of section 292BB. (A.Y. 2001-02)

### **S. 148 : Reassessment – Notice for reassessment – After four years**

Once the assessee has disclosed fully and truly all material facts then notice under section 148 after four years is not valid. (A.Y. 1989-90)

*C. D. Singh v. ITO (2010) 129 TTJ 495 / 34 DTR 94 (Ahd.)(Trib.)*

### **S. 148 : Reassessment – Notice for reassessment – Not furnishing the recorded reasons before passing of the order – Order held to be illegal – Set aside**

When a notice is issued under section 148, first the assessee has to file the return of income and then ask for reasons recorded for issue of such notice. Once assessee requests for supply of reasons recorded, the assessing officer bound to supply the same within reasonable time. On the facts the assessing officer completed the assessment under section 143(3) / 147 without supplying the recorded reasons. As the assessing Officer has not followed the guidelines of the Apex court in GKN Driveshafts (India) Ltd. vs. ITO (2003) 259 ITR 19 (SC), the assessment order said to be invalid and the matter is set aside. ### **S. 148 : Reassessment – Notice for reassessment – Mandatory [S. 144]**

Where the Assessing Officer is not satisfied with the return filed by the assessee, assessment cannot be made validly unless notice under section 143(2) is issued. Assessing Officer having tinkered with the return filed by the assessee without issuing

notice under section 143(2), the assessment is invalid and void ab-initio, more so when the Assessing Officer had sufficient time to adhere to the mandatory requirement of service of notice under section 143(2) as well as for completing the assessment after dismissal of the writ petition filed by the assessee.

#### **S. 148 : Reassessment – Notice for reassessment – Recording of Reasons – Jurisdiction**

##### **[S. 292B]**

Reassessment made on the basis of notice under section 148 issued by an ITO who did not have jurisdiction over the assessee and non recording of reason by the Jurisdictional ITO and fresh notice from the latter is not valid. Provision of section 292B cannot be resorted to for curing such a jurisdictional defect. (A.Y. 2001-02)

#### **S. 148 : Reassessment – Notice for reassessment – Notice – Service – Approval**

##### **[Ss. 147, 148, Civil Procedure Code – Order 5 Rule 20]**

The notice was served only by affixture without attempting to serve notice on the assessee and there was not any noting in the record by the Assessing Officer that the assessee had refused to accept the notice through affixture. The Assessing Officer has not served the notice on the assessee in compliance with the provisions of Order 5 rule 20 of the Code of Civil Procedure, 1908, hence reassessment is bad in law. On the facts the notice was issued in March, 2003 and approval was obtained in October 2003. (A.Y. 1996-97)

#### **S. 148 : Reassessment – Notice for reassessment by affixture – Urgency – Conditions**

In the absence of anything to show that there was any urgency to serve the notice under section 148 on the very next day after it was issued or any material on record to show or suggest that any effort was made by the Assessing Officer to serve the notice in the normal course before issuing the directions to serve the same by affixture was not valid service. Section 292BB inserted w.e.f 1st April 2008, has not retrospective operation and therefore, it was no application for A. Y. 2001-02.

## **Section 150 : Provision for cases where assessment is in pursuance of an order on appeal, etc.**

### **S. 150 : Assessment – Order on appeal – Reassessment – Appeal effect – Limitation – Finding or Direction [S. 149]**

Assessment having not been reopened to give effect to the order of the CIT(A). According to the Assessing Officer because of giving effect to the order made by the CIT(A), will result in to escapement of income. The Court held that section 150 did not apply. As there was no failure on the part of assessee to disclose fully and truly all material facts, reassessment is clearly time barred. (A. Y. 1988-89).

### **S. 151 : Reassessment – Sanction for issue of notice – Limitation**

In cases covered under section 151, the notice is to be issued by the Assessing Officer and the only requirement is that the Jt. CIT should be satisfied on the reasons

recorded by the Assessing Officer. There was no satisfaction of the Jt. CIT for the Asst. Year 1989-90 to 1994-95, hence, notices for these years are invalid. (A. Ys. 1989-90 to 1994-95 and 1998-99).

**S. 153A : Assessment – Search or requisition – Search took place in August 2006. Assessment for the A.Y. 2004-05 pending on date of search – Assessment proceedings under section 153A not valid. Assessment order is void in view of circular No. 7 dated 5-9-2003**

The assessee filed his return of income Voluntarily under section 139(1) of the I.T Act, 1961 for the A.Y 2004-05 on 17-5-2004.

On 24th August, 2006 Search and Seizure operations were carried out at the office premises as well as at the residence of the assessee.

Held, that admittedly no notice as required under section 153A was issued for Six Assessment Years; i.e., from 2001-02 to 2006-07. On the date on which the search was initiated, the assessment proceedings were pending on the basis of the return filed by the assessee under section 139(1) of the Act. Consequently, the pending assessment proceedings stood abated by virtue of second proviso to Sec. 153A. Instead, Assessing Officer proceeded with the pending Assessment proceedings for the A.Y. 2004-05 and passed assessment order during the pendency of the writ petition. The entire action of Assessing Officer in proceeding with the assessment after search in contravention of the provisions of Sec. 153A was vitiated in law, and hence, Assessment Order dated 28-12-2006 purportedly passed under section 143(3)

in a pending Assessment Proceedings which stood abated was a nullity. (A.Y. 2004-05)

**S. 154 : Assessment – Rectification of mistake – Law in force when order was sought to be revised was made – Change of opinion**

The assessee claimed the power subsidy as capital receipt. Assessee's claim was not accepted by the Assessing Officer. However, under section 264, the CIT held that power subsidy was a capital receipt, as per order dt. 30-4-1997. Subsequent to

revision order, a Supreme Court judgment in Sahney Steel & Press Works Ltd. was delivered on 19-9-1997 holding that incentive subsidy linked to production was a revenue receipt. There upon the CIT made rectification under section 154 of his revision order passed under section 264 and consequently held that power subsidy was a revenue receipt. Assessee filed a writ petition before the High Court which was dismissed by the High Court. The Supreme Court held that the judgment in Sahney Steel Works was delivered after passing the revision order on 30-3-1997 by the CIT and that each case has to be examined in light of the facts of the case to determine the applicability of its decision in Sahney Steel's case. The rectification made under section 154 was held to be not valid. The High Court's order was set aside and assessee's appeal was allowed.

**S. 154 : Assessment – Rectification of mistakes – Salaries – Perquisites – Tax paid by employer – Merger [S. 15, 17]**

While computing assessee's original assessment, Assessing Officer did not include tax payment by employer to exchequer on behalf of employee as part of salary for

computing value of rent free accommodation perquisite under Rule 3. On appeal, Tribunal quashed of Assessing Officer for financial years 1995-96 to 1997-98, after grossing up income under section 195A and directed Assessing Officer to recomputed tax liability for said financial years. Order giving effect was also passed. However thereafter, Assessing Officer rectified assessment under section 154 by recomputing value of perquisite in rest of rent free accommodation after including tax element in gross salary. Assessee challenged the order on the ground that the issue being debatable and original order being merged with the order of Tribunal the Assessing Officer did not have jurisdiction to rectify the mistake under section 154. High Court held that when an earlier occasion, Tribunal had not at all considered aforesaid issue, doctrine of merger would not be applicable in instant case. When jurisdictional Court and other Courts had held at relevant time that income tax paid by employer on behalf of employee is part of salary, issue could not be said to be debatable and therefore, there was legal error apparent from record which was rightly corrected by Assessing Officer under section 154. (A. Ys. 1996-97 to 1998-99).

**S. 154 : Assessment – Rectification of mistake – Book profit – Not considering the statutory provision [S. 115JA]**

When original assessment is completed without reference to the statutory provision and in clear violation of the same, such assessment could be rectified under section 154. In order to allow deduction of brought forward business loss or unabsorbed depreciation in the computation of book profit under section 115JA, both should be available as per the accounts of the assessee. Since nothing is left after setting off brought forward business loss up to 1994-95 against profit, assessee was not entitled to any relief under clause (b) of Explanation (iii) of section 115JA for assessment year 1997-98. The Assessing Officer, after passing the Assessment Order realized that surcharge leviable on tax under section 113 has not been charged. The Assessing Officer passed an order under section 154 levying the surcharge. The order passed under section 154 was upheld in appeal by CIT(A). On an appeal, Tribunal vide its order dated 6-5-2005 held that non charging of surcharge could not be stated to be a mistake apparent from record, and that any issue which was debatable one, could not be subject matter of an order under Section 154. On an appeal by the Department the department relied on the decision of the Apex Court in the case of CIT vs. Suresh N. Gupta (2008) 297 ITR 322 (SC). The Hon'ble Court held that when the Tribunal passed the order the issue before it was a debatable one. Therefore, Tribunal order did not require any interference.

#### **Section 158B : Definitions**

##### **S. 158B : Block assessment – Definitions – Computation of undisclosed income – Belated filing of return – Disclosure of income [S. 132(4)]**

If the search under section 132 takes place after the due date of filing of normal return and no return is filed by that time, and the assessee is not able to demonstrate that he had disclosed his income to the department before the date of search in the some manner or the other, filing of return thereafter under section 139(4) would be of no consequence for the applicability of Chapter XIV-B and the income of the assessee is to be treated as undisclosed. (A. Y. 1999-2000)

*CIT v. A. T. Invofin India (P) Ltd. (2011) 335 ITR 370 / 237 CTR 360 / 49 DTR 141 (Delhi)(High Court)*

##### **S. 158B : Block assessment – Definitions – Undisclosed income – No material found – Declaration**

Where the assessee had maintained regular books of account and the returns of income were filed regularly before the date of search and no incriminating documents were found during the course of search addition on account of peak credit of farmer's account was beyond the scope of block assessment and liable to be deleted. (A.Y. 1995-96)

*CIT v. Rajendrakumar (2009) 24 DTR 191 / (2009) 178 Taxman 208 (MP)(High Court)*

##### **S. 158B : Block assessment – Definitions – Undisclosed income – Gift – Accounted**

Where the gift which the assessing officer added as undisclosed income of the assessee for the block period were duly disclosed in the return filed by him, the same were held to be outside the scope of block assessment and no addition was called for with respect to the said gifts.

**S. 158B : Block assessment – Definitions – Undisclosed income – Not a substitute for reassessment**

Assessment proceedings undertaken under Chapter XIVB are only in respect of undisclosed income, that is, income which has not been, or would not have been disclosed and which has been unearthed as a result of the search or requisition. The proceedings under Chapter XIV-B cannot be used as an opportunity to either reopen concluded assessments or to reassess the returned income by taking a fresh look at the disclosed facts and figures, unless, of course, they are found to be false as a result of the search or requisition. **S. 158B : Block assessment – Definitions – Undisclosed income – Advance tax – Accounting entry [S. 158BA]**

- a) Income attributable to the extent of Advance Tax paid cannot be considered as undisclosed Income.
- b) Cash credits appearing in the regular books, and for which no material found suggesting the same as bogus or in genuine cannot be considered as undisclosed income.

*N. R. Sudhir v. Dy. CIT (2007) 159 Taxman 87 (Mag.)(Bang.)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed income – Belated return – Streedhana S. 139(4) [S. 158BB (1)(ca)]**

Entries regarding loans from various parties were passed in the books of account maintained by the assessee. Return of income was not filed when the search took place, but the same was filed later on under section 139(4). Held that same cannot be termed as undisclosed income. Gold jewellery found equal to 500 grams per married woman and 250 grams per unmarried woman treated as 'Streedhan' (As per Board instruction No. 288/63/93-IT(Inv) II, dt. 11-5-1994) not part of undisclosed income.

**S. 158B : Block assessment – Definitions – Undisclosed income – Salary – Below taxable limit TDS [S. 158BA]**

Assessee in employment, not filed her return of income and tax was not deducted as salary was below taxable – Salary income could not be considered as undisclosed income. (A.Ys. 1990–91 to 2000-01)

*Sheila D'Souza v. Jt. CIT, Bench 'C', IT(SS)A No. 342/M/03, dated 10th July, 2006, BCAJ P. 154, Vol. 39-C, Part 2, November 2006 (Mum.)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed income – Unaccounted sales – KVP – Disclosure**

Addition in respect of undisclosed sales is to be made only to the extent of profit on such transaction and not of the suppressed sales.

Assessing Officer having made additions on accounts of undisclosed opening capital and undisclosed profits, separate addition of impugned expenditure which is debited in such books, could not be made.

Existence of HUFs of the assessee having been accepted and the HUFs having disclosed investments in KVPs in their balance sheets filed along with the returns and explained the source thereof, addition in respect of undisclosed investments in KVPs and interest accrued thereon could not be sustained in the hands of individual assessees.

*Bimal Kumar Singnania v. Dy. CIT (2006) 100 TTJ 790 (Kol.)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed income – Drawings for house hold expenses – Material not found – Construction cost – Excess stock – Verification – Third party's statement – Dumb paper seized**

Drawings disclosed by the assessee from time to time not being adequate to reflect the acquisition of expensive brands of air-conditioners, colour TVs, refrigerators, etc. found at residential premises of the assessee during the course of search, addition made by the Assessing Officer by making a reasonable estimate of the total price of such appliances was upheld.

In the absence of seizure of any material during the search indicating any unexplained expenditure on construction of house by the assessee, addition could not be made by the Assessing Officer in block assessment by estimating the cost of construction.

Search party having adopted a simplified and slipshod procedure for physical stock taking of enormous quantity of stock held by the assessee and completed the entire exercise within a few hours, the finding that excess stock was found during the course of search cannot be sustained despite the fact that some staff members of the assessee have put their signatures on the inventories prepared by the search party and, therefore, additions on account of alleged excess stock cannot be upheld.

Statement of a third party recorded after the completion of search could not be considered to be part or result of the search and therefore, additions could not be made solely on the basis of said statement as no incriminating material was discovered during the search.

Unsigned and undated papers seized from assessee's car being dumb documents having no evidentiary value, no addition could be made simply on the basis of notings

on such loose papers in the absence of any circumstantial evidence in the form of recovery of any unaccounted cash, jewellery or investment outside books.

### **S. 158B : Block assessment – Definitions – Undisclosed income – False Claims**

In order to bring deductions claimed by an assessee in its regular returns within scope of undisclosed income, assessing authority has to establish that claims made by assessee were false; degree of evidence necessary for establishing such falsehood is high; preponderance of probability alone is not sufficient.

*Sun Pharma Exports v. Dy. CIT (2005) 96 TTJ 415 (Mum.)(Trib.)*

### **S. 158B : Block assessment – Definitions – Undisclosed income – Cash and Jewellery**

Where cash and jewellery seized during search belonged to several persons, addition of same only in assessee's hands was not justified.

**S. 158B : Block assessment – Definitions – Undisclosed income – Repayment of loan**

Where assessee had not explained real source of repayment of certain loan and was hiding same, Assessing Officer was justified in making addition of said amount to income of assessee in block assessment.

*Nikky Enterprises (P.) Ltd. v. Dy. CIT (2005) 4 SOT 112 (Chennai)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed Income – Loose paper – Without signature**

Where during course of search at residence of assessee's husband, a piece of paper, without any date or signature, was found, no addition could be made to assessee's income on basis of such loose paper by treating some transactions noted on that paper as belonging to assessee.

*Bommana Swarna Rekha (Smt.) v. ACIT (2005) 94 TTJ 885 / 147 Taxman 59 (Mag.)(Visakha.)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed income – Loose paper – Affidavit**

Where though certain transactions were found noted on a piece of paper seized during search of assessee's premises but her husband by an affidavit admitted entries on said paper and same document had been considered by Settlement Commission in case of husband, addition to assessee's income based on said document was to be deleted.

*ACIT v. Parbhjot Kaur (2005) 97 TTJ 796 (Chd.)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed Income – Reconciliation**

Where assessee filed reconciliation statement before Assessing Officer in respect of differences found in sales figures as shown in document seized during search operation and in books of account of assessee and stated that it was due to fact that sales figures as found in seized document were inclusive of sales tax, the difference added by Assessing Officer as undisclosed income was to be deleted.

### **S. 158B : Block assessment – Definitions – Undisclosed Income – Company – Director**

Where assessee-director of a company had shown nexus between amount declared by company in which he was director as undisclosed income and investments made by him in WP and KVPs, such investments could not be treated as undisclosed income in assessee's hands.

*Dy. CIT v. Sunil Umashankar Rungta (2005) 94 TTJ 329 (Mum.)(Trib.)*

### **S. 158B : Block assessment – Definitions – Undisclosed income – Evidence before police**

Where assessee was a transporter of Naphtha from a depot of BPCL/HPCL to a factory, and there was no material/evidence on record found as a result of search, to support involvement of assessee in adulteration of petrol by mixing up Naphtha, addition could not be made to assessee's income on account of profits from adulteration of petrol merely on basis of evidence of certain witnesses before police, particularly without confronting assessee with such evidence and without giving him an opportunity of hearing.

*Anil Nagpal v. ACIT (2005) 94 TTJ 745 (Mum.)(Trib.)*

### **S. 158B : Block assessment – Definitions – Undisclosed income – No incriminating documents**

There is limited scope for estimated additions in a block assessment; in absence of any incriminating material to suggest that any transaction of purchase or sale was made by the assessee outside its books of account, found at the time of search, there was no justification to make any addition on that count.

*ACIT v. Santogen Textile Mills Ltd. (2005) 94 TTJ 637 / 147 Taxman 54 (Mag.)(Mum.)(Trib.)*

### **S. 158B : Block assessment – Definitions – Undisclosed income – Estimated sales**

Where on basis of search sales are estimated, sales are to be taken on basis of seized documents and sales are to be estimated only for year for which information or document has been found and seized; sales cannot be estimated for any other year.

*ACIT v. M. M. Sales Agencies (2005) 97 TTJ 575 (Jp.)(Trib.)*

### **S. 158B : Block assessment – Definitions – Undisclosed income – Allegation**

Where on facts it was found that assessee was merely a conduit for alleged undisclosed cash receipt from main group companies in whose case main search was held and that the money was actually routed back to company, addition of such sum as assessee's undisclosed income was not justified.

*Niranjan Thakur v. Jt. CIT (2005) 94 TTJ 253 (Mum.)(Trib.)*

### **S. 158B : Block assessment – Definitions – Undisclosed income – Advance tax – Deduction of tax at source – Return not filed on due date [S. 158BA]**

Where though no undisclosed income was found during search, income of assessee for assessment year 1998-99 declared by him in block assessment return was treated as undisclosed income as return was not filed in due time, since assessee had been assessed to tax on income, had paid advance tax thereon and was subjected to tax deducted at source, Assessing Officer, without bringing out any search material, was not justified in assessing assessee's income as undisclosed income.

*Dy. CIT v. Damodardas Jerambhai Wadhwa (2005) 2 SOT 98 (Kol.)(Trib.)*

**S. 158B : Block assessment – Definitions – Undisclosed income – Reference to S. 271(1)(c) Expl.5 – Telescoping**

For determining the scope of undisclosed income recourse to the provisions of Expln 5 to S. 271(1)(c) can not be taken, and the definition as given in S. 158B(b) will have to be followed.

Addition sought to be made on basis of slips, can be setoff against against unexplained cash found, as both being in respect of undisclosed business of the assessee.

**S. 158B : Block assessment – Definitions – Undisclosed income – Job work – Ancestral – Unaccounted expenditure – Sales – Net profit**

Jewellery found in shop of assessee jeweller, which was stated to be for repairing, but not entered in repairing register, cannot be treated as undisclosed Income, by merely disbelieving the statement.

Addition on account of value of Jewellery, claimed to be an ancestral, made on ground that members of family were not wealth Tax assessee, was not justified.

Unexplained expenditure incurred for business purpose, and not recorded, can not be added deeming the same as Income.

Held, Addition made taking total sales value as an income would be unjustified, and only net profit rate should be applied on sales outside books of account.

**S. 158BA : Block assessment – Undisclosed income – Stock**

It was noticed on verification that there was no noting or computation to show that there was deficit of physical stock at time of search when compared to book stock. It was also noted that basic variables of computing stock position themselves were estimates assumed by the Assessing Officer. Also the partner who had initially deposed before the revenue authorities against the assessee firm, did not turn up for cross examination and thus the evidentiary value built on statement of the said person collapsed. In view of the above facts, the impugned addition made by the authorities were held not sustainable. (A. Y. 1989-90 to 1998-99)

**S. 158BB : Block assessment – Computation – Undisclosed income – Estimation – Appraisal**

The word 'computation' compared to the word 'assessment' bears a narrower meaning. It is the process of computation of the income. for the purposes of assessment. The word 'estimate' means the 'the action of valuing or appraising an approximate calculation based on probabilities'. The word 'appraisal' means 'the act of appraising; the setting a price' 'appraise' means, to fix a price, especially as an official valuer, to estimate the amount, or worth of where as 'appraisement' means the action of 'appraising by an official appraiser estimate value estimate of worth generally. Under the block assessment scheme the assessing officer compute the income he does not estimate or appraise the income from the business. Block assessment under search and seizure procedure can not proceed on conjecture and /or surmises and arrive an estimation instead of computation. (A.Ys. 1986-87 to 1995-96)

#### **S. 158BB : Block assessment – Computation – Undisclosed income – Telescoping**

In the case of assessee's brother, the Tribunal having accepted the plea that unaccounted advances made out of undisclosed income are irrecoverable and allowed telescoping of the unrecovered amount against the undisclosed income assessed on the basis of unencashed cheques which were found in the course of search, similar addition of undisclosed income made in the case of assessee on identical facts cannot be sustained. (A.Y. 2003-04)

*ACIT v. M. N. Rajendrhian (2010) 37 DTR 263 / 127 ITD 244 (TM)(Chennai)(Trib.)*

#### **S. 158BB : Block assessment – Computation – Undisclosed income – Books of account – Evidence [S. 69]**

It is not sufficient that assessee had disclosed the asset, transaction or entry but it is essential that income attributable to transaction has also been disclosed to get the deduction under section 158BB(1).

The books of account maintained in regular course of business, found during course of search constitute "evidence" as contemplate under section 158BB.

In the case of share broker client ID mismatch found during the search would constitute "material" as contemplated under section 158BB(1).

Since all the provisions of section 142 are applicable to assessment under chapter X1V-B, it is always open to Assessing Officer to resort to provisions of section 142(2A), which deal with compulsory audit and findings of compulsory audit have to be taken in to consideration while determining undisclosed income.

Provision of section 69 would be applicable to extent of income not disclosed in transaction recorded in books of account. (A.Y. 2003-04)

**S. 158BC : Block assessment – Procedure – Undisclosed income – Remittances of foreign exchange and investment in Foreign Exchange Bonds (Immunities and Exemptions) Act, 1991 [S. 132]**

During the course of search it was found that the assessee has received India Development Bonds of US dollars 10,000 each by way of gift on November 14, 1994, and February 21, 1995. The amount of ₹ 5,69, 884, after maturity of India Development Bonds was credited in her savings bank account and out of this amount, fixed deposit receipts of ₹ 33, 75,000 were obtained. The Assessing Officer made the addition which was deleted by Tribunal. Hon'ble High Court held that a perusal of sections 6 and 7 of the Remittances of Foreign Exchange and Investment Bonds (Immunities and Exemptions) Act, 1991 makes it clear that no enquiry can be made from the bond holder regarding the source. The immunities are absolute. The Court held that no investigation could be allowed to be held pertaining to the India Development Bonds which were received from non-residents /overseas corporate bodies as gifts.

**S. 158BC : Block assessment – Procedure – Undisclosed income – Investment recorded in books – Assessing Officer treated it as benami investment [S. 158B(f)]**

Search under section 132, covering the periods 1986-87 to 1996-97, was conducted on 22-1-1996 at registered office and the same was concluded on 22-4-1996. Before conclusion of the search some promoters filed affidavits admitting total undisclosed income of ` 40 lakhs Block Return was filed disclosing NIL income. The Assessing Officer completed the assessment at ` 38,64,000/- which was comprising certain amounts which were introduced in the names of some investors. The Assessing Officer treated value of such investment as benami investments in share capital and

the same was added as unexplained cash credit under section 68 disregarding the facts that the same was recorded in account books and had been part of record furnished to the Department. On these facts and circumstances it was held that impugned addition on account of such unexplained cash credit under section 68 was beyond jurisdiction of Chapter XIV-B. (A.Ys. 1986-87 to 1996-97)
